CONTINUING MEDICAL EDUCATION MEETING DIRECTORSHIPS:

1. **Wisco OJ.** CME Director: OHSU Knight Cancer Institute & Providence Cancer Institute Fall Melanoma CME Conference. 5-hour CME focused on educating specialists, primary care clinicians and other non-dermatology providers on the advanced concepts of cutaneous oncology. The CME was also intended to provide an update to the community on the OHSU War on Melanoma initiative, to improve care and research in the region. Portland, OR. 11/18/17.
2. **Wisco OJ.** CME Director: OHSU Knight Cancer Institute War on Melanoma CME Symposium. 3.5-hour CME focused on educating specialists, primary care clinicians and other non-dermatology providers on the fundamentals of cutaneous oncology. The CME was also intended to provide an update on the research and clinical initiatives by the joint tumor board team. Portland, OR. 5/19/18.
3. **Wisco OJ.** Negbenebor N, Gupta S. CME Directors: Brown Dermatology’s Skin Cancer

Concepts for the Primary Care Provider, Fall CME Conference. 4-hour virtual CME focused on educating primary care clinicians and other non-dermatology providers on the fundamentals of cutaneous oncology. Providence, RI. 10/16/21.

4. **Wisco OJ.** Kawaoka, Seo SJ, Yumeen S. CME Directors: Brown Dermatology's Virtual Dermatology CME for the Primary Care Clinician. Fall CME Conference. Two 2-hour virtual CME sessions focused on educating primary care clinicians and other non-dermatology providers on the fundamentals of medical dermatology and cutaneous oncology. Providence, RI. 12/7/22, 12/14/22.
5. Wolff S, **Wisco OJ.** CME Directors: Osteopathic Physicians and Surgeons of Oregon (OPSO) Annual Meeting. 3-Day Annual CME meeting of OPSO – A Primary Care Update. Portland, OR. 09/13/24 - 09/15/24.
6. **Wisco OJ.** CME Director: Oregon Dermatology Society Annual Meeting. 3-Day Annual CME meeting of the Oregon Dermatology Society – Dermatology Update. Portland, OR. 09/20/24 - 09/22/24.
7. **Wisco OJ.** CME Director: Osteopathic Physicians and Surgeons of Oregon (OPSO) Annual Meeting. 3-Day Annual CME meeting of OPSO – A Primary Care Update. Portland, OR. 09/12/25 - 09/14/25.

PROFESSIONAL CLINICAL EXPERIENCE

10/2020-Present

Brown Dermatology, Brown University, Providence, RI
Associate Professor of Dermatology, Clinician Educator
Oncodermatologist, Mohs Surgeon, Researcher

- **Founder and Director, Healthcare Performance Measurement Lab, Brown University, in collaboration with the Brown Center for Bioinformatics**

- 07/01/2022 – Present

I lead a multidisciplinary center focused on healthcare performance measurement, Big Data infrastructures, research, and education. My team applies geospatial, informatics, and public health methodologies to conduct national and regional studies focused on risk stratification, we design care pathway-based measure sets, and we lead registry development. Through this work, I direct a medical student fellowship that integrates clinical research, informatics, and leadership training. Our goal is to scale this model nationally.

- **Director, Cutaneous Oncology Program**

10/01/2020 – 12/31/2025

I led a multidisciplinary program focused on high-risk skin cancer care. I developed and implemented a scalable informatics infrastructure that supports patient triage, care coordination, and outcomes tracking. I personally reviewed incoming cases, guided risk stratification, and orchestrated multidisciplinary management using a centralized, data-informed workflow.

- **Chair, Dermatology Department Quality & Safety**

Committee

01/01/2021 – 12/31/2025

I led department-wide quality and safety initiatives, including the development of our electronic adverse event reporting system. I organized and led M&M conferences and oversaw our resident QI curriculum, providing lectures and mentorship for team-based improvement projects grounded in informatics and systems thinking.

