

January 25th, 2025

CURRICULUM VITAE

George Dennis Papandonatos, Ph.D.

Professor (Research), Department of Biostatistics, Brown University.

Contact Information

| Center for Statistical Sciences | Tel: 401-863-9186 |
| Brown University, Box G-S121 | Fax: 401-863-9182 |
| Providence, RI 02912 | E-Mail: gdp@stat.brown.edu |

Education

B.Sc.: First Class Honors in Mathematics, O.R. & Economics, University of Essex, 1987.

Diploma: Statistics, University of Kent, 1988.

Ph.D.: Statistics, University of Minnesota, 1994. Advisor: Seymour Geisser.

Primary Academic Appointments

Assistant Professor, Dpt. of Statistics, SUNY at Buffalo, 1994–1998.

Assistant Professor (Research), Dpt. of Community Health, Brown University, 1998–2009.

Associate Professor (Research), Dpt. of Community Health, Brown University, 2009–2011.

Associate Professor (Research), Dpt. of Biostatistics, Brown University, 2011–2019.

Professor (Research), Dpt. of Biostatistics, Brown University, 2019–present.

Other Academic Appointments

Associate Research Scientist, Research Institute on Addictions, Buffalo, NY, 1996–1998.

Director, Biostatistics Core, TTURC-SPORE P50 Program Project, 1999–2009.

Affiliate Faculty, Centers for Behavioral & Preventive Medicine, The Miriam Hospital, 1999–2009.

Affiliate Faculty, Center for Children’s Environmental Health, Brown University, 2019–present

Editorial Appointments

Consulting Editor: Journal of Consulting & Clinical Psychology, 2007–2010.

Consulting Editor: Health Psychology, 2011–2022.

Associate Editor: Research Synthesis Methods, 2019–2025.

Statistical Advisor: Journal of Applied Gerontology, 2022–2025.

Professional Society Memberships

American Statistical Association

Behavior Genetics Association

International Biometric Society

International Genetic Epidemiology Society

Royal Statistical Society

Society of Behavioral Medicine

Society for Research on Nicotine & Tobacco

University and Departmental Committees

Member: Ph.D. Admissions Committee, Dpt. of Community Health, 1999–2001.

Member: Ph.D. Admissions Committee, Dpt. of Biostatistics, 2009–2018.

Member: M.S. Admissions Committee, Dpt. of Biostatistics, 2018–2026.

Member: Faculty Search Committee, Dpt. of Community Health, 2005–2006.

Member: Faculty Search Committee, Dpt. of Biostatistics, 2011–2012, 2014–2015, 2016–2017.

Chair: Faculty Search Committee, Dpt. of Biostatistics, 2018–2019.

Member: Faculty Promotions Committee, Dpt. of Biostatistics, 2015–2016, 2022–2023.

Chair: Webpage Redesign Committee, Center for Statistical Sciences, 2004–2005.

Member: Executive Committee, Center for Statistical Sciences, 2017–2024.

Member: Research Faculty Professional Development, Dpt. of Community Health, 2005–2011.

Chair: Research Faculty Professional Development, Dpt. of Community Health, 2011–2014.

Member: Faculty Benefits Working Group, Brown Medical School, 2013–2014.

Member: Rhode Island Bio–Bank Initiative, Brown Medical School, 2006–2009.

Member: Strategic Planning Committee, Brown School of Public Health, 2014.

Member: Public Health Faculty Appointments, Brown School of Public Health, 2019–2022.

Member: Medical Faculty Appointments, Division of Biology & Medicine, Brown University, 2023–2026.

Lecture Series Organizing

Organizer: Statistics Seminar, Center for Statistical Sciences, 1999–2003.

Organizer: University Lecture Series, Methods for the Analysis of Imperfectly Measured Data, 1999–2000.

Organizer: University Lecture Series, Latent Variable Methods in Psychiatry & Social Sciences, 2000–2001.

Organizer: University Lecture Series, Social Networks Analysis, Methods & Applications, 2007–2008.

Organizer: University Lecture Series, Making Sense of Big Data: Statistics to the Rescue, 2012–2013.

Organizer: University Lecture Series, Novel Clinical Trial Designs, 2019–2020.

Research Grants Completed (Center of Statistical Sciences Portion of Total Cost: \$8,429,084)

[1] *Multilevel Compliance Model of Breast Cancer Treatments*

Role: Co-Investigator

Principal Investigator: Dr. Mary Fennell

Agency: NCI/Brown University

Type: 1R01 CA074185

Period: January 1, 1998 to December 31, 1999

Total Cost: \$18,637

A project to examine the determinants on non-compliant treatment among a sample of older women with early stage breast cancer from the SEER-Medicare linked databases.

[2] *Nursing Home Care at the End-of Life: Cost & Quality*

Role: Co-Investigator

Principal Investigators: Drs. Vincent Mor & Susan Miller

Agency: Brown/AHCPR

Total Cost: \$45,890 \$ (CSS Portion)

Type: 5R01 HS10549

Period: October 1, 1999 to June 30, 2000

A study of Medicare and Medicaid costs for NH decedents in the last year of life, their distribution by category, and of the impact of Medicare hospice enrollment on hospitalization at the end of life.

[3] *Facility Effects on Racial Differences in Nursing Home Quality*

Role: Co-Investigator

Principal Investigator: Dr. Mary Fennel

Agency: AHRQ/Brown University

Type: 1R01 HS010322

Period: October 1, 1999 to September 30, 2001

Total Cost: \$44,379 (CSS portion)

An exploration of the interplay of race and facility characteristics in determining the Quality of Care received by vulnerable individuals residing in U.S. nursing homes.

