

CURRICULUM VITAE  
*Nicole Everline Alexander-Scott, M.D., M.P.H.*

**Electronic Mail Address:** [nicolealexanderscott@gmail.com](mailto:nicolealexanderscott@gmail.com)

**EDUCATION**

**Undergraduate:** Cornell University, College of Human Ecology: Ithaca, NY  
Degree: Bachelor of Science, 1993-1997  
Major: Human Development and Family Studies  
Dean's List  
Mortar Board National Honor Society

**Medical School:** SUNY Upstate Medical University: Syracuse, NY  
Degree: Doctor of Medicine, 1997-2001  
James L. Potts Medical Principles Award  
Dr. Joseph and Ann Gadbaw Scholarship Endowment  
Medical Alumni Scholarship Award

**Other Advanced Degrees:** Brown University, Department of Community Health: Providence, RI  
Degree: Master of Public Health, 2009-2011

**POSTGRADUATE MEDICAL EDUCATION**

**Residency:** University Hospital at Stony Brook: Stony Brook, NY  
Internal Medicine/Pediatrics Combined Program, 2001-2005

**Fellowship:** The Warren Alpert Medical School of Brown University: Providence, RI  
Combined Adult/Pediatric Infectious Diseases Program, 2005-2009

**POSTGRADUATE HONORS AND AWARDS**

Teaching Award in Pediatrics for a Fellow, 2006  
Department of Pediatrics

The Warren Alpert Medical School of Brown University  
Alpha Omega Alpha National Honor Medical Society, 2008  
Brown University, Alpha Chapter

Outstanding New Researcher, 2009  
National HIV Prevention Conference  
Centers for Disease Control and Prevention

Early Career Women Faculty Professional Development Scholar, 2012  
Awarded by the Association of American Medical Colleges

Research Career Development for New HIV/AIDS Investigators from  
Diverse Backgrounds Scholar, 2012

Profile in Competence: Clinical Decision Making Award, 2015  
Awarded by 3<sup>rd</sup> and 4<sup>th</sup> year students at Brown University Medical School

American Swiss Foundation Young Leader 2016  
Young Leaders Conference, Basel Switzerland, November 2016.

Emerging Leader in Public Health, 2017  
Kresge Foundation Leadership Development Initiative

**Honorary Doctorate Degree**  
**Bryant University, 2019**

**Honorary Doctorate Degree**  
**Roger Williams University, 2021**

**Honorary Doctorate Degree**  
**Brown University, 2022**

## **PROFESSIONAL LICENSES AND BOARD CERTIFICATION**

<b>Diplomate</b>	American Board of Internal Medicine, 2005
<b>Diplomate</b>	American Board of Pediatrics, 2006
<b>Diplomate</b>	American Board of Pediatric Infectious Disease, 2009
<b>Diplomate</b>	American Board of Adult Infectious Disease, 2010
<b>License</b>	Rhode Island, 2009-2022, to be updated for RI, DC, and Georgia 2024

## **ACADEMIC APPOINTMENTS**

<b>Teaching Fellow</b>	Department of Pediatrics, July 2005 to June 2007 The Warren Alpert Medical School of Brown University: Providence, RI
<b>Teaching Fellow</b>	Department of Medicine, July 2007 to June 2009 The Warren Alpert Medical School of Brown University: Providence, RI

<b>Assistant Professor of Pediatrics</b>	Division of Pediatric Infectious Disease, July 2009 to Fall 2016 Department of Pediatrics (Primary Appointment) The Warren Alpert Medical School of Brown University: Providence, RI
<b>Assistant Professor of Medicine</b>	Division of Adult Infectious Disease, July 2009 to Fall 2016 Department of Internal Medicine The Warren Alpert Medical School of Brown University: Providence, RI
<b>Associate Director</b>	Pediatric Infectious Diseases Fellowship, July 2014 to March 2015 The Warren Alpert Medical School of Brown University: Providence, RI
<b>Careers in Medicine AAMC Academic Faculty</b>	Selected Faculty, November 2011 to March 2015 The Warren Alpert Medical School of Brown University: Providence, RI
<b>Assistant Professor of Health Services, Policy and Practice</b>	Department of Health Services, Policy & Practice, October 2015 to Fall 2016 Brown University School of Public Health: Providence, RI
<b>Associate Professor of Pediatrics</b>	Division of Pediatric Infectious Disease, Fall 2016 to May 2018 Department of Pediatrics (Primary Appointment) The Warren Alpert Medical School of Brown University: Providence, RI
<b>Associate Professor of Medicine</b>	Division of Adult Infectious Disease, Fall 2016 to May 2018 Department of Internal Medicine The Warren Alpert Medical School of Brown University: Providence, RI
<b>Associate Professor of Health Services, Policy and Practice</b>	Department of Health Services, Policy & Practice, Fall 2016 to May 2018 Brown University School of Public Health: Providence, RI
<b>Adjunct Associate Professor of Pharmacy</b>	Department of Pharmacy Practice, June 2018 to present University of Rhode Island: Kingston, RI
<b>Clinical Professor of Pediatrics</b>	Division of Pediatric Infectious Disease, July 2023 to present Department of Pediatrics (Primary Appointment) The Warren Alpert Medical School of Brown University: Providence, RI
<b>Clinical Professor of Medicine</b>	Division of Adult Infectious Disease, July 2023 to present Department of Internal Medicine The Warren Alpert Medical School of Brown University: Providence, RI
<b>Clinical Professor of Health Services, Policy and Practice</b>	Department of Health Services, Policy & Practice, July 2023 to present Brown University School of Public Health: Providence, RI