06/2019-Present

Dermatology Health Specialists, PC, Bend, OR

Founder, President & CEO

Dermatologist, Melanoma Specialist, Mohs Surgeon

- As the founder of this clinic system, I established this clinic to provide comprehensive dermatologic care for adult and pediatric patients in the Central & Eastern Oregon region with a focus on prevention. The intent is to interconnect providers, patients, and the communities to work together to create sustainable healthy communities through data collaboration, streamline care processes, and performance measurement.

11/2018-Present

Harney District Hospital, Burns, OR

Dermatologist, Melanoma Specialist, Mohs Surgeon

- This is a rural outreach clinic that is now part of the Dermatology Health Specialists system focused on caring for underserved patients with dermatologic disease. In this position, I established the first dermatology clinic and Mohs surgical unit in the area within a 120-mile radius.

09/2017-05/2019

Mystic Valley Dermatology, Stoneham, MA

Mohs Surgeon & Dermatologist

- This is a part-time position where I cared for adult and pediatric patients with dermatologic medical and surgical disease in the greater New England region.

10/2016-06/2018

Oregon Health Sciences University, Portland, OR

Assistant Professor of Dermatology

Melanoma Specialist, Mohs Surgeon, Dermatologist

- In this part-time position, I served as a Mohs Surgeon at the Portland VA, and as a Melanoma Specialist for OHSU. In addition to my clinical and education responsibilities, my primary focus was on developing an outreach melanoma program to improve access to care for at risk patient populations and to facilitate community clinicians that care for melanoma patients through the establishment of a virtual melanoma tumor board.

08/2014-05/2017

Bend Memorial Clinic, Bend, OR

Melanoma Specialist, Mohs Surgeon, Dermatologist

- In this position, I served as a Dermatologist, Melanoma Specialists, and Mohs Surgeon caring for the multi-specialty medical group's patient population.

01/2014-06/2018

Emory University School of Medicine, Atlanta, GA

Assistant Professor of Dermatology

Melanoma Specialist, Mohs Surgeon, Dermatologist

- Volunteer Faculty (07/14-06/18)
- Part-Time Faculty (01/14-06/14)
- In this position, I served on the residency teaching faculty as a Dermatologist, Melanoma Specialists, and Mohs Surgeon focused on caring for the region's high-risk skin cancer patient population.

11/2012-06/2014

Tulane University School of Medicine, New Orleans, LA

Assistant Professor of Dermatology

Melanoma Specialist, Mohs Surgeon, Dermatologist

- In this position, I served on the residency teaching faculty as the main instructor for skin cancer / surgical training

RESEARCH

RESEARCH - GRANT FUNDED

Predictive Modeling of Advanced Skin Cancer Risk in Rhode Island: A Geospatial Risk Analysis

Brown Dermatology, Providence, RI | 10/2020-Present

PI: Oliver J. Wisco, DO

Funding Source: Brown Physicians Incorporated (BPI) Academic Assessment Grant – \$50,000 (2024–2026)

- Regional project to identify high-risk populations for advanced skin cancer using clinical, demographic, and access-to-care data.
- Supports creation of a sustainable, high-quality skin cancer registry and identification of institutional data infrastructure gaps.
- Enhancing institutional population health analytics capacity in collaboration with Lifespan IT.

Accessing Skin Cancer Care Barriers

The Wisco Institute, Bend, OR | 08/2024-Present

PI: Oliver J. Wisco, DO

Funding Source: OHSU Knight Cancer Institute Community Partnership Program – \$15,000

- Identifying barriers to skin cancer screening and treatment in rural Oregon through qualitative interviews with primary care providers and patient focus groups.
- Developing actionable strategies and community-based interventions to address access-to-care gaps.

