Research in Experimental High-Energy Physics

Member of the **CMS Collaboration** since 2024.
Member of the **ATLAS Collaboration** from 2010-2023 (signing author, 2015-2024).

- Differential jet and jet substructure measurements.
- Hadronic object reconstruction & calibration; boosted object tagging.
- Searches for new particles, particularly in hadronic final states.
- *(prev.)* Characterization of prototype, radiation-hard CMOS pixel sensors.

Positions

Brown University — *Providence, Rhode Island, USA*
January 2024 — Present — **Assistant Professor of Physics (Research)**
- **Affiliate:** The NSF AI Institute for Artificial Intelligence and Fundamental Interactions (IAIFI)
- **Affiliate:** Brown University Data Science Institute (DSI)

University of Manchester — *Manchester, Greater Manchester, England, UK*
*April 2023 — December 2023** — **Postdoctoral Research Associate**
- *Resigned to begin position at Brown University.*

CERN — *Meyrin, Geneva, Switzerland*
January 2021 — March 2023 — **Senior Research Fellow**

University of Arizona — *Tucson, Arizona, USA*
July 2017 — December 2020 — **Postdoctoral Research Associate**

Education

University of Victoria — *Victoria, British Columbia, Canada*
Fall 2011 — Spring 2017 — **Ph.D.**, Experimental Particle Physics
Advisor: Rob McPherson (IPP / University of Victoria)

Acadia University — *Wolfville, Nova Scotia, Canada*
Fall 2007 — Spring 2011 — **B.Sc.(H.)**, Physics & Mathematics

Research Grants

- **US Department of Energy, Office of High Energy Physics Comparative Review Funding Award** (PI, w/ Co-PI J. Roloff), *Computational Advances to Enable Precision Physics at the HL-LHC, 2025-2027, $600k.*
- **Brown University Data Science Institute Seed Grant** (PI, w/ J. Roloff), *Staying positive: eliminating negative sample weights using optimal transport, 2024-2025, $25k.*

Awards

- **2025 Breakthrough Prize in Fundamental Physics**
  - *I was among the 13,508 scientists who were awarded this prize for their contributions to the ATLAS, CMS, LHCb and ALICE Experiments during Run 2 of the LHC at CERN.*
- **Wu-Ki Tung Award for Early-Career Research in QCD**, *CTEQ Collaboration 2022*.
  - Citation: *"For important contributions to the measurements of QCD dynamics using jets and jet substructure, as well as for long standing contributions and leadership in jet reconstruction and calibration."*

NSERC	**Postgraduate Scholarship - Doctoral**, *2014-2017.*
University of Victoria	**President's Research Scholarship**, *2012-2013, 2014-2017.*
NSERC	**Alexander Graham Bell Canada Graduate Scholarship**, *2012-2013.*
University of Victoria	**Fellowship**, *2011-2012.*
Acadia University	**'University Scholar' Designation**, *2011.*
AUPAC 2011	**NSERC Representative's Honourable Mention** (Presentation Prize).
TRIUMF	**Summer Student Award - Atlantic Region**, *2010.*
NSERC	**Undergraduate Summer Research Award**, *2010*, *Declined.*
Acadia University	**Kenneth A. Killam Award**, 2010.
Acadia University	**Dr. Lalia B. Chase Scholarship**, 2008, 2009, *2010*.
Acadia University	**Honours Research Summer Award**, *2009*.
Acadia University	**Acadia Physics Departmental Scholarship**, *2009*.
Acadia University	**Edgar Delap Bent Memorial Scholarship in Physics**, *2008*.
Acadia University	**Alfred D. Arthurs Scholarship in Chemistry**, *2007*.
Acadia University	**Acadia Excellence Scholarship**, *2007*.

Leadership in Experimental Collaborations

CMS Collaboration

Member 2024 - Present

- **L3 Convener**, MC Generators — Physics Modeling and Validation Subgroup, *2025-present.*
- **MC Contact Person**, Jets & Missing Energy Group, *2025-present.*

