Extramural Funding

Active as PI/Project Lead (Total Award Amount Provided)

2021-2026	Role: PI	National Institute of Nursing Research (R01NR020227)	\$3,726,531
Efficacy of a PrEP uptake & Adherence Intervention among male sex workers using a 2-stage randomization design			
This project will test the efficacy of the PrEPare for Work intervention package in a two-stage randomized controlled trial to increase PrEP uptake and adherence among men who engage in sex work with other men in Providence, Rhode Island and Los Angeles, CA.			
2021-2024	Role: PI	National Institute of Mental Health (R34MH126894)	\$631,656
Making universal, free-of-charge antiretroviral therapy work for sexual and gender minority youth in Brazil			
This project will develop and pilot test a group-based intervention to improve ART adherence and viral suppression among sexual and gender minority youth in Rio de Janeiro, Brazil.			
2020-2025	Role: PI	National Institute on Drug Abuse (R01DA051849)	\$3,711,511
Efficacy of a community-based PrEP uptake intervention for people who inject drugs in the US Northeast			
This project will test the efficacy of PrEP for Health intervention to increase PrEP uptake and adherence among people who inject drugs (PWID) at syringe service programs in Massachusetts.			
2020-2024 (NCE)	Role: PI	National Institute of Mental Health (R34MH122499-01A1)	\$650,436
Developing and Pilot Testing an Adaptive Intervention to Facilitate PrEP Uptake and Maximize PrEP Adherence among At-Risk Transgender Women			
Informed by over a decade of formative research and programmatic work with TGW, our interdisciplinary investigator team designed the "PrEP N' Shine" intervention package that addresses multilevel barriers to PrEP uptake and adherence among TGW via two separate but complementary interventions that includes: 1) peer-led, strengths-based case management (SBCM) for PrEP linkage and uptake; and 2) a stepped-care "adaptive" technology and counseling intervention to optimize PrEP adherence and retention in PrEP-related care.			

2022-2029	Role: Project Lead	National Institute of Child Health and Human Development (UM2HD111102)	\$1,910,927
Adolescent Medicine Trials Network for HIV/AIDS Interventions (ATN) Scientific Leadership Center: IMPACT			
As part of the Adolescent Medicine Trials Network for HIV/AIDS Interventions (ATN) Scientific Leadership Center, Dr. Katie Biello and the Brown University team will lead the protocol entitled, "Hybrid Type 2 Effectiveness-Implementation Trial of Status Neutral, Behavioral Activation for Treatment of Stimulant Use Disorder Among Sexually Active Young MSM." The Brown University team will actively participate in the design, implementation and oversight, and dissemination of the study. Additionally, the Brown University team will participate in recruitment, enrollment and intervention activities for the "virtual" implementation of the intervention. Finally, the Brown University team will lead the development of manuscripts and presentations from the study.			
2023-2029	Role: Site PI	National Institute of Child Health and Human Development (UM2HD111076)	\$2,150,645
Adolescent Medicine Trials Network for HIV/AIDS Interventions - Operations and Collaborations Center: Fenway Health Site			
The ATN OCC will work collaboratively with the ATN Scientific Leadership Center and the Executive Committee in developing and implementing the ATN scientific agenda through establishing and maintaining the ATN operational infrastructure, providing organizational support, and ensuring site consortium (SC) capacity for the ATN's research projects and with external collaborations.			

Active as Co-I

2019-2024	Role: Co-I (PI: Marshall)	National Institute on Drug Abuse (R01DA047975)	
The Rhode Island Young Adult Prescription and Illicit Drug Study (RAPIDS): Responding to Fentanyl and Associated Harms			
This study will test the efficacy of a novel drug-checking intervention to prevent fatal and non-fatal overdose among young adults who use drugs. We will evaluate whether the incorporation of rapid fentanyl testing into a theory-driven overdose education and counseling program reduces rates of overdose compared to standard overdose education and naloxone distribution. Results from this study will significantly improve public health efforts to address the fentanyl overdose epidemic and reduce harms associated with exposure to drugs contaminated with fentanyl among young adults.			
2018-2028	Role: Co-I/ Developmental Core Co-Director (PI: Cu-Uvin)	National Institute of Allergy and Infectious Diseases (P30AI042853)	
Providence/Boston Center for AIDS Research			
The mission of the Providence/Boston CFAR is to promote the NIH HIV priority research agenda, including translational research to reduce the burden of HIV infection worldwide, with special focus on substance users, women, MSM, justice-involved persons, and at-risk youth.			
2017-2024 (NCE)	Role: Co-I (MPI: Mimiaga/ Safren)	National Institute on Drug Abuse (R01DA042805)	