## **HOSPITAL APPOINTMENTS**

<b>Clinical Fellow</b>	Department of Pediatrics, July 2005 to June 2007 Hasbro Children’s Hospital: Providence, RI
<b>Clinical Fellow</b>	Department of Medicine, July 2007 to June 2009 Brown University-affiliated Hospitals: Providence, RI
<b>Attending Physician</b>	Adult Infectious Disease, July 2009 to March 2015 The Miriam Hospital, Rhode Island Hospital: Providence, RI
<b>Attending Physician</b>	Pediatric Infectious Disease, July 2009 to March 2015 Hasbro Children’s Hospital: Providence, RI
<b>Consulting Physician</b>	Adult and Pediatric Infectious Disease, July 2009 to March 2015 Women and Infants’ Hospital: Providence, RI

## **OTHER PROFESSIONAL APPOINTMENTS OF EMPLOYMENT**

<b>Senior Advisor for Strategy</b>	Nicole Alexander-Scott, LLC, April 2024 to present Maryland Governor, Wes Moore’s, Office for Children Annapolis, Maryland
------------------------------------	--

Thanks to [Governor Wes Moore’s](#) brilliant leadership and courage, the State of Maryland became the first in the nation to invest \$20 million in a state-wide, community-led, place-based investment strategy that is his signature initiative. The Engaging Neighborhoods Organizations, Unions, Governments and Households Initiative ([ENOUGH](#)) is a leading strategy focused on ending child poverty and increasing economic mobility, by implementing the same model that I led in Rhode Island with the Health Equity Zones Initiative. As a result, I was honored to be recruited as the Senior Advisor for Strategy to serve as the Strategic Lead to help successfully build out and launch the ENOUGH Initiative. Fulfilling the focus of the National Investment in CommunitiEs (NICE) infrastructure I have envisioned, my role with the State has served to help build the science for braiding public-private investments that are distributed to strengthen the infrastructure of communities previously overlooked. Through this implementation roadmap being applied in the Maryland state leadership environment, this focus on investing in communities also sustains the impact by changing how governing and braiding of steady-state resources can work to be leveraged by state leadership nationwide.

<b>Senior Executive Consultant</b>	Nicole Alexander-Scott, LLC, March 2024 to present National Foundation for the Centers for Disease Control and Prevention, Inc. Atlanta, Georgia
------------------------------------	--

I serve in leading roles on two major projects with the National Foundation for the Centers for Disease Control and Prevention (CDC Foundation) that focus on implementation of strengthened community infrastructures through direct investment of resources at the community level. The first

project consists of the next level of incubation to create the infrastructure that I have envisioned to serve as a roadmap for state leadership teams across the country, the National Investment in Communities (NICE). This initiative aims to create a national culture of healthy communities strengthened through community-level investments by creating implementation roadmaps for state leadership to adapt in their environments. This initiative focuses on building the science of braiding funding streams that will sustain public-private investments in communities. The People and Places Thriving Initiative led by Health and Human Services has sought ways to implement at the state level its focus on leveraging funds from over 40 federal agencies that are directed towards strengthening communities. Through NICE, already with support from the CDC Foundation and the Association of State and Territorial Health Officials (ASTHO), state leadership throughout the country can receive implementation guidance to facilitate braiding of available funds that better support and sustain community civic infrastructures for driving transformative action.

The second major project is another level of implementation that aligns with the focus of NICE. Recognizing the importance of resources being invested in strengthened community infrastructures, the CDC Foundation is leveraging my expertise to co-develop and test strategies with core members of a minimum community partnership triad: community leaders, governmental public health leaders, and healthcare system leaders. As Senior Executive Consultant, I help lead the planning and implementation for multiple core triads throughout the country to create a roadmap for strengthening multisector partnerships that will benefit community needs. The outcomes are intended to inform the national models for building the science on sustaining investments and strengthened infrastructure in communities that will drive lasting upstream change.