US Muon Collider Collaboration

Member 2024 - Present

- **Hadronic Reconstruction Performance Contact Person**, *2025-present.*

ATLAS Collaboration

Member 2010 - 2024, Signing Author 2015 - 2024

- **Physics Coordination**, *ex officio* member (Jet/EtMiss Convenership), *2022-2023.*
- **Jet/EtMiss Combined Performance Group Convener**, *2022-2023.*
  - **Coordination of work from ~200 contributing physicists**, across five subgroups on topics related to jet and missing transverse momentum reconstruction, calibration, software and R&D for new approaches.
  - **Oversight of ~30 'Authorship Qualification Projects'** (work typically performed by new graduate students, postdocs and faculty when joining the collaboration).
  - **Led the collaboration-internal review of public results,** including 6 peer-reviewed publications, 12 other preliminary results and ~25 presentations at international conferences that were prepared by members of the group.
- **Subgroup Convener**, Standard Model Jet & Photon Physics, *2020-2022.*
  - *Management and review of ~15 ongoing physics measurements and associated publications.*
- **Subgroup Convener**, Jet/EtMiss Definitions & MC Calibrations, *2019-2020.*
  - *Coordination of research activities for ~30 researchers working in the area of hadronic object reconstruction and calibration using simulation-based techniques.*
- **Subgroup Convener**, Jet/EtMiss Jet Energy Scale & Resolution, *2018-2019.*
  - *Coordination of research activities for ~80 scientists working in this the area of jet reconstruction and calibration using both in situ and simulation-based techniques.*
- Other roles
  - **Shift Leader**, ATLAS Control Room. *Run 2, 3 pp and Pb+Pb data-taking & pilot-beam operations between 2018-2022.*
  - **Coordinator**, core software ('Athena') code review shifts. *2017-2021.*
  - **Liaison,** between Jet/EtMiss and Supersymmetry Groups. *2017-2020.*
  - **Calo/Forward Detector Shifter**, ATLAS Control Room. *Run 2 pp data-taking in 2015.*

Publications and preliminary results

- ***I am an author of over 828 peer-reviewed results since 2015****, as a contributing member of large high-energy physics collaborations. Listed below are selected results where I have made a significant, personal contribution.*
- *In experimental high-energy physics, a* ***Contact Editor*** *is a leadership role on an analysis team, acting as a point of contact to the larger experimental collaboration. They are responsible for coordinating analysis efforts, preparing the manuscript, and for ensuring that the physics results are produced in a timely and accurate manner.*
- *In both experimental and theoretical high-energy physics, authorship order is conventionally* ***strictly alphabetical.*** *In some cases, editors or working group conveners are listed before other contributors for e.g. community white-papers.*

Peer-reviewed publications & proceedings

24 R. Gambhir, M. LeBlanc & Y. Zhou, *The Pareto frontier of resilient jet tagging.* Accepted by the NeurIPS 2025: Machine Learning & the Physical Sciences Workshop at the 39th annual conference on Neural Information Processing Systems (NeurIPS), San Diego, California, USA. 2-7 December 2025. arXiv:2509.19431

23 ATLAS Collaboration, *Measurement of Jet Track Functions in ATLAS Run 2 Data.* Phys. Lett. B 868 (2025) 139680. *ATLAS-STDM-2022-05, arXiv:2502.02062 [hep-ex].*

- Theory associate for analysis (STA): Ian Moult (Yale)
- *Main analyzer: I designed the analysis chain up to the statistical interpretation and directly mentored the student who ran it for the analysis (J. Pan, Yale), and contributed to the manuscript.*

22 C. Cesarotti & M. LeBlanc, *A Field Guide to Event-Shape Observables Using Optimal Transport.* Submitted to JHEP. arXiv:2409.13150 [hep-ph].

- *I produced the simulated Monte Carlo studies used for this study, performed the studies that used them, and wrote the manuscript.*

21 ATLAS Collaboration, *A precise measurement of the jet energy scale derived from single-particle measurements and in situ techniques in proton-proton collisions at sqrt(s)= 13 TeV with the ATLAS detector*. Submitted to Eur. Phys. J. C. ATLAS-JETM-2022-06, arXiv:2407.15627 [hep-ex].

- *Technical Contribution: I made significant technical contributions to the ATLAS reconstruction software that enabled this study, and contributed to the design of this proof-of-concept calibration.*

20 ATLAS Collaboration, *Measurements of jet cross-section ratios in 13 TeV proton--proton collisions with ATLAS.* Phys. Rev. D 110 (2024) 7, 072019. ATLAS-STDM-2020-04, arXiv:2405.20206 [hep-ex].

- *Contact editor & main analyzer: I designed & ran the data analysis chain up to the statistical interpretation, and wrote the manuscript.*

19 ATLAS Collaboration, *Measurements of Lund subjet multiplicities in 13 TeV proton-proton collisions with the ATLAS detector.* Phys. Lett. B 859 (2024) 139090. ATLAS-STDM-2023-07, arXiv:2402.13052 [hep-ex].

- *Contact editor & main analyzer: I designed the analysis chain up to the statistical interpretation and directly mentored the student who ran it for the analysis (E. Smith, University of Chicago), and wrote the manuscript.*

18 ATLAS Collaboration, *Pursuit of paired dijet resonances in the Run 2 dataset with the ATLAS detector.* Phys. Rev. D 108 (2023) 112005. ATLAS-EXOT-2022-18. arXiv:2307.14944 [hep-ex].

