 Sexual and reproductive health, rights, and justice
 Cancer screening and prevention among marginalized groups
 Lesbian, gay, bisexual, transgender, and queer (LGBTQ+) health equity

RESEARCH GRANTS

Active Grants

CIRA Pilot Grant Program, Center for Interdisciplinary Research on AIDS, Yale University 04/2023-03/2024

Role: Principal Investigator

Project Title: Effect of minimum wage laws on HIV diagnosis and prevention among Black U.S. women and men

Total Amount: \$25,000

This mixed-methods research project examines the association between state minimum wage laws and HIV diagnoses among Black U.S. women and men using difference-in-differences analysis and explores potential policy interventions using focus groups with key-informants.

Interdisciplinary Research Leaders, Robert Wood Johnson Foundation

11/2022-10/2025

Role: Multiple-Principal Investigator (with S Ramanadhan and D Holness)

Title: Identifying practice-based strategies to promote mental health among LGBTQ+ youth of color in the context of structural racism and anti-LGBTQ+ stigma

Total Amount: \$78,000

The proposed study will answer the following research questions: (1) What tailored, scalable strategies do community-based organizations use to promote mental health among LGBTQ+ youth of color? and (2) How do community-based organizations customize these strategies based on laws and policies related to structural racism and anti-LGBTQ+ stigma in their state?

Catalyst Pilot Grant Program, Brown University School of Public Health 03/2022-02/2023
Role: Multiple-Principal Investigator (with K Biello and Angela Bazzi)
Project Title: Multi-level gendered racism and access to and use of Pre-Exposure Prophylaxis (PrEP) among Black and Latina U.S. women who use drugs
Total Amount: \$20,000

The goal of qualitative this qualitative research study is to elucidate how gendered racism at multiple levels of influence shapes access to and utilization of PrEP among Black and Latina women who use drugs in MA and RI using in-depth interviews and key-informant interviews with health care providers.

NIH R01, NIMH/NIH (1R01MH119892-01A1) 12/2019-11/2024
Role: Co-Investigator (PI: K Nelson)
Title: Minor consent laws and HIV prevention among adolescents in the United States
Total Amount: \$2,675,847

The goal of this project is to assess the effectiveness of laws intended to support access to HIV/STI testing, treatment, and prevention services for minors; provide actionable evidence for legislators, health organizations, adolescent health care providers, and adolescents themselves; and decrease barriers to HIV/STI testing, treatment, and prevention services for adolescents in the U.S.

Grant Applications or LOIs Under Review

NIH R01, NINR/NIH 04/2024-03/2029
Role: Principal Investigator
Title: Policy determinants of sexual and reproductive health disparities among U.S. women
Total Amount: \$4,110,170

The objective of the proposed study is to examine how state laws designed to benefit marginalized people—namely, state Medicaid expansion, Earned Income Tax Credit, and paid sick leave laws—differentially influence sexual and reproductive health outcomes and services use among U.S. women at diverse intersections of race/ethnicity, sexual orientation, and income, including those who are multiply marginalized.

NIH R01, NIMHD/NIH 09/2023-08/2028
Role: Principal Investigator
Title: Impact of structural discrimination on sexual and reproductive health disparities among U.S. women
Total Amount: \$4,042,337

The present study provides the first comprehensive investigation of the differential and simultaneous effects of structural racism-, heterosexism-, and sexism-related state laws on sexual and reproductive health outcomes and services use among subgroups of U.S. women at diverse intersections of race/ethnicity and sexual orientation.

NIH R01, NICHD/NIH 09/2023-08/2028
Role: Co-Investigator (PI: M Wallace)
Title: From associations to action: Policy interventions for the prevention of maternal death
Total Amount: \$178,041

The proposed project will evaluate the impact of state-level policies on trends and inequities in both pregnancy-related mortality and pregnancy-associated homicide. It will involve the development of a state policy database for linkage to secondary data for the purposes of econometric analyses.

NIH R01, NICHD/NIH 12/2023-11/2028
Role: Co-Investigator (PI: SB Austin)
Title: Structural determinants of racial/ethnic disparities in use of dangerous and deceptive dietary supplements during the COVID-19 pandemic: A multi-level spatial investigation in a national cohort
Total Amount: \$306,722

Dr Agénor will oversee the development of the structural racism legal database using policy surveillance methods. She will participate in research team meetings and contribute her expertise on structural racism and racial ethnic

inequities to the proposed project's study design, data analysis and interpretation, and manuscript and presentation preparation.

Completed Grants

LGBTQ & Racial Justice Small Grant, Williams Institute, UCLA School of Law 05/2021-05/2022

Role: Principal Investigator

Title: Discrimination and sexual and reproductive health care among Black LGBQ cisgender and transgender women, transgender men, and non-binary people in the U.S.