**Senior Executive  
Consultant**

Nicole Alexander-Scott, LLC, February 2022 to present  
Association of State and Territorial Health Officials  
Arlington, VA

As President of the Board at ASTHO in 2018-2019, I led the challenge Building Healthy and Resilient Communities. ASTHO's Board has since decided not to change to the next President's challenge the following term, but has extended and now embedded that focus into the organization permanently as the [ASTHO Challenge](#). Joining the team as a Senior Executive Consultant, who worked closely with the CEO and current Senior VPs, I am leading the creation of an innovative infrastructure, National Investment in Communities (NICE). This center of expertise will be a resource hub specifically catered for state, territorial, county, and local governments and public health agencies to effectively invest in communities using evidence-based, place-based, community-led interventions. The goal will be to ensure that the previous focus on and funding of health equity initiatives throughout the country will most effectively benefit the historically disadvantaged communities that must transcend and reshape systems and policies in place to bounce forward as healthy and resilient communities. Leveraging this focus to sustain those investments long-term is the key for NICE.

In addition to this major focus on NICE, I have contributed to a number of projects throughout ASTHO that serve to reinforce the implementation of state leadership understanding how to drive investments of steady-state public and private resources into communities for sustained transformation. Several of my leading roles have centered on executive coaching of state leaders to build their knowledge and application of current experiences to influence change at every level for

better conditions in their state's communities. As a result, I have contributed to state leaders throughout the country better implementing their approach to focusing resources towards previously disinvested in communities, while navigating their political and funding environments.

**Subject Matter Expert  
Consultant** CVS Health National Health Equity Advisory Board, February 2022 to present  
Nicole Alexander-Scott, LLC - CVS Pharmacy, Inc.  
Woonsocket, RI

Based on my subject matter expertise (being an adult and pediatric infectious disease subspecialist, a Governor-appointed state health official for almost seven years, including leading the State through the COVID-19 pandemic, and a previous ASTHO president focused on building healthy and resilient communities), I was invited as a board member to provide feedback on the health equity strategy to CVS Health leaders and the Vice President/Chief Health Equity Officer of CVS. In this role, I serve on the CVS Health National Health Equity Advisory Board working with a diverse group of leaders on the board to address how ableism, classism, racism, sexism, and discrimination impact the historically marginalized communities CVS Health serves. The CVS Health National Health Equity Advisory Board members also provide feedback on policies, programs and practices that will help inform the CVS Health's implementation of the overall health equity strategy. The additional focus areas for the board members include advising on ways to improve data collection and use it to advance health equity; counseling on best strategies for addressing disparities related to heart health, mental health and women's health; identifying opportunities to advance programs and policies to address identified disparities and gaps in care and services; and offering guidance in my specific areas of expertise to CVS Health leadership.

**Guest Editor  
Consultant** Nicole Alexander-Scott, LLC, March 2023 to October 2024  
American Journal of Public Health (AJPH) Supplement Edition  
<https://ajph.aphapublications.org/toc/ajph/114/S7>  
National Network of Public Health Institutes  
New Orleans, LA

I was invited to be a guest editor for the supplemental issue of the American Journal of Public Health (AJPH) that captures the nationwide lessons learned of caring for the most vulnerable populations, particularly during COVID. Titled "Reducing COVID-19 Disparities," this entire AJPH supplement is focused on the Centers for Disease Control and Prevention OT21-2103 grant recipients' novel and emerging best practices to reduce COVID-19 health disparities among racial/ethnic populations, rural communities, and other populations experiencing inequitable outcomes as a result of mobilizing community partnerships, building infrastructure support, improving data collection/reporting, and disease mitigation with prevention efforts. I have been able to lift up the importance of investing in communities historically disinvested in to change the future trajectory of disparate outcomes in future challenges such as pandemics or everyday adversities. As an independent consultant I brought subject matter expertise that entails being an adult and pediatric infectious disease subspecialist, a Governor-appointed state health official for almost seven years, including leading the State through the COVID-19 pandemic, and a previous ASTHO president focused on building healthy and resilient communities.

**State Health Official Lead** State of Rhode Island COVID Response, February 2020 to February 2022  
Governor's Whole of Government Leadership and RIDOH COVID Response  
Providence, RI

As the Director of Health for RI, I served as the public health face of the COVID-19 response since the first case of coronavirus was identified by the RIDOH State Health Laboratories. Reporting to the public at the initially daily press conferences, messaging the dynamics of the science as it evolved, engaging with the Governor's Whole of Government leadership across the entire response, and leading the public health agency that expanded significantly in size and budget were among the many examples of qualifications required to guide Rhode Island successfully through the COVID-19 pandemic. At a minimum the budget overseen exponentially increased by \$500 million to address the core public health elements of the response, but public health touched some element of the full \$1.83 billion awarded to Rhode Island for the first package of COVID relief. I consistently worked more than 100+ hour weeks.