- *Contact editor & main analyzer: I ran the data analysis chain up to the statistical interpretation, and wrote the manuscript.*

17 M. LeBlanc, B. Nachman & C. Sauer, *Going off topics to demix quarks and gluons in extractions of* α_S. J. High Energ. Phys. 02 (2023) 150. arXiv:2206.10642 [hep-ph].

16 ATLAS Collaboration, *Measurements of multijet event isotropies using optimal transport with ATLAS.* J. High Energ. Phys. 10 (2023) 060. doi:10.1007/JHEP10(2023)060. arXiv:2305.16930 [hep-ex].

- *Contact editor & main analyzer: I designed the analysis in consultation with C. Cesarotti, ran the data analysis chain and wrote the manuscript.*
- Theory associate for analysis (STA): Cari Cesarotti (MIT)
- ATLAS physics briefing: *Giving collisions a new shape: New ATLAS result measures isotropy of LHC events*.

15 ATLAS Collaboration, *New techniques for jet calibration with the ATLAS detector*. Eur. Phys. J. C 83 (2023) 761. ATLAS-JETM-2022-01, arXiv:2303.17312 [hep-ex].

14 B. Nachman, S. Rappoccio, N. Tran (editors) *et al. Jets and Jet Substructure at Future Colliders.* Front. Phys. 10, 22 June 2022. arXiv:2203.07462 [hep-ph].

Hardware-related results (peer-reviewed)

As a CERN Fellow, I worked in a lab of ~20 researchers characterizing prototype, radiation-hard, monolithic (CMOS) silicon sensors by performing both bench-top studies and test-beam measurements at CERN's North Area. These results were typically published as technical, peer-reviewed conference proceedings: the lead author was the speaker, and the other contributors followed alphabetically.

Research Presentations

Plenary and invited talks

21 *Extractions of the strong coupling from ATLAS and CMS Run 2 data. 15th Annual Workshop on QCD at the LHC (QCD@LHC 2025)*. Stony Brook University, New York, USA. 8-12 September 2025. Plenary, On behalf of the ATLAS and CMS Collaborations.

20 *Working Group 1 Summary: Minimum Bias, Underlying Event & Monte Carlo Generators.* 14th International Workshop on Multi-Parton Interactions at the LHC (MPI@LHC 2023). University of Manchester, Manchester, England. 20-24 November 2023. Plenary.

19 *Studies of hadronisation and the Underlying Event / Multi-Parton Interactions with ATLAS Run 2 Data. 14th International Workshop on Multi-Parton Interactions at the LHC (MPI@LHC 2023)*. University of Manchester, Manchester, England. 20-24 November 2023. Plenary, on behalf of the ATLAS Collaboration.

18 *Giving events a new shape : measurements of multijet event isotropy at ATLAS using optimal transport.* ML4Jets 2023. DESY, Hamburg, Germany. 6-10 November 2023. Plenary, on behalf of the ATLAS Collaboration.

17 *Testing the Strong Force with Photons and Jets.* Standard Model at the LHC (SM@LHC 2023). Fermilab National Laboratory, Batavia, Illinois, USA. 10-14 July 2023. Plenary, on behalf of the ATLAS and CMS Collaborations.

16 *Breaking q/g degeneracies when extracting the strong coupling from jet substructure.* First Lund Jet Plane Institute, CERN Theory Department. 3-7 July 2023. Plenary.

16 *Going off topics to demix quarks and gluons when extracting α_S.* 14th International Workshop on Boosted Object Phenomenology, Reconstruction and Searches in HEP (BOOST 2022). Universität Hamburg, Hamburg, Germany. 15-19 August, 2022. Plenary.

15 *Overview (Experimental).* 14th International Workshop on Boosted Object Phenomenology, Reconstruction and Searches in HEP (BOOST 2022). Universität Hamburg, Hamburg, Germany. 15-19 August, 2022. Plenary.

14 *Jet Reconstruction in ATLAS.* Semi-Visible Jets Workshop 2022, ETH Hönggerberg, Zürich, Switzerland. 5-7 July, 2022. Plenary, on behalf of the ATLAS Collaboration.

13 *Jet and photon physics in ATLAS and CMS.* 56th Rencontres de Moriond: QCD and High-Energy Interactions Session. La Thuile, Aosta, Italy. 19-26 March, 2022. Plenary, on behalf of the ATLAS and CMS Collaborations.