[4] *Immunizing Against Tobacco Use in Pediatric Health Care*

Role: Co-Investigator (subcontract PI)

Principal Investigator: Dr. Raymond Niaura

Agency: NIDA/Miriam Hospital Subcontract

Type: 1R01 DA012529

Period: October 1, 1998 to August 31, 2002

Total Cost: \$62,910

A longitudinal comparison of two interventions designed to prevent or delay smoking in adolescents.

[5] *Innovative Approaches to Disease Prevention through Behavior Change*

Role: Co-Investigator (subcontract PI)

Principal Investigator: Dr. Belinda Borrelli

Agency: NHLBI/Miriam Hospital Subcontract

Type: 1R01 HL062165

Period: August 1, 1999 to July 31, 2003

Total Cost: \$155,209

A comparison of two smoking cessation interventions among parents of children with asthma.

[6] *Smoking Cessation in the Chest Pain Observation Unit*

Role: Co-Investigator (subcontract PI)

Principal Investigator: Dr. Beth Bock

Agency: NHLBI/Miriam Hospital Subcontract

Type: 1R01 HL60986

Period: August 1, 1999 to July 31, 2003

Total Cost: \$108,118

A study of the efficacy of a smoking cessation intervention during the 'teachable moment' provided by visits to the chest pain observation unit.

[7] *Nicotine Dependence: Risk and Recovery over Generations*

Role: Director of Biostatistics Core (subcontract PI)

Principal Investigator: Dr. David Abrams

Agency: NCI/Miriam Hospital Subcontract

Type: 1P50 CA084719

Period: September 30, 1999 to September 29, 2004

Total Cost: \$514,333

A project to design and implement (a) studies of trajectories and pathways of smoking initiation and progression to nicotine dependence, and (b) examine the role of premorbid, comorbid, and dependence factors in lifetime smoking patterns and in trajectories and pathways to smoking cessation.

[8] *Smoking Cessation in Emergency Respiratory Patients*

Role: Co-Investigator (subcontract PI)

Principal Investigator: Dr. Beth Bock

Agency: NHLBI/The Miriam Hospital Subcontract

Type: 1R01 HL065595

Period: July 1, 2000 to June 30, 2004

Total Cost: \$107,856

A study of the efficacy of a smoking cessation intervention during the 'teachable moment' provided by ER visits of patients with respiratory problems.

[9] *Exercise Instruction via Phone or Print*

Role: Co-Investigator (subcontract PI)

Principal Investigator: Dr. Bess Marcus

Agency: NHLBI/The Miriam Hospital Subcontract

Type: 1R01 HL064342

Period: October 1, 2000 to September 30, 2004

Total Cost: \$121,031

A longitudinal randomized clinical trial to evaluate the effects of an exercise counseling program delivered by either phone or print as compared to a waiting list control group.

[10] *A Longitudinal Study of Hazardous Drivers with Dementia*

Role: Co-Investigator (subcontract PI)

Principal Investigator: Dr. Brian Ott

Agency: NIA/Memorial Hospital Subcontract

Type: 1R01 AG1016355

Period: October 1, 2001 to April 30, 2007

Total Cost: \$95,266

A longitudinal study of driving impairment among patients with dementia as it relates to changes in visual perception, visual attention, and executive function over the course of the disease.

[11] *Economic Impact of Tobacco Use Across the Life Span*

Role: Co-Investigator (subcontract PI)

Principal Investigator: Dr. Charles Neighbors

Agency: RWJF/The Miriam Hospital Subcontract

Type: RWJF 044595

Period: January 15, 2002 to December 14, 2007

Total Cost: \$58,560

An analysis of family-level data to more accurately estimate costs associated with smoking.

[12] *Evaluating Self-Help Programs for Exercise Adoption and Maintenance in Women*
 Role: Co-Investigator (subcontract PI)
 Principal Investigator: Dr. Melissa Napolitano
 Agency: RWJF/The Miriam Hospital Subcontract
 Type: RWJF-044224
 Period: February 15, 2002 to February 14, 2005
 Total Cost: \$70,345
 A randomized clinical trial to compare three self-help programs for exercise adoption and maintenance in terms of their effectiveness of the two programs and to test their public health impact.

[13] *Computerized Physical Activity Promotion in Primary Care*
 Role: Co-Investigator (subcontract PI)
 Principal Investigator: Dr. Christopher Sciamanna
 Agency: NHLBI/The Miriam Hospital Subcontract
 Type: 1R01 HL067005
 Period: June 1, 2003 to May 31, 2004
 Total Cost: \$33,405
 A study of the effects of computerized physical activity reports (patient & physician) on patients' physical activity levels and endurance fitness

[14] *Physical Activity Promotion in Cancer Follow-up Care*
 Role: Co-Investigator (subcontract PI)
 Principal Investigator: Dr. Bernie Pinto
 Agency: ACS/The Miriam Hospital Subcontract
 Type: RSGPH 03-243-01-PBP
 Period: July 1, 2003 to June 30, 2009
 Total Cost: \$103,043
 A two-group comparison (Brief vs. Extended Advice) for physical activity among patients that have completed treatment for breast or colorectal cancer.