**Director  
(Governor Appointed)** Rhode Island Department of Health, April 2015 to February 2022  
Providence, RI

The Rhode Island Department of Health (RIDOH) is a state agency in Rhode Island with over 470 employees currently and a budget of up to \$170 million. Connected with the three other state agencies within the Rhode Island Executive Office of Health and Human Services (EOHHS), RIDOH is a sister agency to the Departments of Children, Youth, and Family Services; Human Services; and Behavioral Healthcare Developmental Disabilities, and Hospitals. The RIDOH Director position is appointed by the Governor, as a Cabinet member, and confirmed by the Senate.

After becoming Director in April 2015, I established three leading priorities for the Department (address social and environmental determinants of health; eliminate health disparities and promote health equity; and ensure access to quality health services for all Rhode Islanders, including our vulnerable population). During my time in service as Director, these RIDOH leading priorities have been the foundation for forming five strategies and twenty-three respective population health goals shared across EOHHS and on behalf of Rhode Island. Of greatest importance, the implementation of these leading priorities were demonstrated strongest through leading the **Rhode Island Health Equity Zones Initiative**. This has served as the nation's first statewide, community-led, place-based investment strategy that braided federal, state, and philanthropic resources to support strengthening community infrastructures. Since this launch there have been subsequent similar statewide initiatives in Washington and most recently in Maryland, which is the first mirrored statewide, community-led investment strategy to be led by a Governor.

As part of the organizational restructuring that I led at the Department, I created the RIDOH Academic Institute to strengthen the integration of scholarly activities with public health practice, by instilling a culture of learning and innovative implementation, via continuous quality improvement. Through my leadership, the RIDOH Academic Institute's external-facing core program has focused on innovative problem solving by engaging with academic partners

throughout the state: Public Health Education and Research Program. Academic institutions of higher education across Rhode Island have established formalized agreements signed by the respective President and by me as the Director of RIDOH, such that all students and faculty would engage in scholarly activities with the Department through enhanced public health learning and research experiences. The internal facing arm of the RIDOH Academic Institute focused on Workforce and Career Development to advance the skillsets and expertise of the public health workforce.

With my vision as the Director of RIDOH, the RIDOH Academic Institute has begun developing research education tracks for students, residents, and fellows. The first is a combined Pediatric Infectious Diseases and Pediatric Pharmacy Fellowship Track in Public Health that establishes a partnership with RIDOH, the Division of Pediatric Infectious Diseases at Hasbro Children's Hospital, and the Doctor of Pharmacy Program at the University of Rhode Island. Pediatric Infectious Disease and PharmD fellows were intended to have formalized research educational experiences at the RIDOH, particularly with the Division of Preparedness, Response, Infectious Disease and Emergency Medical Services. In addition to fulfilling this major teaching role through my visionary leadership of the RIDOH Academic Institute, I have also advanced my research career by partnering with academic faculty at Brown University to apply for R01 National Institutes of Health grants that support applied practice public health and implementation science. Two such research proposals that will benefit the Department, thus far involve HIV and opioid overdose prevention and intervention. The HIV phylogenetics R01 NIH grant has been awarded as of March 2018, and after successful implementation, renewal has been submitted in 2023.

**Medical Director (Consultant)** Office of HIV/AIDS, Viral Hepatitis, STDs, and TB, July 2011 to March 2015  
Rhode Island Department of Health: Providence, RI

**Medical Consultant** Division of Infectious Diseases and Epidemiology, March 2010 to March 2015  
Rhode Island Department of Health: Providence, RI

**Medical Consultant** Division of Community, Family Health, and Equity, July 2009 to March 2010  
Rhode Island Department of Health: Providence, RI

**President** Association of State and Territorial Health Officials Board of Directors,  
September 2018 to September 2019  
Arlington, VA

The ASTHO Board of Directors is the organization's administrative body. The President is elected by the ASTHO Assembly of Members, which is composed of the entire voting membership of ASTHO and is the organization's policy formulating body. This voting membership for ASTHO includes the chief health officials for each U.S. state and territory, as well as the District of Columbia. Traditionally, the Assembly of Members meets in formal session once a year at the ASTHO Annual Meeting. The Board of Directors is comprised of the officers of the Association (president, president-elect, immediate past president, past president, and secretary-treasurer), ten regional directors, two territorial directors, the chairs

of the Senior Deputies Committee and Affiliate Council, and one Alumni Society representative. The ASTHO Board of Directors meets formally on a quarterly basis.