12 *Recent results with radiation-tolerant TowerJazz 180 nm MALTA Sensors.* The 16th Vienna Conference on Instrumentation (VCI2022). Online. 21-25 February, 2022. Plenary.

11 *Jet substructure and event shapes with ATLAS.* 8th annual Conference on Large Hadron Collider Physics (LHCP 2020). Online. 25-30 May, 2020. Parallel, on behalf of the ATLAS Collaboration.

10 *Precision jet substructure measurements with ATLAS Run 2 data.* APS Virtual Meeting, online,18-21 April, 2020. Parallel, on behalf of the ATLAS Collaboration.

9 *Standard Model Highlights & Prospects.* 2019 Brookhaven Forum: Particle Physics & Cosmology in the 2020's. Brookhaven National Laboratory, Upton, New York, USA. 25-27 September, 2019. Plenary, On behalf of the ATLAS and CMS collaborations.

8 *Novel Probes of QCD: Jet Substructure Measurements at the LHC.* 2019 Meeting of the Department of Particles & Fields of the American Physical Society. Boston, Massachusetts, USA. 29 July - 2 August, 2019. Parallel, on behalf of the ATLAS, CMS, ALICE and LHCb collaborations.

7 *Hadronic final state reconstruction in ATLAS SUSY searches.* 11th International Workshop on Boosted Object Phenomenology, Reconstruction and Searches in HEP (BOOST 2019). Cambridge, Massachusetts, USA. 21-27 July, 2019. Plenary, on behalf of the ATLAS Collaboration.

6 *Inclusive searches for squarks and gluinos with the ATLAS detector.* 26th International Workshop on Deep-Inelastic Scattering and Related Topics (DIS 2018). Kobe, Hyogo, Japan. 16-20 April, 2018. Parallel, on behalf to the ATLAS Collaboration.

5 *Tagging boosted top quarks and Higgs bosons in ATLAS.* 7th International Workshop on Boosted Object Phenomenology, Reconstruction and Searches in HEP (BOOST 2015), Chicago, IL, USA. 10-14 August, 2015. Plenary, on behalf of the ATLAS Collaboration.

4 *Direct stop production in boosted hadronic final states*. 50th Winter Nuclear and Particle Physics Conference. Banff, AB, Canada. February 16, 2013.

3 *Top-antitop cross section measurement with the ATLAS detector at the LHC.* Atlantic Universities Physics and Astronomy Conference (AUPAC). St. Francis-Xavier University, Antigonish, NS, Canada. February 4-6, 2011.

2 *Top-antitop cross section measurement with the ATLAS detector at the LHC*. 52nd Canadian Undergraduate Physics Conference (CUPC). Dalhousie University, Halifax, NS, Canada. October 13-16, 2010.

1 *Simulation and interpretation of HA-ADF images in scanning transmission electron microscopy*. Atlantic Universities Physics and Astronomy Conference (AUPAC). Acadia University, Wolfville, NS, Canada. February 5-7, 2010.

Poster presentations

4 *Comparative performance of ATLAS boosted W taggers using different AI/ML algorithms.* 15th International Workshop on Boosted Object Phenomenology, Reconstruction and Searches in HEP (BOOST 2023). Lawrence Berkeley National Laboratory, Berkeley, California, USA. 31 July - 4 August, 2023. Poster, on behalf of the ATLAS Collaboration.

3 *Measurements and Applications of Jet Substructure with the ATLAS Detector.* 2019 Meeting of the Department of Particles & Fields of the American Physical Society. Boston, Massachusetts, USA. 29 July - 2 August, 2019. Poster, on behalf of the ATLAS Collaboration.

2 *Impact of Alternative Inputs and Grooming Methods on Large-R Jet Reconstruction in ATLAS*. 133rd LHCC Meeting Open Session. CERN, Geneva, Switzerland. 26 February - 2 March, 2018. Poster, on behalf of the ATLAS Collaboration.

1 *Jet reclustering and close-by effects in ATLAS Run 2.* 8th International Workshop on Boosted Object Phenomenology, Reconstruction and Searches in HEP (BOOST 2017). Buffalo, NY, USA. 16-21 July, 2017. Poster, on behalf of the ATLAS Collaboration.

Invited seminars and colloquia

8 *Jet Propulsion: Advancing the performance and understanding of hadronic objects for Run 3.* November 17, 2023. **University of Manchester,** Bohr high-energy physics seminar.

7 *Jet Propulsion: Advancing the performance and understanding of hadronic objects for Run 3.* November 16, 2023. **University of Warwick,** high-energy physics seminar.

6 *Jet Propulsion: Advancing the performance and understanding of hadronic objects for Run 3.* November 14, 2023. **Cambridge University,** high-energy physics seminar.