[15] *SES, Cardiovascular Health and Health Behaviors in Vietnam-Era Male Twins*
 Role: Co-Investigator (subcontract PI)
 Principal Investigator: Dr. Jeanne McCaffery
 Agency: NHLBI/The Miriam Hospital Subcontract
 Type: 1R01 HL072819
 Period: June 1, 2004 to May 31, 2007
 Total Cost: \$90,777
 A study of Gene by Environment interactions on cardiovascular health among Vietnam-Era Male Twins, especially of the relationship between educational attainment, smoking, and hypertension.

[16] *Maintaining Exercise after Cardiac Rehabilitation*
 Role: Co-Investigator (subcontract PI)
 Principal Investigator: Dr. Bernardine Pinto
 Agency: NHLBI/The Miriam Hospital Subcontract
 Type: 5R01 HL076734
 Period: July 1, 2004 to May 31, 2010
 Total Cost: \$92,105
 A two-group comparison (Brief vs. Extended Advice) for long-term exercise maintenance among patients that have completed a Phase II cardiac rehabilitation program.

[17] *Internet and Telephone Treatment for Smoking Cessation*
 Role: Co-Investigator (subcontract Co-I)
 Principal Investigator: Dr. Amanda Graham
 Agency: NCI/Georgetown University Subcontract
 Type: 1R01 CA104836

Period: August 25, 2004 to May 31, 2010

Total Cost: \$171,370

A comparison of the efficacy and cost-effectiveness of a premium web-based intervention, alone or in conjunction with proactive telephone counseling to access to a non-interactive control website.

[18] *Promoting Physical Activity after Colorectal Cancer*

Role: Co-Investigator (subcontract PI)

Principal Investigator: Dr. Bernardine Pinto

Agency: NCI/The Miriam Hospital Subcontract

Type: 1R01 CA101770

Period: September 15, 2004 to June 30, 2011

Total Cost: \$91,314

A randomized controlled clinical trial for moderate-intensity physical activity among patients that have completed treatment for breast or colorectal cancer.

[19] *Nicotine Dependence: Phenotype, Endophenotype and Contexts*

Role: Director of Biostatistics Core (subcontract co-I)

Principal Investigator: Dr. Raymond Niaura

Agency: NCI/Butler Hospital Subcontract

Type: 2P50 CA084719

Period: September 30, 2004 to July 31, 2010

Total Cost: \$468,602

A project to conduct a family study of genetic/familial influences on lifetime patterns of tobacco use phenotypes and comorbid psychiatric disorders; conduct an fMRI study of sib pairs discordant for these tobacco use phenotypes; and examine mediation and moderation of the influence of neighborhood factors on the progression of tobacco use, alcohol and other drug use in adolescents.

[20] *Reducing Ethnic Health Disparities: Motivating HIV-positive Latino to Quit Smoking*

Role: Co-Investigator (subcontract PI)

Principal Investigator: Dr. Cassandra Stanton

Agency: NIDA/Butler Hospital Subcontract

Type: 1R01 DA018079

Period: August 1, 2005 to July 31, 2012

Total Cost: \$220,573

A culturally-tailored smoking cessation intervention for a low-income Latino HIV+ population.

[21] *Prenatal Smoking, Fetal Behavior and Infant Withdrawal*

Role: Co-Investigator (subcontract PI)

Principal Investigator: Dr. Laura Stroud

Agency: NCI/The Miriam Hospital Subcontract

Type: 1R01 DA019558

Period: December 1, 2005 to November 30, 2012

Total Cost: \$136,568

A naturalistic study of the effect of maternal smoking during pregnancy on offspring neurobehavior during the fetal and early neonatal period.

[22] *Achieving Physical Activity Guidelines Through an Enhanced Print Intervention*

Role: Co-Investigator (subcontract PI)

Principal Investigator: Dr. Bess Marcus

Agency: NHLBI/The Miriam Hospital Subcontract

Type: 5R01 HL064342

Period: May 1, 2006 to June 30, 2011

Total Cost: \$174,739

A randomized clinical trial of two print-based interventions aimed at enhancing physical activity.

[23] *Naturalistic Assessment of the Driving Ability of Cognitively Impaired Elders*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Brian Ott
Agency: NIA/Rhode Island Hospital subcontract
Type: 5R01 AG101355
Period: May 1, 2007 to April 30, 2012
Total Cost: \$141,890
A comparative evaluation of the driving ability of cognitively-impaired elders both in their natural environment and via a road test.

[24] *Maternal Depression, Placental HPA Regulation and Fetal/Neonatal Stress Response*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Laura Stroud
Agency: NIMH/The Miriam Hospital Subcontract
Type: 1R01 MH079153
Period: September 1, 2007 to July 31, 2010
Total Cost: \$231,040
A naturalistic study of the effect of maternal depression during pregnancy on offspring neurobehavior.

[25] *Psychosocial Telephone Intervention for Dementia Caregiver Burden*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Geoffrey Tremont
Agency: NINR/Rhode Island Hospital Subcontract
Type: 1R01 NR010559
Period: September 28, 2007 to May 31, 2013
Total Cost: \$182,091
Test the efficacy of a multi-component family-based telephone intervention in reducing levels of depression and anxiety, feelings of burden and stress, and family functioning for dementia caregivers.

[26] *Reducing Violence against Women with Alcoholic Partners*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Robert Rychtarik
Agency: NIAAA/SUNY-RIA Subcontract
Type: 1R01 AA0167991
Period: May 1, 2008 to October 31, 2014
Total Cost: \$179,275
Evaluate the effectiveness of a Coping Skills Training program relative to a self-help treatment arm and a delayed-treatment control group.