Each year historically, the ASTHO President selects a President's Challenge that the nation's public health community and fellow state and territorial health officials are asked to embrace and shape their public health programs to respond to. For my term, the President's Challenge I led was "Building Healthy and Resilient Communities" by supporting diverse investments in community-led, place-based approaches. The Surgeon General, and his priority focusing on Community Health and Economic Prosperity, along with the National Association of County and City Health Officials responded to invitations to be leaders with the President's Challenge along with ASTHO. This focus was so favorably received that each subsequent President continued the Challenge and the ASTHO Board of Directors with support from the Assembly of Members voted to adopt my President's Challenge as the [ASTHO Challenge](#): Building Healthy and Resilient Communities, which continues through now to the present.

<b>Member, Invited 2016</b>	Rhode Island College Presidential Search Committee Rhode Island College
<b>Member, Invited</b>	Advisory Board for the Sigal Family Professorship in Humanistic Medicine

**2016-2022** The Warren Alpert Medical School of Brown University

The Endowed Professorship that this committee provides guidance to was established with the overarching mission to create a culture of humanism throughout the Warren Alpert Medical School of Brown University and its affiliated hospitals. The advisory board is also charged with extending the role of the professorship to promote humanism and complete care for patients beyond the medical school and hospitals to other regional and national communities in which humanism must be fostered.

**Member, Invited** Advance Clinical and Translational Research Internal Advisory Committee  
**2016-2022** Brown University Division of Biology and Medicine

Advance-CTR was established in July 2016 after receiving a five-year Institutional Development Award for Clinical and Translational Research (IDeA-CTR) from the National Institute of General Medical Sciences (NIGMS) in Rhode Island. The Internal Advisory Committee advocates for diverse community representatives to access the support offered through clinical and translational researchers in Rhode Island as funding, research resources and services, and professional development opportunities in order to fuel discoveries that improve overall health in the state.

### NATIONAL/INTERNATIONAL COMMITTEES

**Member, Invited** Reforming States Group, national  
**2015-2022** Milbank Memorial Fund, New York, NY

A bipartisan, voluntary group of state health policy leaders from both the executive and legislative branches who, with a small group of international colleagues, convene regularly to share information, develop professional networks, and work on solutions to pressing problems in health care—all while using the best available evidence and experience to improve population health.

**Member, Selected** ASTHO Policy Committee, national  
**2015-2022** Association for State and Territorial Health Officials, Arlington, VA

ASTHO is the national nonprofit organization representing public health agencies in the United States, the U.S. Territories, and the District of Columbia, and over 100,000 public health professionals these agencies employ. ASTHO serves to inform national and international health policy on behalf of the member leaders, and its policy committees are one of the tools that provide strategic direction.

**Member, Invited** ASTHO Executive Director Search Committee, national  
**2016** Association for State and Territorial Health Officials, Arlington, VA

ASTHO is the national nonprofit organization representing public health agencies in the United States, the U.S. Territories, and the District of Columbia, and over 100,000 public health professionals these agencies employ. The Executive Director Search Committee oversaw a competitive national search for the Executive Director that would support ASTHO as the organization prepared to engage with a new administration, sought to strengthen its financial security, and continued to inform national and international public health policy on behalf of the member leaders.

**Member, Appointed  
2016-2017**                      ASTHO Bylaws Review Committee, national  
Association for State and Territorial Health Officials, Arlington, VA

ASTHO was incorporated on March 23, 1942. The voting members, the chiefs of health agencies in all 50 states, 6 U.S. territories, and the District of Columbia, span 10 time zones across the globe. ASTHO supports efforts that protect the health of all people and engages in a wide range of scientific, educational, and policy issues on behalf of public health. Updating the bylaws occurred in 2016-2017 through the leadership of the ASTHO Bylaws Review Committee, which offered changes to the Board of Directors for approval. The ASTHO Board of Directors is the organization's administrative body, composed of the officers of the association (president, president-elect, immediate past president, past-president, and secretary-treasurer), ten regional representatives to the Board of Directors, and the chair of the Affiliate Council. Decisions made by recommendation of the ASTHO Bylaws Review Committee would impact the governance of the organization for years to come.

**Member, Invited  
2016-2018**                      ASTHO State Health Leadership Institute Advisory Committee, national  
Association for State and Territorial Health Officials, Arlington, VA

ASTHO State Health Leadership Institute (SHLI) Advisory Committee consists of 10 sitting state health officials and 5 alumni, and the SHLI Advisory Committee goals include: providing reaction to and strategic input to program elements and proposed designs for SHLI of the future, and brainstorming methodologies and strategies for working collaboratively across sectors most effectively.

**Member, Invited  
2016-2019**                      Advisory Committee to the CDC Director, national  
State, Tribal, Local, and Territorial Subcommittee  
Centers for Disease Control and Prevention (CDC), Atlanta, GA

The Advisory Committee to the Director, Centers for Disease Control and Prevention (CDC), shall advise the Secretary, Department of Health and Human Services (HHS), and the Director, CDC, on policy and broad strategies that will enable CDC to make health protection a practical reality through health promotion, prevention, and preparedness. The committee recommends ways to prioritize CDC's activities, improve results, and address health disparities. The State, Tribal, Local, and Territorial (STLT) Workgroup was charged by the Centers for Disease Control and Prevention's (CDC) Advisory Committee to the Director (ACD) to produce recommendations on how CDC can support health departments as they adjust to a changing economic and policy climate.