An Interactive, Comprehensive Online Curriculum for Novel Cancer Therapies

The Wisco Institute, Bend, OR | 04/2024-Present

PIs: Oliver J. Wisco, DO; John Kawaoka, MD; Su-Jean Seo, MD, PhD

Funding Source: Sulzberger Dermatologic Institute / AAD Education Grant – \$18,000

- Creating an online educational platform to inform dermatologists about FDA-approved cancer immunotherapies, including their mechanisms of action, indications, and associated adverse events.
- Designed as a foundational, accessible resource for AAD members, with plans for future content expansion in cancer immunology.
- www.iotrainingacademy.com (password: wiscolab2025)

Elementary School Skin Cancer Science Education & Sunhat Program

Uriel Medical Foundation, Bend, OR | 06/2015-06/2019

PIs: Tammy L. Wisco, PE, AICP, MPA; Oliver J. Wisco, DO

Funding Source: OHSU Knight Cancer Institute Community Partnership Program

- 2015–2016: \$25,000 – Developed and implemented a science-based skin cancer curriculum and sunhat program for 2nd-grade students.
- 2016–2017: \$50,000 – Expanded program across Central Oregon.
- 2017–2018: \$25,000 – Extended reach beyond Central Oregon.
- Collaborators included the Bend Science Station, Bend-La Pine School District, Bend Memorial Clinic, St. Charles Cancer Center, Central Oregon Melanoma Support Group, and Cascades East AHEC.

RESEARCH - NON-FUNDED

Development of a Department of Defense Melanoma Prognostic Risk Index and Performance-Driven Melanoma Disease Registry Plan

Brown University, Providence, RI | 01/2022-Present

PIs: Oliver J. Wisco, DO; Guixing Wei, PhD; Neil Sarkar, PhD; Elizabeth Chen, PhD

- DoD-wide initiative to evaluate risk factors for advanced melanoma in military personnel, retirees, and dependents, with emphasis on fighter pilots and occupational exposures.
- Includes epidemiologic, geospatial, and translational analysis, with planned integration of tissue banking and genomic data.
- Aims to develop a DoD melanoma prognostic index and performance-driven registry in collaboration with the Uniformed Services University of the Health Sciences.

Demonstration of Formal Osteopathic Medical School Clinical Departments - An Infrastructure Analysis

Brown University, Providence, RI | 12/2021-Present

PI: Oliver J. Wisco, DO

- Comparative analysis of DO and MD school websites to evaluate presence of formal clinical departments as indicators of training infrastructure.
- Aims to identify disparities and inform improvements in osteopathic medical education.

Evaluation of Advanced Skin Cancer Risk in the United States: A National County-Level Geospatial Risk Analysis

Brown University, Providence, RI | 10/2020-Present

PI: Oliver J. Wisco, DO

- Retrospective study analyzing skin cancer incidence using U.S. Census and public health data to identify geographic regions at highest risk for advanced disease.
- Employs multivariate and geospatial methods to link access-to-care barriers with outcome disparities.
- Aim to develop an open-access, population health mapping platform for researchers.

Model for Biopsy Accuracy Evaluation Methodology Development

Brown University, Providence, RI | 10/2020-Present

PI: Oliver J. Wisco, DO

- Comprehensive re-evaluation of biopsy accuracy metrics (Number Needed to Biopsy, Number Needed to Biopsy, Number Needed to Treat) to address inconsistencies and methodological gaps.
- Developed a new, standardized performance measure combining the strengths of existing metrics.
- Methodology designed to be reproducible, clinically meaningful, and scalable across specialties.

Skin of Color Skin Cancer Disparities

Brown University, Providence, RI | 10/2020-Present

PI: Oliver J. Wisco, DO

- Literature synthesis and data analysis to identify factors contributing to delayed diagnosis and higher mortality among patients of color.
- Examining gaps in screening among patients with chronic inflammatory conditions.
- Developing targeted strategies to address disparities in early detection and treatment.

Diagnostic Accuracy Rates for Common Non-Melanoma Skin Cancers

81st Medical Group – Keesler Medical Center, Keesler AFB, MS | 10/2012-06/2014

PI: Oliver J. Wisco, DO

- Retrospective analysis of pre-operative diagnostic accuracy for common NMSCs.
- Stratified data by clinician type, lesion characteristics, and histopathologic criteria.

