Teaching Interests

Undergraduate: International and Comparative Political Economy, the Politics of Ideas and Political Change, the History of Political Economy, Financial Markets and Globalization, the Politics of Decarbonization.

Graduate: International and Comparative Political Economy, the Politics of Finance, Ideas and Political Economy, Causation and Complexity in the Social Sciences, Growth Models, Decarbonization.

Teaching: Graduate Classes

Systemic Approaches to Understanding Risk

On-line master's class on topics ranging from tail risk to far from equilibrium systems.

Comparative Political Economy

Survey of the comparative capitalisms literature from to early work on strong and weak states through globalization to the literature on labor and central banks and finally growth models and (neo) regime theory.

Money, Power, Taxes, Growth

Executive MBA class for Brown-IE joint Degree

The Politics of Policymaking in Comparative Perspective

MPA program introduction to the political forces within which policymakers operate.

The Political Economy of Global Finance

Graduate Colloquium on discrete areas of global finance. Topics covered include hedge funds, high frequency and algo-trading, offshore banking, exchange rate regimes, the role of key currencies, inequality and finance.

Ideas, Institutions and Politics

Graduate survey of literatures on ideas and institutions across and beyond political science.

International Political Economy

Graduate survey of the evolution of IPE as a field. Topics covered include; trade, finance, governance, and distribution.

Global Markets

Exec MBA course taught with *Instituto Empresa*, Madrid, Spain. Deals with how business and government meet in an international economy characterized by different varieties of capitalism.

Critical Finance for the 21st Century.

Exec MBA course taught with *Instituto Empresa*, Madrid, Spain. Deals with non-linearities, fat tailed events, and crises in financial systems.

The Political Economy of Hard Policy Problems

MPA and Senior Seminar that deals with those issues that governments would like to (perhaps) do something about but find that it's really hard to do something about it. Topics covered include economic Growth, Inherited Wealth, Inequality, Social Mobility, Money in Politics, Rent-Seeking in Finance, and the distributional politics of Austerity.

Complexity and Politics (co-taught with William Connolly)

Applications of complexity theory and related works to politics drawn from chemistry, biology, statistics, neuroscience, causation, and philosophy.

Capitalism and Christianity (co-taught with William Connolly)

Graduate level seminar where Political Economy and Political Theory meet at the intersection of markets and belief. Topics covered include the Weber thesis, Christianity and Consumption, Morality and Markets.

Government in the Global Economy

Master's level course that charts state strategies for dealing with the ever-changing global economy. American, Swedish, German, East Asian and African experiences are compared from the 1920's to the present.

Growing Apart? American and Europe in the Twenty First Century

Masters seminar that examines the developmental trajectories of Europe and the United States from their founding to the present. Topics covered include Race, Equality, Exceptionalism, Power, Welfare, Markets.

Theories of Comparative Politics

Graduate survey of the comparative politics subfield. Topics covered include states, institutions, rational choice, trans-nationalism and networks, representation.

Social Science Logics and Methods

Graduate survey course focusing upon different logics of understanding within the social sciences. Course teaches logics of argumentation, evidence, inference, and research design.

Core Texts of Contemporary Social Science

Graduate survey of key, but perhaps not as widely known, works in IR and beyond.

Ideas and Politics

Graduate seminar on how ideational factors effect political and economic outcomes, with special emphasis on theories of endogenous change.

The Rise and Fall of the Welfare State?

Graduate course examines the origins, rise and retrenchment of the welfare state as a particular institutional form of capitalism from a variety of theoretical perspectives.

Graduate Seminar in Political Economy (co-taught with David Harvey)

Detailed Examination of the works of Gramsci and Keynes.

Thinking Economically – a History of Economic Thought - (Master of Liberal Arts)

Master's level course surveys economic arguments from Locke to Lucas.

Democracy, Development, and Globalization

MA level seminar on how these three issues are co-implicated in development and what this means for the limits of such projects.

Teaching: Undergraduate Classes

From Growth to the Green Transition

Senior seminar that examines the intellectual and policy history of economic growth. The course surveys the standard literature on growth and reads that against recent interventions on de-growth, Green Growth, and other alternative understandings of economic wellbeing.

The Political Economy of Hard Policy Problems

Lecture class that deals with those issues that governments would like to (perhaps) do something about but find that it's really hard to do something about it. Topics covered include economic Growth, Inherited Wealth, Inequality, Social Mobility, Money in Politics, Rent-Seeking in Finance, and the distributional politics of Austerity.

Classics of Political Economy

Undergraduate introduction to Political Economy that focuses on the 'classics' texts of political economy from John Locke to Robert Lucas.

Money and Power in the IPE

Undergraduate Lecture course based around the monetary systems of the 20th and 21st Centuries from the Gold Standard to Bitcoin.

Foundations of Political Economy

Capstone senior seminar examining foundational texts in political economy.

The Politics of the Global Economy

Survey of contemporary developments in the global economy; trade, finance, power, etc. Co-taught jointly with Nicolas Jabko and Cornelia Woll at Sciences Politique, Paris, Fall 2007.

Introduction to Political Economy One

Undergraduate introduction to Political Economy that focuses on the ‘classics’ texts of political economy from Locke to Lucas.

Introduction to Political Economy Two

Undergraduate introduction to Political Economy that focuses on the rise and decline of global monetary orders from the Gold Standard to Bretton Woods to Neoliberal Globalization.

International Political Economy

Undergraduate seminar in comparative politics focused on the themes of development, democracy, agency, and globalization.

Introduction to Comparative Politics

Undergraduate survey of comparative politics from a developmentalist perspective stressing how timing and state capacity shape development and democracy as outcomes across the globe.

Seminar in International Political Economy

Senior seminar that juxtaposes orthodox and heretical readings of key IPE issues.

Political Economy and Political Science

Undergraduate class that examines the relationship between economics and politics from a variety of Liberal, Marxist and Keynesian perspectives.

Development, Democracy and Globalization

Undergraduate class that examines the relationship between economic development and political democracy in a variety of historical and institutional settings.