Total Amount: \$4,300

The goal of this project is to examine the association between racism, heterosexism, and cissexism and sexual and reproductive health services use among Black lesbian, gay, bisexual, and queer cisgender and transgender women, transgender men, and non-binary people in the U.S. using a national cross-sectional online survey.

CFAR Developmental Grant, Providence/Boston Center for AIDS Research (CFAR) 01/2021-12/2021

Role: Co-Investigator (PI: AR Gordon)

Title: Multi-level determinants of PrEP awareness, attitudes, and experiences in a national survey of transgender and gender diverse U.S. young adults

Total Amount: \$40,000

The goal of this mixed-methods study is to examine how individual-, interpersonal-, and societal-, level factors influence PrEP awareness, attitudes, and experiences among transgender and gender diverse young adults in the U.S.

Tufts Springboard, Tufts University 09/2020-08/2021

Role: Co-Investigator (PI: J Allen)

Title: HPV vaccine uptake among racially/ethnically diverse U.S. women ages 27-45 years

Total Amount: \$50,000

The goal of this mixed-methods study is to investigate the perceptions, attitudes, and experiences of diverse groups of U.S. women aged 27-45 years with regard to expanded HPV vaccination coverage for this age group.

Grant to Address LGBTQ Health Disparities, Massachusetts Medical Society 08/2020-03/2021

Role: Supervising Faculty (PI: A Rhodes)

Total Amount: \$4,000

The goal of this qualitative pilot study is to analyze in-depth interviews exploring the HPV vaccination beliefs, attitudes, and experiences of transgender and non-binary assigned female at birth young adults.

TFI Pilot Study Funding, The Fenway Institute, Fenway Health 11/2019-06/2021

Role: Principal Investigator

Title: Understanding the HPV vaccination beliefs, attitudes, and experiences of transgender and non-binary assigned female at birth young adults

Total Amount: \$2,500

The goal of this qualitative pilot study is to conduct in-depth interviews exploring the HPV vaccination beliefs, attitudes, and experiences of transgender and non-binary assigned female at birth young adults.

NCI K01, NCI/NIH (1K01CA234226-01) 09/2018-08/2021

Role: Principal Investigator

Title: Policy- and provider-level determinants of human papillomavirus vaccination disparities among young U.S. women

Total Amount: \$158,403

The goal of this career development award is to facilitate the acquisition of new knowledge and skills in health services research, health policy, and advanced econometric analyses and investigate how state health policies and health care provider attitudes, beliefs, and decision-making processes influence human papillomavirus vaccination among young women of color and sexual minority women using econometric and qualitative approaches.

- Pilot from REIDS Program, NIH/NIMH (R25MH087217)** 9/2018-08/2020
 Role: Principal Investigator
 Title: HIV and STI risk and prevention among transmasculine individuals of color
 Total Amount: \$20,000
 The goal of this mixed-methods pilot study is to investigate how patient-, provider-, community-, and societal-level factors influence HIV/STI testing among Black, Latinx, and Asian transmasculine individuals using a national online survey and focus groups.
- Aerosmith Endowment Fund for Prevention and Treatment of HIV and Other Sexually Transmitted Infections, Boston Children's Hospital** 04/2018-03/2019
 Role: Co-Investigator (PI: AR Gordon)
 Title: Enhancing HIV and STI prevention among transgender young adults: Exploring the role of gender affirmation, body image, and intimate partnerships
 Total Amount: \$9,982
 The goal of this mixed-methods formative research project is to examine the links between body image, intimate partnerships, and sexual health and sexual risk behaviors among transgender and non-binary young adults using in-depth interviews and online surveys.
- Small Research Grant, Society of Family Planning** 09/2017-02/2019
 Role: Principal Investigator
 Title: Access to and utilization of contraception and abortion services among transmasculine individuals
 Total Amount: \$15,000
 This qualitative research study examines the reproductive health perceptions, attitudes, and experiences of transmasculine young adults using in-depth interviews.
- LGBTQ Health Disparities Pilot Grant, Harvard Catalyst** 07/2017-06/2018
 Role: Co-Investigator (PI: SB Austin)
 Title: Health and economic impacts of state laws on sexual minorities of color
 Total Amount: \$25,000
 This quantitative research study uses econometric methods to ascertain the effect of sexual orientation and racial justice-related laws and policies on the health, health care, and economic outcomes of black, Latinx, and Asian sexual minorities.
- Ruth L. Kirchstein National Research Service Award (1F32HD086999-01)** 02/2016-01/2019
 Role: Principal Investigator
 Title: Sexual orientation and human papillomavirus vaccination among young women of color
Note. Funded but declined due to promotion to faculty position on February 1, 2016.
 The goal of this mixed-methods study was to elucidate the social determinants of HPV vaccination among young adult sexual minority women using nationally representative survey data and in-depth interviews.
- American Cancer Society Postdoctoral Fellowship (128863-PF-15-149-01-CPHPS)** 01/2016-12/2018
 Role: Principal Investigator
 Title: Sexual orientation and human papillomavirus vaccination among young women
 Total Amount: \$163,500
Note. Funded but returned due to promotion to faculty position on February 1, 2016.
 The goal of this mixed-methods study was to elucidate the social determinants of HPV vaccination among young adult sexual minority women using nationally representative survey data and in-depth interviews.
- Pilot from CBPR Partnership Academy, NIH/NIMHD (1R25GM111837-01)** 09/2015-08/2016
 Role: Principal Investigator
 Title: Promoting positive body image among racially/ethnically diverse pre-adolescent girls in Boston, MA
 Total Amount: \$1,500