Integrated Behavioral Activation and HIV Risk Reduction Counseling for MSM with Stimulant Abuse

This application builds off of our successful formative and pilot work and is designed to assess the efficacy, in a three-arm randomized controlled trial (RCT), of Project IMPACT—a behavioral intervention to reduce high-risk sex in MSM with stimulant use disorder who are at risk for HIV acquisition.
--

2017-2024	Role: Co-I (PI: Cu-Uvin/ Operario)	Fogarty International Research Training (D43TW010565)
-----------	--	---

Brown University and University of the Philippines Training Program for the Prevention of HIV in Vulnerable Populations

The purpose of this study is to provide leadership, training and mentorship in HIV research among vulnerable populations to scientists in the Philippines in order to strengthen their capacity to carry out important research in a rapidly growing epidemic.

Completed

2016-2023	Role: Co-I (MPI: Mimiaga/ Garofalo)	National Institute of Nursing Research (R01NR017098)
-----------	---	--

Adaptive intervention strategies trial for strengthening adherence to antiretroviral HIV treatment among youth
--

The purpose of this study is to conduct a randomized controlled efficacy trial of an integrated behavioral and technology intervention to improve adherence to antiretroviral therapy in adolescents with HIV, aged 16 - 24.
--

2017-2022	Role: Co-I (PI: Mayer)	National Institute of Child Health and Human Development (U19HD089881-01; R01 Sub-Project)

Life-Steps to enhance PrEP adherence in young MSM (ATN 158)

This project is designed to test, first as a pilot and then as an RCT, a nurse-delivered intervention to improve PrEP adherence among high-risk young men who have sex with men (YMSM) in the United States.
--

2016-2022	Role: PI	National Institute of Child Health and Human Development (U19HD089881-01; R01 Sub-Project)	\$1,191,425

COMPARE (Comparison of Men's Prevention Apps to Research Efficacy)
--

As part of the UNC/Emory Center for Innovative Technology (iTech) across the prevention and care continuum, the efficacy of the MyChoices app and the LYNX app to increase HIV testing and PrEP uptake among young men who have sex with men will be tested in a R01-equivalent three-arm, six site randomized controlled trial.

2017-2021	Role: Consultant (PI: Sullivan)	Centers for Disease Control and Prevention (U01PS005181)
-----------	------------------------------------	--

Engaging African American and Latino MSM for HIV testing and prevention services through technology

This project is designed to implement a comparative effectiveness study of two technology-based products (HealthMindr and Health MPowerment) to increase uptake of HIV testing among Hispanic and Black MSM in high prevalence states across the United States.

2014-2020	Role: Co-I (MPI: Mimiaga/Safren)	National Institute of Mental Health (R01MH100627)	
Fostering resilience to psychosocial and HIV risk in Indian MSM			
This study is testing the efficacy of a self-acceptance-based intervention in comparison to HIV / VCT on co-primary outcomes: STI incidence and reduced episodes of unprotected anal sex among HIV-infected and uninfected MSM in Chennai and Mumbai, India. The incremental cost-effectiveness of the intervention and HIV/STI VCT relative to HIV/STI VCT alone is being assessed, considering individual and public health benefits as well as downstream cost-savings due to HIV infections averted.			
2016-2020	Role: PI	National Institute of Mental Health (R34MH110369)	\$729,478
Optimizing PrEP uptake & Adherence among MSWs			
This project will pilot test the PrEPare for Work intervention package in a two-stage randomized controlled pilot trial in Providence, Rhode Island, providing preliminary data on acceptability and feasibility, and initial effect size estimates.			
2017-2020	Role: PI	National Institute of Mental Health (3R34MH110369-02S1)	\$149,872
A Supplement to Promote Diversity: Optimizing PrEP uptake & Adherence among MSWs			
Through this diversity supplement, we aim to better understand successful strategies for engaging the clients of male sex workers in HIV prevention efforts and identifying both risk and protective factors for HIV infection. Additionally, this award will enhance Mr. Edeza's doctoral training in implementing HIV prevention research and honing the necessary skills for an impactful research career.			
2016-2020	Role: PI	National Institute of Child Health and Human Development (U19HD089881-01; R21 Sub- Project ID 8784)	\$777,103
Mobile-Based Application "MyChoices" to Increase Uptake of HIV Testing, Detection of New HIV Infections, and Linkage to Care and Prevention Services by Young Men Who Have Sex With Men			
As part of the UNC/Emory Center for Innovative Technology (iTech) across the prevention and care continuum, the MyChoices app will be developed and pilot tested in an R21-equivalent study, providing preliminary data on acceptability and feasibility of the app to increase HIV testing and PrEP uptake among young men who have sex with men.			
2018-2020	Role: PI	Boston/Providence Center for AIDS Research	\$50,000
Rapid Assessment of PrEP Acceptability and Need among Non-Urban PWID in the US Northeast			
In the proposed study, we will build on our recent, productive CFAR-funded collaboration (mPIs Biello and Bazzi) to meet the following specific aims: (1) Conduct qualitative interviews with 16 key informants to explore perspectives on feasibility and specific implementation considerations for PrEP delivery to PWID in "hot spot" small cities and non-urban areas in MA and RI; (2) Conduct focus groups with 80 PWID in these areas (3) Conduct daily, modified ecological momentary assessments			
2016-2017	Role: PI	Brown/Lifespan Center for AIDS Research	\$40,000

