ADDITIONAL INFORMATION

Personal statement of research and research objectives

I am an epidemiologist and an Assistant Professor (Research) at Brown University. I have a primary faculty appointment with the Division of General Internal Medicine at the Warren Alpert Medical School, and a secondary appointment with the Department of Epidemiology at Brown School of Public Health. I also hold a position as a Research Scientist at Rhode Island Hospital. My research has focused on reducing the health and social burdens associated with substance use and HIV among under-served populations. My expertise is in the design and implementation of mixed-methods community-based studies, as well as survey development, data management, and longitudinal data analysis. I have experience in program evaluation in both community and clinical settings. My research has appeared in numerous journals including the *American Journal of Public Health*, *Addiction*, *International Journal of Drug Policy*, *JIAS* and the *Milbank Quarterly*. I am a reviewer for several journals, including *Addiction*, *Drug and Alcohol Dependence*, and *Lancet Public Health*, and recently joined the Editorial Board of the *International Journal of Drug Policy*.