[27] *Community Volunteers Promoting Physical Activity Among Cancer Survivors*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Bernardine Pinto
Agency: NCI/The Miriam Hospital Subcontract
Type: 1R01 CA132854
Period: January 1, 2009 to November 30, 2013
Total Cost: \$42,644
Assess longitudinal changes in distress, worry, coping and quality of life of cancer patients required to attend follow-up visits for continued surveillance.

[28] *Gene X Behavior Interaction in the Look AHEAD study*
Role: Co-Investigator (subcontract PI)
Principal Investigators: Drs. Rena Wing & Jeanne McCaffery (Multiple PI Mechanism)
Agency: OBSSR/NIDDK/The Miriam Hospital Subcontract
Type: 3U01 DK056992
Period: August 1, 2009 to July 31, 2014
Total Cost: \$209,836
Identify genes that may interact with behavioral lifestyle modification interventions in predicting weight loss at the 12-month follow-up of the Look AHEAD sample.

[29] *Increasing Sleep Duration: a Novel Approach to Weight Control*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Rena Wing
Agency: NCI/The Miriam Hospital Subcontract
Type: 5U01 CA150387
Period: September 28, 2009 to February 28, 2015
Total Cost: \$106,025
Compare weight-related outcomes among subjects assigned to an increased sleep duration modification of standard weight loss programs.

[30] *A State-Wide Initiative to Spread Effective Behavioral Weight Loss Strategies*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Rena Wing
Agency: NIDDK/The Miriam Hospital Subcontract
Type: 1R18 DK083248
Period: July 1, 2010 to June 30, 2015
Total Cost: \$103,660
Compare weight-related outcomes among subjects assigned to an Enhanced version of the Shape-Up RI program versus a Standard arm.

[31] *Genetic and Behavioral Effects on High-Density Lipoprotein: The Look AHEAD Study*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Jeanne McCaffery
Agency: NIDDK/The Miriam Hospital Subcontract
Type: 1R01 DK090043
Period: March 1, 2011 to February 28, 2014
Total Cost: \$138,439
Evaluate gene by treatment interaction models for HDL outcomes in a randomized clinical trial comparing behavioral therapy to a control condition, and explore potential mediation of these interactions via specific aspects of behavioral change related to weight loss, e.g. diet and exercise.

[32] *Acceptance-Based Behavioral Intervention for Weight Loss: a Randomized Trial*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Rena Wing
Agency: NIDDK/The Miriam Hospital Subcontract
Type: 1R01 DK087704
Period: April 15, 2011 to March 31, 2015
Total Cost: \$76,924
Compare weight-regain outcomes among subjects assigned to an acceptance-based behavioral intervention, versus those enrolled in a standard care weight-loss program.

[33] *A Randomized Trial Testing Health Coaches for Obesity Treatment*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Patricia Leahey
Agency: NIDDK/The Miriam Hospital Subcontract
Type: 1R01 DK095771
Period: July 1, 2012 to May 31, 2014
Total Cost: \$40,723
Examine the effect of adding a social support component to a standard behavioral intervention aimed at minimizing weight regain among obese subjects enrolled in a weight loss program.

[34] *Behavioral Weight Loss as a Treatment for Migraine in Obese Women*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Dale Bond
Agency: NINDS/The Miriam Hospital Subcontract
Type: 1R01 NS077925
Period: July 1, 2012 to June 30, 2016
Total Cost: \$94,471
Examine the effect of a behavioral weight loss intervention versus a migraine health-education control in reducing migraine frequency among obese women.

[35] *LIVE SMART: Smartphone Intervention for Weight Control*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. J. Graham Thomas
Agency: NIH/The Miriam Hospital Subcontract
Type: 1R01 DK095779
Period: July 1, 2012 to June 30, 2017
Total Cost: \$157,803
Examine whether smart-phone applications can produce improvements in weight-related outcomes comparable to those than can be achieved via standard behavioral treatment.

[36] *Improving Adherence to Web-based Cessation Programs: a Social Network Approach*
Role: Co-Investigator (subcontract Co-I)
Principal Investigator: Dr. Amanda Graham
Agency: NCI/Legacy Foundation Subcontract
Type: 1R01 CA1555489
Period: October 1, 2012 to April 30, 2017
Total Cost: \$407,200
Examine the extent to which online social support interacts with nicotine replacement therapy in improving smoking abstinence in a randomized clinical trial with a 2x2 factorial design.

[37] *Perceptions and Use of Flavors in Pregnant Smokers and Non-Smokers*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Laura Stroud
Agency: NICHD/The Miriam Hospital Subcontract
Type: 1R01 HD076223 (Administrative Supplement)
Period: May 1, 2014 to April 30, 2017
Total Cost: \$80,114
Use ultrasound measures to characterize effects of maternal smoking on trajectories of fetal neurobehavior and stress response, and determine links between fetal and infant neurobehavioral outcomes.

[38] *Social Dynamics of Substance Use in Online Networks for Smoking Cessation*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Amanda Graham
Agency: NCI/Legacy Foundation Subcontract
Type: 1R01 CA192345
Period: September 19, 2014 to August 31, 2017
Total Cost: \$216,385
Develop and evaluate prediction models for smoking abstinence using information from dynamic participant interactions in an online social network for smoking cessation.