Optimizing bio-behavioral HIV prevention approaches for people who inject drugs		
This proposal aims to adapt an existing theory- and evidence-based HIV treatment adherence intervention to address the specific and complex barriers and facilitators to PrEP uptake and adherence among people who inject drugs in Boston and Providence.		
2016-2017	Role: PI	Brown University, Watson Institute Collaboration Grants
\$10,000		
Exploratory research to reduce health inequalities among HIV positive adolescents in Brazil		
This is an exploratory research study to inform an intervention for HIV infected adolescents, ages 15 to 24, in Rio de Janeiro, Brazil. We will conduct formative research with community advisory board members, key informants, and HIV infected adolescents to inform the adaptation of a behavioral intervention for improving adherence to antiretroviral therapy among Brazilian youth. The resulting integrated counseling- and technology-based HIV medication adherence intervention package (called "Passos Positivos") will serve as the basis for an NIH R application.		
2013-2017	Role: PI	National Institute on Drug Abuse (R21DA035113)
HIV risk for MSM sex workers: A social, sexual and drug network simulation study		
This is a longitudinal epidemiological study of MSM sex worker networks in Massachusetts and Rhode Island to identify protective and risk factors that affect HIV transmission dynamics. Longitudinal data will enhance our understanding of how contemporary social, sexual, and drug abuse network characteristics contribute to increased HIV/STI spread among MSM sex workers.		
2016-2017	Role: Co-I (PI: Mayer)	MAC AIDS Foundation
Development of an mobile-based Application to Increase Uptake of HIV Testing, Detection of New HIV Infections, and Linkage to Care and Prevention Services by Young U.S. Men who have Sex with Men		
This project is designed to develop a HIV prevention mobile-based ("app") that will be highly acceptable to young men who have sex with men (YMSM), the U.S. population at greatest risk for acquiring HIV.		
2016-2017	Role: PI	Brown University OVPR, Grant Resubmission Award
Optimizing PrEP uptake & Adherence among MSWs		
This grant provides support to strengthen the proposal for resubmission of an NIMH application to develop and pilot test a behavioral intervention to increase PrEP uptake and adherence among male sex workers in Providence, RI.		
2013-2015	Role: PI	National Institute for Drug Abuse (R21 DA035113)
HIV Risk for MSM Sex Workers: A Social, Sexual, & Drug Network Simulation Study		
This project proposes to conduct a longitudinal epidemiological assessment of a sample (N = 140) of MSM sex worker networks in Massachusetts and Rhode Island to identify protective and risk factors that affect HIV transmission dynamics longitudinally.		
2013-2015	Role: PI of Harvard University CFAR award	National Institute of Allergy and Infectious Diseases (P30AI060354)

Sexual Network of a Diverse Sample of MSM: An Acceptability and Feasibility Study		
This is a pilot study to examine the feasibility and acceptability of conducting a sociocentric sexual network study among a racially diverse, high-risk group of MSM in the greater Boston area.		
2011-2015	Role: Project Director (PI: Mimiaga)	National Institute for Drug Abuse (R21DA033720-01)
Information technology for HIV prevention among vulnerable men in India		
This proposal is to develop and pilot test a new intervention that will use mobile phone technologies to reduce sexual risk taking among male sex workers in Chennai and Mumbai, India.