5 *Perspectives on hadronic final states, from up close & far away.* May 24, 2023. **Università di Genova,** seminar on phenomenology of particle physics.

4 *Advances in Jet Physics: Insights into Hadronic Final States & the Strong Force.* March 27, 2023. **Brookhaven National Laboratory,** invited seminar.

3 *Advances in Jet Physics: Insights into Hadronic Final States & the Strong Force.* March 23, 2023. **Southern Methodist University,** invited seminar.

2 *MAPS to Discoveries.* October 21, 2021. **Argonne National Laboratory (online),** invited seminar.

1 *Inside and Out: Precision Jet Physics in ATLAS Run 2.* July 5, 2019. **Georg-August-Universität Göttingen,** summer seminar series.

Other presentations (local, collaboration-internal, *etc.*)

15 *Physics analysis with the Lund Jet Plane.* CMS Standard Model Physics Workshop. CERN, September 22-26, 2025. (remote)

14 *MC Generator Report from JME+BTV.* CMS Physics Days: Physics modelling and MC generators. CERN. April 15-16, 2025.

13 *Flavor corrections: status & plans.* CMS Jets & Missing Energy Workshop. Universität Hamburg, Hamburg, Germany. March 2025.

12 *Closing Summary.* ATLAS Hadronic Calibration Workshop 2023. Instituto de Física Corpuscular (IFIC). Valencia, Spain. September 8, 2023.

11 *Summary of BOOST 2021.* Snowmass Energy Frontier Workshop — Restart, online, 30 August - 3 September, 2021. Parallel.

10 *Highlights of LHCP 2020.* ATLAS Weekly Meeting. CERN (virtual). 9 June, 2020.

9 *Jets and missing transverse energy in Run 3.* ATLAS Physics & Performance Week. CERN. January 27-31, 2020.

8 *Post-mortem: hadronic object reconstruction in Run 2.* ATLAS Run 2 Physics — Reaching New Heights Workshop. CERN. December 9-13, 2019.

7 *ATLAS jet substructure measurements.* ATLAS Standard Model Physics Workshop. University of Belgrade, Belgrade, Serbia. September 17-20, 2019.

6 *Status and Challenges of Jet Reconstruction, Substructure and Missing Transverse Energy.* US ATLAS Hadronic Final State Forum XIII. Lawrence Berkeley National Laboratory, Berkeley, California, USA. December 10-14, 2018.

5 *Novel Probes of QCD.* ATLAS End-of-Year Jamboree 2018. CERN. December 7, 2018.

4 *Jet substructure — beyond tagging.* ATLAS Hadronic Calibration Workshop XIII. Toronto, Canada. 28 August - 1 September, 2017.

3 *Tagging boosted objects.* ATLAS Hadronic Calibration Workshop XII. Corfu Summer Institute, Corfu, Greece. September 22, 2016.

2 *Searching for stops with boosted tops*. NSERC funding agency review of ATLAS Canada. TRIUMF, Vancouver, BC, Canada. December 11, 2014.

1 *Direct stop production in boosted hadronic final states.* ATLAS Canada Workshop. Simon Fraser University, Vancouver, BC, Canada. May 8, 2013.

Teaching

Brown University

- **Physics 0040**, ***Basic Physics B****, instructor.*
  - *Fall ’25, enrollment: 49 students.*
  - *Fall ’24, enrollment: 39 students.*
- **Physics 0560, *Experiments in Modern Physics,*** *instructor.*
  - *Spring ’26, enrollment unknown.*
  - *Spring ’25, enrollment: 44 students.*

Summer/Winter Schools, Pedagogical Lectures, *etc.*

- **Brown University Physics AI Winter Workshop,** *5-9 January 2026.*
  Applications of Optimal Transport in High-Energy Physics, instructor.
- **BOOST 2024,** *“BOOST Camp” experimental instructor.*
  - Pedagogical module for 16th International Workshop on Boosted Object Phenomenology, Reconstruction and Searches in HEP (BOOST 2024), Genova, Italy. 29 July.
- **Brown University Physics AI Winter Workshop,** *16-19 January 2024.*
  The evolution of boosted top tagging at the LHC, co-instructor.
  - Online: **https://indico.physics.brown.edu/event/2/overview**
  - Over 470 participants registered for this workshop.