[39] *HPA & Neural Response to Peer Rejection: Biomarkers of Adolescent Depression Risk*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Laura Stroud
Agency: NIMH/The Miriam Hospital Subcontract
Type: 1R01 MH092450
Period: March 1, 2014 to February 28, 2018
Total Cost: \$126,403
Characterize associations between neuroendocrine and neural response to peer rejection, and determine whether they improve MDD prediction over standard covariates with known links to depression.

[40] *Population Health Management for Smoking Cessation among Low-Income Smokers*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Brian Hitsman
Agency: NCI/Northwestern University Subcontract
Type: 1U54 CA202995
Period: September 1, 2015 to August 31, 2018
Total Cost: \$70,269
A randomized clinical trial to evaluate the effectiveness of a population health management intervention that aims to engage patients in smoking cessation treatment and improve abstinence outcomes.

[41] *Endocrine-disrupting Chemicals, Thyroid Hormones, and Child Neurobehavior*
Role: Co-Investigator
Principal Investigator: Dr. Joseph Braun
Agency: NIEHS/Brown University
Type: 1R01 ES024381
Period: April 1, 2015 to March 31, 2019
Total Cost: \$132,585
Determine whether maternal gestational and infant exposure to endocrine-disrupting chemicals have adverse effects on child neurobehavior via alterations in maternal thyroid-stimulating hormone levels.

[42] *Maternal Smoking: HPA and Epigenetic Pathways to Infant Neurobehavioral Deficits*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Laura Stroud
Agency: NIDA/The Miriam Hospital Subcontract
Type: 1R01 DA031188
Period: May 1, 2014 to April 30, 2019
Total Cost: \$123,796
Characterize biological and epigenetic pathways linking maternal smoking with neurobehavioral deficits in offspring during their first year of life.

[43] *Fetal Behavior, Brain and Stress Response: Ultrasound Markers of Maternal Smoking*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Laura Stroud
Agency: NICHD/The Miriam Hospital Subcontract
Type: 1R01 HD076223
Period: May 1, 2016 to April 30, 2019
Total Cost: \$246,527
Use ultrasound measures to characterize effects of maternal smoking on trajectories of fetal neurobehavior and stress response and determine links between fetal and infant neurobehavioral outcomes.

[44] *Improving nutrition and physical activity environments in home-based child care*
Role: Co-Investigator
Principal Investigator: Drs. Patricia Risica & Kim Gans
Agency: NHLBI/Brown University
Type: R01 HL123016
Period: August 1, 2014 to May 30, 2019
Total Cost: \$39,500
A test of the feasibility, acceptability and efficacy of a novel home-based intervention to improve the diet quality and family food environment of preschool age, low-income, ethnically diverse children.

[45] *Predictors of De Novo Development of Obstructive Sleep Apnea in Pregnancy*
Role: Co-Investigator
Principal Investigator: Dr. Ghada Bourjeily
Agency: NHLBI/Women & Infants Hospital
Type: 1R01 HL130702
Period: July 1, 2016 to June 30, 2020
Total Cost: \$100,207
Examine whether women with a specific phenotype are more likely to develop obstructive sleep apnea.

[46] *Optimizing Text Messaging to Improve Adherence to Web-based Cessation Treatment*
Role: Co-Investigator (subcontract Co-I)
Principal Investigator: Dr. Amanda Graham
Agency: NCI/Truth Initiative Subcontract
Type: 1R01 DA038139
Period: September 1, 2015 to July 31, 2020
Total Cost: \$350,756
Examine the extent to which text messaging adherence can be optimized via a fractional factorial design, and whether improved adherence leads to improved abstinence outcomes.

[47] *Behavioral Activation and Varenicline for Smoking Cessation in Depressed Smokers*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Brian Hitsman
Agency: NCI/Northwestern University Subcontract
Type: 1R01 CA184211
Period: September 22, 2014 to August 31, 2020
Total Cost: \$219,341
A randomized clinical trial to evaluate the efficacy of behavioral activation plus varenicline for treating tobacco dependence in depressed smokers.

[48] *Early Life Perfluoroalkyl Substance Exposure & Obesity: Mechanisms & Phenotyping*
Role: Co-Investigator
Principal Investigator: Dr. Joseph Braun
Agency: NIEHS/Brown University
Type: 1R01 ES025214
Period: February 1, 2019 to January 31, 2021
Total Cost: \$59,209
Determine whether pre- or postnatal perfluoroalkyl substance exposures are associated with child obesity, adverse cardio-metabolic markers, and changes in gene regulation.

[49] *A Home-based Video and Motivational Interviewing Intervention to Improve Preschoolers Diet Quality and Parental Food Parenting Practices*
Role: Co-Investigator
Principal Investigator: Dr. Alison Tovar
Agency: NHLBI/Brown University
Type: 1R34 HL140229
Period: July 15, 2018 to June 30, 2021
Total Cost: \$30,486
A test of the feasibility, acceptability and efficacy of a novel home-based intervention to improve the diet quality and family food environment of preschool age, low-income, ethnically diverse children.

[50] *A nested case-control study of exposure to toxic metals, essential metals and their interaction on the risk of type 2 diabetes*
Role: Co-Investigator
Principal Investigators: Dr. Tongzhang Zheng, Simin Liu, & Yana Bai
Agency: NIEHS/Brown University
Type: 1R01 ES029082
Period: March 15, 2019 to February 28, 2023
Total Cost: \$503,615
A nested case-control study to determine whether exposure to specific toxic and essential metals is associated with T2D risk in Jinchang Metal Cohort Study.

