UNIVERSITY TEACHING ROLES (continued)

Prepared and led laboratories and small group sessions on:

1. Chronic Obstructive Pulmonary Disease
2. Interstitial Lung Disease
3. Pulmonary Infections
4. Pulmonary Neoplasms.

Working closely with the director of the pathophysiology part of the course, developed clinicopathological sessions to present to the students a multidisciplinary approach to patient care. As a result of this collaboration, we succeeded in seamlessly integrating the pathology, pathophysiology and physiology components into a single course: "From Health to Disease – Pulmonary"

2014 Lecturer
Warren Alpert Medical School of Brown University, Providence, RI
Interstitial Lung Disease and Tuberculosis (80 mins)
Pulmonary Pathology (BIOL3663)

2016 Lecturer