University of Victoria

- **Physics 112, Introductory Physics II.** *Lab Instructor, Spring 2012.*
- **Physics 112, Introductory Physics I.** *Lab Instructor, Fall 2011.*

Acadia University

- **Math 2723, Intro. Differential Equations.** *Teaching Assistant, Spring 2010.*
- **Physics 1063, Gen. Physics II.** *Lab Assistant: Spring 2010.*
- **Math 1023, Intro. Calculus II.** *Studio Assistant: Fall 2010.*
- **Physics 1053, Gen. Physics I.** *Lab Assistant: Fall 2009 .*
- **Physics 1023, Intro. Physics II.** *Lab Assistant: Spring 2009.*
- **Physics Department Drop-In Help Centre.** *Tutor, Fall 2008.*

Supervision and mentoring

Doctoral students

3 **Yuanchen Zhou,** anticipated PhD: 2029

- Studying the performance of AI-based jet calibrations for the CMS Experiment, particularly in the context of potential bias due to the use of flavor disaggregated data in training
- CMS Data Quality Remote Shifter (Jets & Missing Energy), 2025.

2 **Camille Mauceri**, anticipated Ph.D. 2028

- Contributing to studies of negative weight mitigation in collider physics simulations and to improvements for charged particle track reconstruction in dense environments for the CMS Experiment.
- CMS Data Quality Remote Shifter (Jets & Missing Energy), 2025.

1 **Rishabh Jain**, anticipated Ph.D. 2027

- Contributing to studies of negative weight mitigation in collider physics simulations and to in situ charged-hadron calibrations for the CMS Experiment.
- CMS Data Quality Remote Shifter (Jets & Missing Energy), 2025.

Master's students

4 **Grant Whitman,** anticipated Sc.M. 2026.

- **Thesis:** *Computing massive 1-to-3 splitting kernels for future parton shower models (working title).*

3 **Haochen Wang,** anticipated Sc.M. 2026

- **Thesis:** *A study of Higgs couplings at a future circular electron-position collider in the Julia programming language. (working title)*

2 **Shutong Dong,** Sc.M. 2025

- **Thesis:** *Studies of the effects of lossy compression on hadronic jet reconstruction and classification.*
- **Afterward:** Project Manager, GE Healthcare, Yizhuang, China.

1 **Yuanchen Zhou,** M.Sc. 2025

- **Thesis:** *Applications of knowledge distillation in jet tagging at the LHC.*
- **Afterward:** PhD Student, Brown University.

Undergraduate students

7 **Zhixing (Grace) Wang,** anticipated graduation 2028 (Mathematics)

- **Undergraduate Teaching and Research Award (UTRA):**
  Improving searches for dark matter at the LHC with Optimal Transport.

6 **Regan Doherty,** anticipated graduation 2028 (Physics & German Studies)

Undergraduate Researcher, 2025 - present. *Co-supervisor.*

- **Fall 2025 - Present:** *Hadronic object performance at a future Muon Collider.*
- **Summer 2025:** *Studies of negative weight density in simulated collider events with deep learning.*

5 **Ethan Lynn**, anticipated graduation 2028 (Physics)

- **Summer 2025 Undergraduate Teaching and Research Award (UTRA):**
  Implementation of Valencia jet clustering algorithm in in JetReconstruction.jl

4 **Kirill Vesialou**, anticipated graduation 2029 (Physics)

- **Summer 2025 Undergraduate Teaching and Research Award (UTRA):**
  Implementation of ghost-based active area calculations in JetReconstruction.jl

3 **Ema Dimatrova**, anticipated graduation 2028 (Computer Engineering)

- **Undergraduate Teaching and Research Award (UTRA):**
  Implementation of pile-up mitigation algorithms in in JetReconstruction.jl

2 **Austine Zhang**, anticipated graduation 2027 (Applied Mathematics & Music)

- **Fall 2024 Undergraduate Teaching and Research Award (UTRA):**
  Visualizing jet algorithms at the Large Hadron Collider

1 **Samuel Ferraro**, Sc.B. 2025 (Physics — Mathematical, *Magna cum laude, honours*)
Undergraduate Researcher, 2024-25. *Co-supervisor.*

- **Thesis:** *Investigations into Beam-Induced Background and Mitigation Strategies at a future Muon Collider*
- 🎖️ Mildred Widgoff Prize for Excellence in Thesis Preparation,
  Brown University Department of Physics.
- 🎖️ “Most Enthusiastic Presenter” Poster Prize at the Inaugural US Muon Collider Meeting (7-9 August 2024, Fermi National Accelerator Laboratory).
- **IRIS-HEP Fellow**, Summer 2024
  Supervisor: Dr. Simone Pagan-Griso, Lawrence Berkeley National Laboratory
- **Afterward:** PhD Student, Harvard University, Massachusetts, USA.

