## UNIVERSITY TEACHING, ADVISING & MENTORING ROLES

2021-2023

Course Instructor  
“Practice of Medicine”  
Harvard Medical School  
Boston, MA

I taught medical students in a longitudinal course focused on patient and team communication, collection of patient data, physical examination skills, documentation of care, and medical

decision-making. While most teaching sessions took place at the bedside with 2 students at a time, I also provided instruction in OSCE settings, simulation labs, and classroom-based settings with approximately 12 students at a time.

- 2021-Pres  
Mentor for Medical Students  
HMS Allies in Chronic Illness, Health Conditions, and Disabilities  
Harvard Medical School  
Boston, MA  
I provide support and guidance for students to successfully navigate medical education and training as they receive and advocate for their disability accommodations.
- 2022-2023  
Teaching Fellow  
Epidemiology 946  
Harvard T.H. Chan School of Public Health  
Boston, MA  
I coordinated the lecture schedule for Fall and Spring semesters in an epidemiology course with approximately 30 graduate students.

#### HOSPITAL TEACHING, ADVISING & MENTORING ROLES

- 2018-2021  
Resident Physician  
Duke University Hospital,  
Durham, NC  
I provided instruction and supervision to medical students and interns on clinical rotations.
- 2019-2020  
Project HoPE Consultant  
Duke University Hospital  
Durham, NC  
I participated in the design and analysis of a web-based platform that assists patients, families, and providers in the hospice education and enrollment process.
- 2021-2023  
Consultant and Content Co-Creator  
Disability in Graduate Medical Education  
Docs with Disabilities  
I collaborated on the design of educational videos targeting residency program leaders across the country to improve programmatic support of trainees with disabilities and chronic medical conditions.
- 2022 - Pres  
Leader of Disability Curriculum Development  
Department of Medicine  
Massachusetts General Hospital

Boston, MA  
and  
Department of Medicine  
Brown University  
Providence, RI

During my GIM fellowship, I was invited by the MGH Department of Medicine to design a curriculum on the fundamentals of caring for people with disability that could be woven into existing GME pedagogy. Upon joining the medicine faculty at Brown, I was asked to continue expanding upon this effort. The curriculum introduces trainees to such topics as: disability definitions and frameworks; language, identities, and implicit biases; health and social disparities affecting people with disabilities (PWD); legal, ethical, and professional obligations in caring for PWD; inclusive environments; fundamental clinical skills and accommodations; and support services available to PWD across the life course. I have been invited to speak about this initiative at the SGIM 2023 Annual Meeting as a Special Symposium and at MGH as a Medicine Grand Rounds lecture.

2024

Consultant & Member of Disability Policy Toolkit Committee  
Multimedia Resource Hub for Disability Inclusion in Graduate Medical Education on Learn at ACGME.  
Contributed to the development of ‘best practices’ for disability and accommodation policies/processes in an initiative led by the Docs with Disabilities Initiative and the Accreditation Council for Graduate Medical Education, with support from the 2024 Josiah Macy Jr. Foundation Catalyst Award for Transformation in Graduate Medical Education (Lisa Meeks as PI).