[51] *Electronic Cigarettes during Pregnancy: Impact on Fetal Development and Biomarkers*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Laura Stroud
Agency: NIDA/The Miriam Hospital Subcontract
Type: 1R01 DA045492
Period: August 15, 2018 to May 31, 2023
Total Cost: \$260,575
Examine whether maternal smoking of e-cigarettes during pregnancy affects fetal neurobehavior and stress response through specific harmful and potentially harmful constituents, as defined by the FDA.

[52] *Prenatal Marijuana: Impact on Infant Neurobehavior, Stress, and Epigenetic Mechanisms*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Laura Stroud
Agency: NIDA/The Miriam Hospital Subcontract
Type: 1R01 DA044504
Period: September 1, 2017 to July 31, 2023
Total Cost: \$207,396
A longitudinal investigation of the biological and epigenetic pathways linking maternal marijuana smoking during pregnancy with offspring neurobehavioral deficits during the first year of life.

[53] *Environmental heavy metals and risk of ischemic heart disease and stroke in the Brazilian Longitudinal Study of Adult Health (ELSA-Brasil)*
 Role: Co-Investigator
 Principal Investigators: Drs. Simin Liu & Paulo Andrade Lotufo
 Agency: NIEHS/Brown University
 Type: 1R01 ES031391
 Period: May 21, 2020 to December 31, 2023
 Total Cost: \$165,414
 A nested case-control study to determine whether toxic and essential metal exposures affect CVD risk in a population-based cohort of 15,105 Brazilian participants.

[54] *A Residential Dust Control Intervention to Reduce Early Childhood Exposure to Chemical Mixtures*
 Role: Co-Investigator
 Principal Investigator: Dr. Joseph Braun
 Agency: NIEHS/Brown University
 Type: 1R21 ES034187-01
 Period: July 1, 2022 to June 30, 2025
 Total Cost: \$84,664
 Determine if household dust is a major pathway of exposure to mixtures of endocrine-disrupting chemicals and if dust control can reduce exposure to EDCs.

[55] *Gestational PFAS exposure, longitudinal metabolomic profiles, and adolescent cardiometabolic health*
 Role: Co-Investigator
 Principal Investigator: Dr. Joseph Braun
 Agency: NIEHS/Brown University
 Type: 1R01 ES032836-01
 Period: September 25, 2021 to July 31, 2025
 Total Cost: \$345,669
 Identify metabolic alterations and biological pathways that mediate the associations between prenatal exposure to PFAS mixtures and cardiometabolic sequelae in early adolescence.

Current Research Grants (Center of Statistical Sciences Portion of the Total Cost: \$3,374,243)

[1] *Mechanisms of Risk and Resilience to Age-Related Cognitive Decline: A 60-Year Prospective Study*
 Role: Co-Investigator
 Principal Investigators: Drs. William Heindel & Stephen Buka
 Agency: NIA/Brown University
 Type: 1R01 AG063334
 Period: September 15, 2020 to April 30, 2026
 Total Cost: \$524,529
 A longitudinal cohort study of the joint effects of genetic risk and early developmental challenges on neurocognitive mechanisms that may delay the onset of AD pathology and moderate the impact of AD pathology on cognitive performance in older adults.

[2] *Perfluoroalkyl substances and risk of kidney cancer in US men and women*
 Role: Co-Investigator
 Principal Investigators: Drs. Tongzhang Zheng & Loren Lipworth
 Agency: NIEHS/Brown University
 Type: 1R01 ES034014-A1
 Period: June 20, 2023 to May 31, 2027
 Total Cost: \$243,417
 A nested case-control study to determine whether risk of kidney cancer is associated with exposure to mixtures of perfluoroalkyl substances and is moderated by established baseline risk factors.

[3] *Exposure to endocrine disrupting chemicals via consumption of ultra-processed foods: implications for maternal metabolic health in pregnancy*
Role: Co-Investigator
Principal Investigators: Drs. Rita Strakovsky & Joseph Braun
Agency: NIEHS/Michigan State University
Type: 1R21 ES036628-01A1
Period: July 15, 2025 to June 30, 2027
Total Cost: \$70,214
A study to quantify associations of ultra-processed foods with markers of maternal metabolic health.

[4] *Early life organophosphate ester exposures and adiposity and cardiometabolic health during adolescence*
Role: Co-Investigator
Principal Investigator: Dr. Ann M. Vuong
Agency: NIEHS/University of Nevada (Las Vegas)
Type: 1R01 ES033200-A1
Period: September 21, 2022 to July 31, 2027
Total Cost: \$105,676
Quantify the impact of POE exposure on adiposity and cardiometabolic risk in the first 12 years of life.

[5] *Associations of Prenatal PFAS Mixtures with Adult Metabolic, Vascular and Bone Health*
Role: Co-Investigator
Principal Investigators: Drs. Joseph Braun & Jessie Buckley
Agency: NIEHS/Brown University
Type: 1R21 ES039946-01
Period: September 10, 2025 to September 9, 2027
Total Cost: \$44,976
Estimate the effect of gestational exposure to PFAS mixtures on metabolic, vascular, and bone health in mid-adulthood and determine whether diet quality and physical activity mitigate such adverse effects.

