C. Evidence of successful mentoring

Mentoring is an important aspect of my career. In addition to mentoring individual trainees, I am responsible for training activities at the programmatic level. I am co-Director of the Professional Development Committee for the PVAMC CfNN, and lead two rehabilitation research training centers CoHSTAR and LeaRRn- which provide training opportunities for postdoctoral fellows, faculty fellows, Scholars and mentored pilot awardees. I completed an Advance-CTR Mentoring Training Program hosted at Brown University.

I have served as a senior career mentor to four very successful Brown University faculty members (Thomas, Mills, Zullo, Goldberg) all of whom have now been promoted to Associate Professor and become independent investigators with strong funding records. I have participated as a mentor on 6 VA CDA applications (3 of which were funded). I have mentored 7 postdoctoral fellows and interns, several medical residents, and served as a research advisor for 9 physical therapist scientists (the majority of whom are faculty at other institutions), advisor or thesis reader for 18 graduate students (masters and doctoral level), and 4 undergraduate students. I currently co-mentor a VA postdoctoral fellow (Barth) and a PhD student at Brown University (Roberts), a Learning Health Systems Scholar (Liu), a pilot awardee (Black) funded by LeaRRn, and am the primary mentor for a CoHSTAR faculty fellow (Beneciuk). I am on the mentoring committee of VA CDA 2 applicant Jonathan Calvert, and VA CDA1 application Joseph Kopke. All of my former postdoctoral fellow mentees have academic positions, and three have been promoted to Associate Professor.