Internal Service (Brown)

- **Physics Department Outreach & Publications Committee**, *2024-2026.*
- **Comprehensive Exam Committees**
  - **Camille Mauceri,** Experimental High-Energy Physics. *2025, chair.*
  - **Jessica Tang,** Experimental High-Energy Physics. *2025.*
  - **Morgan Lee,** Experimental Astrophysics and Cosmology. *2024.*
  - **Oliver Carey,** Experimental Astrophysics and Cosmology. *2024.*
- **Summer/Semester Projects for Research, Internship, Teaching (SPRINT) LINK Awards Reviewer**, *Spring 2024.*
  - *These awards provide financial support for students who may not otherwise be able to engage in unpaid and low-paid summer research, teaching, and internship opportunities.*

External Service

Committees, Commitments & Memberships

- **US LHC Users' Association Executive Committee (USLUEC)** Member, *2024-present.*
  - Outreach/Communications Committee, *2024-present.*
  - Government Relations Committee, *2025-present.*
  - Representative of the US High-Energy Physics Community in annual advocacy trip to US Capitol. Washington, DC, USA. *21-24 April 2025.*
- **NSF AI Institute for Artificial Intelligence and Fundamental Interactions (IAIFI)**
  - Industry Partnership Committee, *2024-Present.*
- **Electron-Ion Collider (EIC) User Group**
  - Institutional Board Representative, Brown University, *2023-Present.*
- **Snowmass 2021 US HEP Community Planning Exercise**
  - Liaison, Snowmass Early-Career and Energy Frontier, *2020-2021.*
  - Contact**,** Snowmass Early-Career Inreach Group, *Fall/Winter 2020*
- **American Physical Society Member,** *2019-Present.*

Presentations about outreach, advocacy and policy

2 ***(Accepted)*** Moderator, *Global Science: Discoveries and Outlook of the US High Energy Physics Community.* Panel discussion with H. Newman, K. Kennedy and S. Bhattacharya at the 2026 AAAS Annual Meeting, Phoenix, Arizona, USA. 12-14 February 2026.

1 *US LHC Users' Association Overview.* Presentation at the I.ANN QCD Summit 2024: Empowering New Talents and Building Global Networks

Workshop/Conference Organization

- **Experimental Convener,** “Soft and Non-Perturbative QCD” Session, QCD@LHC 2025. Stony Brook University, New York, USA (September 2025).
- **Local Organizing Committee,** BOOST 2025, Providence, RI, USA. (July 2025)
- **International Advisory Committee,** BOOST 2025, Providence, RI, USA. (July 2025)
- **International Advisory Committee,** BOOST 2024, Genoa, Italy. (July 2024)
- **Experimental Convener,** “Minimum Bias, Underlying Event & Monte Carlo Generators” Session, MPI@LHC 2023. Manchester, United Kingdom (November 2023).
- **Organising Committee**, ATLAS Hadronic Calibration Workshop 2023. Instituto de Física Corpuscular (IFIC). Valencia, Spain (September 2023).
- **International Advisory Committee,** BOOST 2023. Lawrence Berkeley National Laboratory, Berkeley, California, USA (July 2023).
- **Organizing Committee,** First Lund Jet Plane Institute. CERN Theory Department (July 2023).
- **International Advisory Committee,** BOOST 2022. Universität Hamburg, Hamburg, Germany (July 2022).
- **Local Organizing Committee,** BOOST 2021. CERN (Online, July 2021).
- **Local Organizing Committee,** ATLAS Hadronic Calibration Workshop 2019. University of Arizona. Tucson, Arizona, USA (October 2019).
- **Organizing Committee,** ATLAS Hadronic Calibration Workshop 2018, Kirchoff-Institut für Physik, Physikalisches Institute. Heidelberg, Germany (September 2018).

External mentoring & supervision

Doctoral students

- **Jingjing Pan,** Yale University, New Haven, Connecticut, USA. *Thesis analysis mentor.* Primary Supervisor: Keith Hamilton. PhD defended 7 August 2024.
    - **Thesis:** *Exploring the Standard Model and Beyond Through the Lens of Jet Substructure and Deep Learning with the ATLAS Experiment*
    - **Afterward:** Postdoctoral Associate, *Karlsruher Institut für Technologie,* Germany.
- **Emily Smith,** University of Chicago, Chicago, Illinois, USA. *Thesis analysis mentor.* Primary Supervisor: David Miller. PhD defended 30 October 2023.
    - **Thesis:** *A Global View of Jets With the ATLAS Detector: From Hardware Triggers to Precision Measurements and Beyond* (online)
        - 🎖️ ATLAS Thesis Award Recipient
    - **Afterward:** Lederman Fellow, Fermi National Accelerator Laboratory (Fermilab).
- **Christof Sauer,** Kirchoff-Institut für Physik, Physikalisches Institute, Heidelberg, Germany. *Thesis analysis mentor.* Primary Supervisor: Andre Schöning. PhD defended 24 October 2023.
    - **Thesis:** *Measurement of the Triple-Differential Cross-Section for the Production of Multijet Events using 139 fb−1 of Proton-Proton Collision Data at $\sqrt{s}$ = 13 TeV with*

the ATLAS Detector to Disentangle Quarks and Gluons at the Large Hadron Collider (online)

- ✳ **Afterward:** Postdoctoral Associate, Kirchoff-Institut für Physik, Physikalisches Institute, Heidelberg, Germany.