This community-based participatory research project used focus groups to elucidate the body image experiences and promote positive body image among pre-adolescent girls from diverse racial/ethnic backgrounds living in underserved Boston neighborhoods in partnership with Strong Women Strong Girls.

Dissertation Research Grant, The Open Gate, Harvard Gender and Sexuality Caucus 09/2012-05/2013

Role: Principal Investigator

Title: Cervical cancer screening among black lesbian, bisexual, and queer women

Total Amount: \$2,100

This qualitative study examined the cervical cancer screening experiences of black sexual minority women using focus groups.

Unfunded Grant Applications or LOIs

NIH R01, NIMHD/NIH 04/2022-03/2027

Role: Co-Investigator (MPI: C Howe, A Keita, J Raifman)

Title: Minimizing racial/ethnic disparities due to structural racism during the COVID-19 pandemic: Antiracist policies as resilience resources

Total Amount: \$626,047

Rich publicly available data will be used to quantify, overall and stratified by gender or % female headed household, racial/ethnic disparities in housing insecurity and COVID-19 mortality rates in relation to state policies concerning minimum wage, eviction freezes, and unemployment insurance.

NIH R01, NIMHD/NIH 07/2022-06/2027

Role: Principal Investigator

Title: Contextual determinants of sexual and reproductive health disparities among U.S. women

Total Amount: \$3,167,528

Score: 35 (percentile: 20th)

The present study investigates associations between state laws that mitigate structural racism, heterosexism, classism, and sexism (i.e., state Medicaid expansion, minimum wage, and Earned Income Tax Credit (EITC) laws) and sexual and reproductive health outcomes and services use among U.S. women over time using 2006-2019 National Survey of Family Growth data and difference-in-differences analysis as well as the independent and simultaneous effects and mechanisms of interpersonal racism, heterosexism, classism, and sexism on sexual and reproductive health care using a mixed-methods research study design involving a national online survey followed by in-depth interviews among subgroups of U.S. women at diverse intersections of race/ethnicity, sexual orientation, and socioeconomic position.

NIH R01, NIMHD/NIH 04/2022-03/2027

Role: Principal Investigator

Title: Impact of structural racism, heterosexism, and sexism on racial/ethnic and sexual minority women's sexual and reproductive health

Total Amount: \$3,373,596

Score: 27 (percentile: N/A)

The objective of the present study is to develop multi-year (2006-2021) structural racism, heterosexism, and sexism legal databases and indices for all 50 U.S. states and Washington, D.C. and examine independent and joint associations between these legal indices and sexual and racial/ethnic minority women's sexual and reproductive health over time using 2006-2019 National Survey of Family Growth data and differences-in-differences analysis.

Policies for Action, Robert Wood Johnson Foundation 09/2021-08/2023

Role: Principal Investigator

Project Title: Advancing racial equity in HIV/AIDS: The effect of state and city minimum wage laws on HIV diagnoses among Black U.S. women and men

Total Amount: \$250,000

This research project examines the association between state and city minimum wage laws and HIV diagnoses among Black U.S. women and men using difference-in-differences analysis and multilevel modeling.

Administrative Supplement, NIH/NCI (5P30CA006516-55)

09/2020-08/2021

Role: Co-Project Leader (with C. Panozzo; PI: L. Glimcher)

Project Title: Refining tailored messaging strategies to address concerns about the human papillomavirus vaccine among ethnically diverse Black mothers in Boston, MA

Total Amount: \$20,000

The goal of this qualitative study is to investigate HPV vaccine attitudes among ethnically diverse Black mothers with adolescents in Boston, MA using focus groups and develop tailored video messages addressing their concerns.

RESEARCH CONSULTING

NIH R01, NICHD/NIH

Role: Consultant (PI: K. Joyner)

Project Title: Contextual determinants of sexual minority health in the United States

Provide expertise in the development of multiyear state-level legal databases of state laws related to structural discrimination.