[6] *Early developmental risk for cardiovascular disease: High-risk subgroups, biomarkers & mechanisms*
Role: Co-Investigator
Principal Investigators: Drs. Stephen Buka & Charles Eaton
Agency: NHLBI/Brown University
Type: 1R01 HL174917-01
Period: August 1 2024 to May 31, 2028
Total Cost: \$422,560
A study to evaluate the association of select biomarkers reflective of placental dysfunction, chronic fetal hypoxia, and cardiac programming with adult CHD risk and cardiometabolic outcomes.

[7] *Mechanisms of mindfulness training to reduce maternal and infant cardiovascular disease risk*
Role: Co-Investigator (subcontract PI)
Principal Investigator: Dr. Margaret Bublitz
Agency: NHLBI/The Miriam Hospital Subcontract
Type: 1R01 HL172869-01
Period: May 15, 2024 to March 31, 2029
Total Cost: \$1,037,340
A study to test the enduring effects of prenatal MT on postpartum psychological, physiological, and interpersonal processes that may confer risk for maternal and infant cardiovascular disease.

[8] *Prenatal PFAS Exposure and Adult Cardiometabolic Disease*
Role: Co-Investigator
Principal Investigator: Dr. Joseph Braun
Agency: NIEHS/Brown University
Type: 1R01 ES037335-01
Period: August 6, 2025 to May 31, 2029

Total Cost: \$388,084

Determine the impact of gestational and concurrent exposure to PFAS mixtures and serum EOF on the risk of Metabolic Syndrome in mid-adulthood using a prospective cohort of 751 NEFS participants.

[9] *Effects of endogenous and exogenous ovarian hormones on Electronic Nicotine Delivery Systems Use*

Role: Co-Investigator (subcontract PI)

Principal Investigator: Dr. Chrystal Vergara-Lopez

Agency: NIDA/The Miriam Hospital Subcontract

Type: 1R01 DA061808-01A1

Period: August 1, 2025 to April 30, 2030

Total Cost: \$397,927

Examine reinforcement & nicotine metabolism pathways linking ovarian hormones to ENDS use.

Research Grants under Review (Center of Statistical Sciences Portion of Total Cost: \$947,340)

[1] *Testing the Efficacy of a Personalized Multi-Domain Behavioral Intervention for Alzheimer's Disease and Related Dementias Risk Reduction in Midlife*

Role: Co-Investigator (subcontract PI)

Principal Investigators: Drs. Laura Korthauer and Jennifer Davies

Agency: NIA/Brown University

Type: 1R01AG093970-A1 (Impact Score 29, 3rd Percentile)

Period: December 1, 2025 to November 30, 2030

Total Cost: \$308,741

Submission Date: March 5, 2025

Establish the efficacy of a personalized multi-domain behavioral intervention in reducing Alzheimer's Disease risk and increasing engagement in target health behaviors in middle-aged adults at risk for AD.

[2] *Early Determinants of Long-term Disability in Adulthood: A 60-Year Cohort Study using Medicare Claims Data*

Role: Co-Investigator

Principal Investigators: Drs. Stephen Buka and Emmanuelle Belanger

Agency: NIA/Brown University

Type: 1R21AG093552-A1

Period: April 1, 2026 to March 30, 2028

Total Cost: \$46,800

Submission Date: October 5, 2025

A study of administrative claims data to determine the relationship between childhood SES, adverse childhood experiences, and long-term disability.

[3] *Prenatal exposure to PFAS and risk of breast cancer: a 60-year prospective cohort study*

Role: Co-Investigator

Principal Investigators: Drs. Tongzhang Zheng & Stephen Buka

Agency: NIEHS/Brown University

Type: 1R01CA307390-01

Period: July 1, 2024 to June 30, 2028

Total Cost: \$403,050

Submission Date: November 5, 2025

A case-control study nested within the NEFS cohort to determine whether the risk of breast cancer is associated with exposure to mixtures of perfluoroalkyl substances and whether this association is moderated by cholesterol levels.

[4] *Multidimensional sleep health as a mechanism of blood pressure control after mindfulness training*
 Role: Co-Investigator (subcontract PI)
 Principal Investigator: Dr. Margaret Bublitz
 Agency: NHLBI/The Miriam Hospital Subcontract
 Type: 1R21 HL177722-01
 Period: July 1, 2026 to June 30, 2028
 Total Cost: \$71,748
 Submission Date: November 5, 2025
 Test sleep health as a mediator of the association between prenatal mindfulness training and cardiovascular risk factors.

[5] *Investigating polycyclic aromatic hydrocarbons as reproductive toxicants and exposure via consumption of ultra-processed foods*
 Role: Co-Investigator
 Principal Investigators: Drs. Rita Strakovsky & Joseph Braun
 Agency: NIEHS/Michigan State University
 Type: 1R01
 Period: July 1, 2026 to June 30, 2031
 Total Cost: \$117,001
 Submission Date: November 5, 2025
 A study to examine whether in utero exposure to mixtures of polycyclic aromatic hydrocarbons (PAHs) is associated with altered concentrations of cord blood hormones and anogenital distance (AGD) at birth, and with AGD change between birth and five months.

K–Award Research Mentor/Consulting Biostatistician

[1] *The Long-term Benefits of Cardiac Rehabilitation in Men and Women*
 Principal Investigator: Dr. John Todaro
 Agency: NHLBI/The Miriam Hospital
 Type: K23 HL004473
 Period: March 1, 2001 to February 28, 2006
 A comparison of the long-term psychological and quality-of-life benefits of cardiac rehabilitation.