Undergraduate students

- **Jonathan Barrett,** Memorial University of Newfoundland, Corner Brook, Newfoundland, Canada. Institute of Particle Physics CERN Summer Student, 2022. *Co-supervisor.*
  - ✳ **Afterward:** MSc Student, Memorial University of Newfoundland.
- **Alejandro Reyes,** Cal State University, Fresno, California, USA. Cal State CERN Summer Student, 2019. *Co-supervisor.*
- **Hector Delgado,** Cal State University, Los Angeles, California, USA. Cal State CERN Summer Student, 2019. *Co-supervisor.*
  - ✳ **Afterward:** PhD Candidate (Astrobiology), University of Washington.

External Ph.D. Examiner

- **Louis Ginabat,** *Étalonnage des jets et mesures précises de sections efficaces de production de jets avec les données de l'expérience ATLAS*. Directrice de thèse: Mélissa Ridel, co-encadrant de thèse: Bogdan Malescu. Laboratoire de Physique Nucléaire et de Hautes Energies (LPNHE), Paris, France. September 25, 2023.

Funding Agency Review

- **NSF Graduate Research Fellowships Program (GRFP),** *2025.*
- **European Research Council (ERC)**, *2024.*

Peer Review & Editorial Duties

- Peer Referee, *Physical Review D* (PRD, since June 2024)
- Peer Referee, *Nuclear Science and Techniques* (NST, since September 2023)
- Associate Editor, *Frontiers in Big Data and AI in High Energy Physics* (since August 2023)
- Review Editor, *Frontiers in Physics: Radiation Detectors and Imaging* (since August 2023)
- Peer Referee, *European Journal of Physics C* (EPJC, since September 2022)
- Peer Referee, *Physical Review Letters* (PRL, since June 2022)
- Peer Referee, *Journal of High-Energy Physics* (JHEP, since March 2021)

Collaboration-Internal Review

➡ *As a subgroup and group-level convener, I have reviewed numerous results that were prepared by experimental collaborations. The following lists only formal roles beyond those.*

- **Analysis Review Committee.** *Top pair production cross-section measurement in Pb+Pb collisions at 5.02 TeV.* CMS-HIN-24-021. *(In-prep.)*
- **Analysis Review Committee.** *Jet fragmentation function and groomed substructure of bottom quark jets in proton-proton collisions at 5.02 TeV with the CMS Detector.* CMS-HIN-24-005. *(In-prep.)*
- **Second reader.** *R=0.4 jets input comparison and Monte Carlo calibration with the ATLAS Detector.* ATL-PHYS-PUB-2022-038. Public note (Preliminary result). August 2022.
- **Second reader.** *Transverse momentum response and reconstruction efficiency for jets from displaced decays in the ATLAS detector.* ATL-PHYS-PUB-2019-025. Public note (Preliminary result). May 2019.
- **Editorial board chair.** *Measurement of the R=0.4 jet mass in Pb+Pb and pp collisions at sqrt(s_{NN})=5.02 TeV with the ATLAS detector.* ATLAS-CONF-2018-014. Preliminary conference result for Quark Matter 2018, Venice, Italy. 14-19 May.

Outreach

Public events and interactions

- **Videoconference Moderator,** IPPOG / QuarkNet Physics Masterclasses, *2020-present.*
- **US LHC Users' Association Booth**, American Association of Physics Teachers Summer Meeting, Boston, Massachusetts, USA. *July 2024.*
- **ATLAS Science Cafe & Walking Tour Guide,** CERN Open Days. *2019.*
- **Guide,** TRIUMF + Emily Carr School of Art & Design Artists-In-Residence Visits, *2014-2015.*
- **Volunteer Public Tour Guide,** TRIUMF, 2013-2015
- **Local Instructor,** TRIUMF IPPOG / QuarkNet Physics Masterclasses. *2014.*
- **Photographer,** TRIUMF Open House, 2013
- **Local Instructor,** University of Victoria IPPOG / QuarkNet Physics Masterclasses. *2012.*