Development of a Multidisciplinary Melanoma Clinical/Research/Quality Database

Massachusetts General Hospital – Wellman Center for Photomedicine, Boston, MA |

08/2010-07/2012

PI: Oliver J. Wisco, DO

- Created unified data infrastructure to support clinical coordination, research, and quality initiatives across melanoma care teams at MGH.

A 10-Year Experience: Modified Mohs Surgery for MMIS on the Head/Neck

Mystic Valley Dermatology, Stoneham, MA | 07/2010-06/2011

PI: Oliver J. Wisco, DO

- Longitudinal review of treatment outcomes and margin analysis in LM/MMIS cases treated with Modified Mohs Surgery.
- Compared outcomes with standard excision and traditional Mohs.

Topical Imiquimod for Bowen's Disease on the Head and Neck

Brooke Army Medical Center, Fort Sam Houston, TX | 07/2007-06/2008

PI: Nicole M. Owens, MD

Position: Associate Investigator

- Participated in protocol development and patient enrollment for RCT evaluating imiquimod vs. placebo.

NASA Policy Development: Preventing Bone Loss from Long Duration Space Flight

NASA Johnson Space Center, Houston, TX | 04/2002-05/2002

PI: Josef F. Schmid, MD

Position: Research Assistant

- Conducted literature review and policy recommendations for managing osteopenia in astronauts.

Functional Electrical Stimulation in Pediatric Quadriplegia

Shriners Hospital for Children, Philadelphia, PA | 01/2000-08/2001

PIs: Randal Betz, MD; Scott Kozin, MD

Position: Research Assistant

- Conducted cadaver dissections and experimental animal studies to evaluate nerve transfer feasibility for future FES application.

Interfacing General Chemistry Experiments with Computers

University of Portland, Portland, OR | 01/1997-05/1997

Advisor: Agnes Tenney, PhD

Position: Research Assistant

- Developed digital tools for data collection and analysis in undergraduate chemistry labs.

RESEARCH – CLINICAL TRIALS, INDUSTRY SPONSORED

R2810-ONC-2251: A Phase 3 Randomized Study of Intralesional Cemiplimab Versus Primary Surgery in Early-Stage Cutaneous Squamous Cell Carcinoma (cSCC)

Dermatology Health Specialists, Bend, OR | 03/2025-Present

PI: Oliver J. Wisco, DO

Sponsor: Regeneron Pharmaceuticals, Inc.

- Multicenter, randomized clinical trial evaluating the efficacy of intralesional cemiplimab versus surgery in early-stage cSCC.
- Primary endpoint: Event-free survival at 1 and 3 years.
- Dr. Wisco is leading site-level coordination and implementation of experimental arm activities, including injections and pathology integration.

CBI_2021_COCCM_PRO: Clinical Outcomes of Cutaneous Melanoma Patients Clinically Tested with DecisionDx®-Melanoma (CONNECTION PRO)

Dermatology Health Specialists, Bend, OR | 12/2021-Present

PI: Oliver J. Wisco, DO

Sponsor: Castle Biosciences, Inc.

- Prospective, longitudinal registry study evaluating real-world outcomes in patients with cutaneous melanoma who undergo DecisionDx-Melanoma gene expression profiling.
- Aims to assess the long-term clinical impact of molecular risk classification on disease progression, surveillance, and treatment decisions.
- Includes optional tissue retention sub-study for future biomarker analysis and assay refinement.

CBI_2018_SLNBprosp_001: DecisionDx-Melanoma Impact on Sentinel Lymph Node Biopsy Decisions and Clinical Outcomes (DECIDE)

Dermatology Health Specialists, Bend, OR | 12/2019-Present

PI: Oliver J. Wisco, DO

Sponsor: Castle Biosciences, Inc.

- Prospective, multicenter study assessing how the 31-gene expression profile test (DecisionDx-Melanoma) impacts sentinel lymph node biopsy (SLNB) decisions.
- Evaluates whether molecular testing can reduce unnecessary SLNB in low-risk patients without compromising clinical outcomes.