[2] *Computer-Assisted Cancer Risk Behavior Counseling*
 Principal Investigator: Dr. Christopher Sciamanna
 Agency: NCI/The Miriam Hospital
 Type: K07 CA091976
 Period: September 1, 2001 to August 31, 2006
 A randomized controlled trial evaluating the impact of providing computer-tailored, patient-specific reports to physicians on their counseling regarding smoking, diet and physical activity.

[3] *Puberty, HPA Reactivity and Sex Differences in Depression*
 Principal Investigator: Dr. Laura Stroud
 Agency: NIMH/The Miriam Hospital
 Type: K23 MH65443
 Period: June 1, 2002 to March 31, 2007
 An examination of sex differences in adrenocortical stress responses and depression over puberty.

[4] *Efficiency of Tailoring Treatment to Smoker Subgroup*
 Principal Investigator: Dr. Charles J. Neighbors
 Agency: NCI/The Miriam Hospital
 Type: K07 CA90961
 Period: July 1, 2002 to June 30, 2007
 A cost-effectiveness study to compare tailored-step care to standard treatment in smokers.

[5] *Psychobiological and Genetic Determinants of Smoking Cessation*
Principal Investigator: Dr. Sean David
Agency: NIDA/The Miriam Hospital
Type: K08 DA14276
Period: September 27, 2002 to August 31, 2007
A study to test whether bupropion interacts with genotype to influence behavioral mediating variables that place smokers at increased risk of relapse.

[6] *Peer Group Networks and Adolescent Smoking*
Principal Investigator: Dr. Cassandra Stanton
Agency: NCI/The Miriam Hospital
Type: K07 CA95623
Period: May 1, 2004 to April 30, 2010
An application of social network analysis to the critical examination of the role membership of smoking peer groups plays in the initiation and progression of adolescent smoking.

[7] *A Prospective Study of Weight Change in College Freshmen*
Principal Investigator: Dr. Elizabeth Lloyd
Agency: NHLBI/The Miriam Hospital
Type: K23 HL69987
Period: July 1, 2004 to June 30, 2010
A longitudinal naturalistic study of weight change among college freshmen, followed by an junior year intervention to reduce weight gain among subjects identified as high risk.

[8] *Neurobehavioral Regulation of Cigarette Cravings*
Principal Investigator: Dr. Brian Hitsman
Agency: NIDA/The Miriam Hospital
Type: K08 DA017145
Period: September 30, 2004 to June 30, 2010
Study the effects of depression on smoking urges and pathophysiological responses to smoking cues.

[9] *Impact of Gestational & Postnatal Triclosan Exposure on Eczema, Wheeze and Asthma Risk in Children*
Principal Investigator: Dr. Medina S. Jackson-Browne
Agency: NIEHS/Brown University
Type: F32 ES029812
Period: May 1, 2019 to June 30, 2019
Characterize eczema and wheeze phenotypes from gestation through age eight years using latent class trajectory modeling and identify periods of heightened susceptibility to triclosan exposure.

Ph.D. Dissertation Committees

- [1] Member: Pankaj Kumar, Ph.D. in Marketing, SUNY at Buffalo (1997)
“*Dynamic Bayesian Hierarchical Models of Consideration and Choice: Issues and Estimation*”
- [2] Member: Joo Yeon Lee, Ph.D. in Biostatistics, Brown University (2006)
“*Sensitivity Analysis and Informative Priors for Longitudinal Binary Data with Dropout*”
- [3] Chair: Bahar Erar, Ph.D. in Biostatistics, Brown University (2016)
“*Whole Genome Regression for Gene by Environment Interactions in Structured Populations*”
- [4] Member: Jessica Shoaff, Ph.D. in Epidemiology, Brown University (2016)
“*Early-Life Exposure to Endocrine-Disrupting Chemicals: Implications for Child Birthweight, Growth and Adiposity*”
- [5] Member: Anthony Scottina, Ph.D. in Biostatistics, Brown University (2018)
“*Estimation of Causal Effects of Multiple Treatments*”

“Exploring Relationships between Affect and Exercise in Predicting Tobacco Cravings and Odds of Smoking Abstinence”

Courses Taught (SUNY at Buffalo)

Graduate:

- STA517 Categorical Data Analysis (Fall 1997)
- STA575 Survival Analysis (Fall 1996)
- STA581 Multivariate Analysis (Spring 1998)

Dual Designation (Undergraduate/Graduate):

- STA401/501 Introduction to Probability & Statistics I (Fall 1994, Spring 1996)
- STA402/502 Introduction to Probability & Statistics II (Spring 1995)
- STA405/505 Computational Methods in Statistics (Fall 1997)
- STA409/509 Introduction to Statistical Quality Control (Fall 1995)
- STA433/503 Regression & Design of Experiments I (Fall 1994, Fall 1995, Fall 1996)
- STA435/504 Regression & Design of Experiments II (Spring 1995, Spring 1996, Spring 1997)
- STA436/506 Introduction to Biostatistics (Spring 1997, Spring 1998)

Courses Taught (Brown University)

Graduate:

- BC213 Principles of Biostatistics & Data Analysis (Fall 1998)
- BC250 Categorical Data Analysis (Spring 1999)
- BC251 Linear and Generalized Linear Models (Spring 2001)
- BC253 Analysis of Longitudinal Data (Fall 1999)
- PHP2950 Doctoral Seminar in Public Health (Fall 2016)