**Member, Invited  
2016-2022**                      Hassenfeld Child Health Innovation Institute Advisory Council, national  
Advisory Council to the President of Brown University, Providence, RI

The Advisory Council provides leadership and advice to President Paxson of Brown University on the Institute's strategic goals and successes, in order to secure the Institute's position as a national and international leader in child health. Some of the goals of the Advisory Council include:

- Contribute to academic-clinical partnerships to advance understanding of child health
- Increase visibility of the Hassenfeld Child Health Innovation Institute nationally and internationally
- Develop a sustainable financial plan that enables innovation and discovery

**Chair  
2017-2018** ASTHO Leadership Development and Education Committee, national  
Association for State and Territorial Health Officials, Arlington, VA

The ASTHO Leadership Development and Education Committee was established by ASTHO Board Resolution with these goals: 1) Assist in the identification of the leadership development and educational needs and resources for members.; 2) Review and make recommendations for the content and presenters of ASTHO's in-person meetings including the fall Annual Meeting and Policy Summit, the winter Leadership Summit, and March Leading in Government programs; and 3) Review and recommend opportunities for ongoing enhancements to ASTHO's Leadership Institute (ALI). The overall aim of ALI is to enhance the skills and abilities of health officials to: achieve success in their role as chief health strategist for their state or territory; develop strategic partnerships to improve well-being; and lead a state or territorial governmental public health agency in a way that assures responsibilities (authorities) of the health agency are achieved.

**Member, Invited  
2017-2019** ASTHO Infectious Disease Policy Committee, national  
Association for State and Territorial Health Officials, Arlington, VA

ASTHO serves to inform national and international health policy on behalf of the member leaders, and its policy committees are one of the tools that provide strategic direction. The ASTHO Infectious Disease Policy Committee focuses on policy and programmatic issues related to the state and territorial role in infectious disease prevention, surveillance, and outbreak response.

**Member, Invited  
2017-2019** Social Determinants of Health Think Tank  
State, Tribal, Local, and Territorial Subcommittee  
Advisory Committee to the CDC Director  
Centers for Disease Control and Prevention (CDC), Atlanta, GA

The State, Tribal, Local, and Territorial (STLT) Workgroup was charged by the Centers for Disease Control and Prevention's (CDC) Advisory Committee to the Director (ACD) to produce recommendations on how CDC can support health departments as they adjust to a changing economic and policy climate. Based on priorities involving the social determinants of health, the STLT Subcommittee has appointed a social determinant of health think tank that is designed to fully explore and make recommendations on how best to strengthen the focus on addressing social and environmental contributors to health outcomes. Think Tanks are chaired by a member of the STLT Subcommittee, but can also include individuals with national expertise outside of the STLT Subcommittee membership. Full STLT Subcommittee meetings include reports from these think tanks.

**Board Member, Elected  
2017-2022** ASTHO Board of Directors, Region I Representative, President, Past-President  
Association for State and Territorial Health Officials, Arlington, VA

The ASTHO Board of Directors is the organization's administrative body, composed of the officers of the association (president, president-elect, immediate past president, past-president, and secretary-treasurer), ten regional representatives to the Board of Directors, and the chair of the Affiliate Council. The health officials from each region must nominate and elect the health official to represent them on the Board. ASTHO's primary function is effectuated through the Board's decisions: to track, evaluate,

and advise members on the impact and formation of public or private health policy which may affect them and to provide them with guidance and technical assistance on improving the nation's health.

**Member, Invited**                      Reforming States Group Steering Committee, national  
**2017-2022**                              Milbank Memorial Fund, New York, NY

The Steering Committee acts as the governance body for the Reforming States Group (RSG), providing necessary guidance and direction for its work. The RSG has 25 years of nurturing strong thoughtful state health policy leadership, identifying specific opportunities to improve population health, and developing supportive collegial relationships. Role expectations for the Steering Committee members include and are not limited to: service as the RSG lead in each member's state, to coordinate the recruitment of a team from the state to attend the regional meeting, to identify opportunities for Milbank-funded technical assistance, and to serve as an ambassador for the work of the RSG in local and national settings.

