COMMUNITY SERVICE

Sep 2013 SEE, TEST AND TREAT PROGRAM
Sep 2014
May 2015 I was responsible for leading and coordinating the See, Test and Treat Program in RI. This involved free cervical and breast cancer screenings and testing for HIV, Hepatitis B and immunizations for 100 uninsured/underinsured women from RI. Same day screening, results, treatment and follow-up care were provided. A CAP grant helped support patient-related expenses. The event was successfully implemented on September 21, 2013 with help from over one hundred volunteers. A few previously undetected cervical and breast cancers were diagnosed. This event was the first of its kind to be conducted in Rhode Island. Since then, similar events were conducted in 2014 and 2015.

Q&A PROGRAM IN THE BROWN / MOI PROGRAM FOR PREVENTION OF CERVICAL CANCER, KENYA

This is a collaborative cervical cancer prevention program between The Warren Alpert Brown University and MOI University School of Medicine in Kenya. Supported by a Fogarty Grant, this project compared Pap smear with VIA (visual inspection with acetic acid) for cervical cancer diagnosis in Kenyan women. I was responsible for reviewing Pap smears and biopsies for Q.A purposes.