**Board Member, Invited**            March of Dimes National Board of Trustees  
**2023-present**                        March of Dimes National Office, Arlington, VA

March of Dimes is a nonprofit organization committed to ending preventable maternal health risks and deaths, ending preventable preterm birth and infant death, and closing the health equity gap for all families. The March of Dimes National Board of Trustees is legally and ethically responsible for providing oversight governance and organizational direction for all March of Dimes activities and serves as the organization's ultimate legal authority. Key functions of the board members include planning (including reviewing and approving the organization's budget and long-range financial goals), governance (including development of policies for the effective management of the organization), and operations ((including assurance of the strong financial conditions and outcomes of the organization). Implementation of fundraising responsibilities are included requirements of each trustee. Successful trustee qualifications include strong business acumen, a wealth of leadership experience, and strategic visioning capabilities.

### **COMMITTEES OF SERVICE TO THE COMMUNITY**

**Member, Invited**                      Board of Directors  
**2015-2016**                              Rhode Island Public Health Institute

**Member, Invited**                      Board of Directors  
**2016-2024**                              Crossroads Rhode Island Homeless Services Organization

### **MEMBERSHIP IN SOCIETIES**

**1997-2005**                              Student National Medical Association, member

**2000-2005**                              American College of Physicians - Society of Internal Medicine, member

2003-2005	National Med-Peds Residents' Association, member
2003-2006	International Society for Infectious Diseases, member
2005-2012	Pediatric Infectious Diseases Society, member
2005-2012	Infectious Diseases Society of America, member
2005-2020	American Academy of Pediatrics, member
2012-2020	American Academy of Pediatrics, Rhode Island Chapter
2012-July 2014	Secretary on Executive Board, Fellow
July 2014-March 2015	Vice President on Executive Board, Fellow

## **GRANTS**

1. Transdisciplinary Cancer Control Research Training Grant
  - a. Award Type: National Cancer Institute R25 Transdisciplinary Research Training Grant
  - b. Grant Number: 5R25CA087972-08
  - c. Role: Post-doctoral Scholar
  - d. Principal Investigator: William Rakowski
  - e. Yearly Support: \$75,000
  - f. Percent Effort: 25-30%
  - g. Project Period: 7/2009-7/2011
2. SUNY Downstate Summer Institute for Diversity in Health-Related Research
  - a. Award Type: National Heart Lung and Blood Institute Faculty Research Mentoring Program
  - b. Grant Number: 5R25HL085042-03
  - c. Role: Post-doctoral Scholar
  - d. Principal Investigator: Mohamed Boutjdir
  - e. Yearly Support: Conference travel and accommodations
  - f. Percent Effort: 2-5%
  - g. Project Period: 7/2009-7/2011
3. The Brown Initiative in HIV and AIDS Clinical Research for Minority Communities
  - a. Award Type: National Institute of Mental Health Clinical Research Training Grant Award
  - b. Grant Number: 1R25MH083620-01A1
  - c. Role: Post-doctoral Scholar
  - d. Principal Investigator: Timothy Flanigan
  - e. Yearly Support: \$7000 over two years after project proposal submission

- f. Percent Effort: 2-5%
  - g. Project Period: 7/2009-7/2011
4. Research Supplements to Promote Diversity in Health-related Research Program:  
Improving Linkage to HIV Care Following Release from Incarceration
    - a. Award Type: National Institute on Drug Abuse Diversity Supplement Grant Award
    - b. Grant Number: 3R01DA030778-03S1
    - c. Role: Primary Investigator
    - d. Principal Investigator: Josiah Rich
    - e. Yearly Support: \$90,520
    - f. Percent Effort: 25%
    - g. Project Period: 7/2012-6/2014
  5. Rhode Island Department of Health HIV Prevention Program Grant Award
    - a. Award Type: CDC Cooperative Agreement
    - b. Role: Principal Author and Coordinator for Category C
    - c. Principal Investigator: Ana Novais, Utpala Bandy
    - c. Yearly Support: \$794,000
    - d. Percent Effort: 15%
    - e. Project Period: 2012-2015
  6. Phylodynamic Tracking of HIV Transmission (R01)
    - a. Award Type: R01 response to the program announcement with special consideration to support interdisciplinary research collaborations to study and optimize approaches using phylodynamic analyses of HIV genotyping databases to monitor HIV transmission networks in near real-time.
    - b. Project Title: Real Time Phylogeny and Contact Tracing to Disrupt HIV Transmission
    - c. Grant Number: PAR-17-048
    - c. Role: Co-Investigator
    - d. Principal Investigator: Rami Kantor
    - e. Yearly Support: \$120,000 to RIDOH
    - f. Project Period: 2018-2022

### **UNIVERSITY TEACHING ROLES**

1. Biomed 365: Infectious Disease Pathophysiology, Small Group Leader  
The Warren Alpert Medical School of Brown University  
1 session, 10 Brown University medical students per session, May 2007- 2015
2. PHP 2230: Epidemiology of Infectious Diseases - H1N1 Influenza Epidemiology, Invited Faculty Lecturer  
Brown University Master of Public Health Program  
1 session, 20-25 Brown University graduate and undergraduate students and faculty, April 2010
3. PHP 1910: HIV Disparities, Invited Faculty Lecturer  
Brown University Master of Public Health Program  
1 session, 20-25 Brown University graduate and undergraduate students, December 2011

4. PHP 2220H: Methodological Issues in the Epi, Treatment, and Prevention of HIV, Invited Faculty Lecturer  
Brown University Master of Public Health Program  
1 session, 15-20 Brown University graduate and undergraduate students, April 2013
5. PHP 1854: The Epidemiology and Control of Infectious Diseases, Invited Faculty Lecturer  
Brown University School of Public Health  
1 session, 10-15 Brown University graduate and undergraduate students, October 2014
6. PAS5653: Clinical Medicine I-IV Sexually Transmitted Infections in Rhode Island, Invited Lecturer  
Johnson and Wales University Physician Assistant Studies Program, Master of Science  
1 session, 25-40 Johnson and Wales graduate students, January 2015
7. Biomed 336B: Clinical Elective in Pediatric Infectious Diseases, Teaching Attending  
The Warren Alpert Medical School of Brown University, Hasbro Children's Hospital  
4-8 weeks/year, Brown University Medical Student Year IV Course, 2009 to 2015
8. Long-319: Longitudinal in Comprehensive HIV Care, Teaching Attending  
The Warren Alpert Medical School of Brown University, The Miriam Hospital  
26 weeks/year, Brown University Medical Student Year III/IV Course, 2010 to 2015
9. BIOL 3653 IMS-II: Microbiology/Infectious Diseases – Skin and Soft Tissue Infections, Faculty  
The Warren Alpert Medical School of Brown University  
1 session, second year medical students class (over 100), 2013 to 2015
10. PHP 2220H: Epidemiology of HIV, Repeatedly Invited Faculty Lecturer  
Brown University School of Public Health  
1 session, 10-20 Brown University graduate and undergraduate students, 2013-2015
11. PHP 0310: Health Care in the United States, Repeatedly Invited Faculty Lecturer  
Brown University School of Public Health  
1 session, estimated over 100-120 Brown University undergraduate students, 2016-present

### **HOSPITAL TEACHING ROLES**

1. Pediatric Residency Noon Conference Series: Pediatric HIV, Faculty Lecturer  
The Warren Alpert Medical School of Brown University, Hasbro Children's Hospital  
2-3 sessions, 20-30 students/residents/attending faculty per session, October 2006 to 2015
2. The New HIV Statute and Regulations: Practical Guidance for Clinicians in Rhode Island  
Brown University AIDS Program Continuing Medical Education Lecture Series  
4-5 sessions, 30-50 students/residents/attending faculty per session, 2010-2011
3. Emergency Department Resident Lecture Series: Infectious Diseases Symposium, Invited Lecturer  
The Warren Alpert Medical School of Brown University, Rhode Island Hospital  
1 session, 20 students/residents/attending faculty per session, November 2008

4. Medicine-Pediatrics Residency Forum: Rhode Island HIV Law, An Update, Faculty Lecturer  
The Warren Alpert Medical School of Brown University, Rhode Island Hospital

Shane Lloyd	2009-2022
Andrea Martinez	2012-2014
Akosua Adu-Boahene	2013-2022
Bianca Duah	2013-2018
Pei Chan Ma	2014-2016
Esther Manu	2015-2018
Zenzile Pearson	2016
Methma Udawatta	2016
Najma Abdullahi	2016
Ugoji Nwanaji-Enwerem	2017-2018
Melvin Smith	2017-2018

#### **Medical Students**

Kimberly Matthews	2006-2013
Sarah Dreiling	2009-2011
Sando Baysah Ojukwu	2009-present
Esther Dorzin	2010-2022
Antoinette Dawson	2011-2014
Alanna Tisdale	2012-2016
Anne Steptoe	2013-2015
Nan Du	2013-2016
Craig Erickson	2013-2020
Samantha DeAndrade	2013-2020
Naomi Adjei	2013-2022
Hyeon Ju Ryoo	2014-2018
Aaron Shapiro	2016-2018
Ahmed Elsayed	2017-2018

#### **Residents and Fellows**

Ijeoma Anosike	2003-2022
Jacqueline Firth	2006-2010
Susanna Winston	2006-2015
Charlene Flash	2006-present
Chinwe Okoro	2009-2012
Russell McCulloh	2009-2013
Philip Chan	2009-present
Eric Chow	2009-present
Brian Chow	2010-2014

Tanya Rogo	2010-present
Meghan Small	2012-2015
Natasha Rybak	2012-present
Nkiruka Emeagwali	2012-present
Rebecca Reece	2012-2022
Theresa Fiorito	2014-2022
Zaid Alhinai	2014-2022
Rachel Pyngolil	2015-2016
Jamar Slocum	2015-2016
Theodore Long	2015-2022
