

CURRICULUM VITAE

Shira Ilana Dunsiger

PERSONAL INFORMATION

Address: Brown University School of Public Health, Box G-S121-8, Providence RI 02912
Phone: 401 863 6747
E-mail: Shira_Dunsiger@brown.edu

EDUCATION

2001 BSc, Mathematics and Statistics
McMaster University
2007 AM, Biostatistics
Brown University
2009 PhD, Biostatistics
Brown University
2009-2010 Postdoctoral Research Fellow, T32 Cardiovascular Behavioral Medicine
Brown University and The Miriam Hospital

ACADEMIC APPOINTMENTS

2010-2019 Research Scientist, Center for Behavioral and Preventive Medicine, The Miriam Hospital
2011-2012 Investigator, Department of Behavioral and Social Sciences, Brown University
2012-2020 Assistant Professor (Research), Department of Behavioral and Social Sciences, Brown University
2017-present Adjunct Faculty, COCE, Southern New Hampshire University
2017-present Adjunct Faculty, Math Department, Roger Williams University
2018-present Affiliated Faculty, Brown Emergency Digital Health Innovation (EDHI) Program, Brown University
2020-present Associate Professor(Research), Department of Behavioral and Social Sciences, Brown University
2020-present Associate Professor(Research), Department of Psychiatry and Human Behavior, Brown University
2022-present Associate Professor(Research), Department of Biostatistics, Brown University

MEMBERSHIP IN SOCIETIES

2007-present Golden Key International Honor Society, Member
2007-present International Math Society, Member
2009-present Society of Behavioral Medicine, Member

DEPARTMENT, CENTER, AFFILIATED HOSPITAL, OR UNIVERSITY SERVICE

2011-2015 Program in Nicotine and Tobacco, Centers for Behavioral and Preventive
Medicine, Member
2019-Present Center for Health Promotion and Health Equity, Brown University, SPH
2020-Present Center for Digital Health, Brown University, Leadership Board Member

NATIONAL OR INTERNATIONAL SERVICE

Editorial Responsibilities

2012-2016 Editorial Board Member, *Health Psychology*
2016- Editorial Board Member, *Annals of Behavioral Medicine*
present
2022- Section Editor, *Stress and Health*
present

Journal Manuscript Reviewer

*Health Psychology, Research Quarterly For Exercise and Sport, Health Services and
Outcomes Research Methodology, Pediatrics, New England Journal of Medicine, BMC
Public Health, Stress and Health*

PUBLICATIONS IN PEER-REVIEWED JOURNALS

1. Marcus, B.H., Lewis, B.A., Williams, D.M., **Dunsiger, S.**, Jakicic, J.M., Whiteley, J.A., Albrecht, A.E., Napolitano, M.A., Bock, B.C., Tate, D.F., Sciamanna, C.N., & Parisi, A.F. (2007). A comparison of Internet and print-based physical activity interventions. *Archives of Internal Medicine*, 167(9), 944-949. No PMC <http://archinte.ama-assn.org/cgi/reprint/167/9/944>.
2. Williams, D.M., Lewis, B.A., **Dunsiger, S.**, King, T.K., Jennings, E. & Marcus, B.H.(2008). Increasing fitness is associated with fewer depressive symptoms during successful smoking abstinence among women. *International Journal of Fitness*, 4(1), 39-44. PMID:PMC2805100
3. Williams, D.M., Lewis, B.A., **Dunsiger, S.**, Whiteley, J.A., Papandonatos, G.D., Napolitano, M.A., Bock, B.C., Ciccolo, J.T., & Marcus, B.H. (2008). Comparing psychosocial predictors of physical activity adoption and maintenance. *Annals of Behavioral Medicine*, 36(2), 186-194. PMID:PMC2721457
4. Lewis, B.A., Williams, D.M., **Dunsiger, S.**, Sciamanna, C., Whiteley, J.A., Napolitano, M.A., Bock, B.C., Jakicic, J.M., Getz, M., & Marcus, B.H. (2008). User attitudes towards physical activity websites in a randomized control trial. *Preventive Medicine*, 47(5), 508-513. PMID:PMC2614822

5. Williams, D.M., **Dunsiger, S.**, Ciccolo, J.T., Lewis, B.A., Albrecht, A.E., & Marcus, B.H. (2008). Acute affective response to moderate-intensity exercise stimulus predicts physical activity participation 6 and 12 months later. *Psychology of Sport and Exercise*, 9(3), 231-245. PMID: PMC2390920
6. Frierson, G.M., Williams, D.M., **Dunsiger, S.**, Lewis, B.A., Whiteley, J.A., Albrecht, A.E., Jakicic, J.M., Horowitz, S.M., & Marcus, B.H. (2008). Recruitment of a racially and ethnically diverse sample into a physical activity efficacy trial. *Clinical Trials*, 5(5), 504-516. PMID: PMC2709781
7. Rabin, C., Pinto, B., **Dunsiger, S.**, Nash, J. & Trask, P. (2009). Exercise and relaxation intervention for breast cancer survivors: Feasibility, acceptability and effects. *Psycho-Oncology*, 18(3), 258-266. No PMC
8. Pinto, B., Rabin, C. & **Dunsiger, S.** (2009). Home-based exercise among cancer survivors: Adherence and its predictors. *Psycho-Oncology*, 18(4), 369-376. PMID: PMC2958525.
9. Pekmezi, D.W., Neighbors, C.J., Lee, C.S., Gans, K.M., Bock, B.C., Morrow, K.M., Marquez, B., **Dunsiger, S.**, & Marcus, B.H. (2009). A culturally adapted physical activity intervention for Latinas: A randomized controlled trial. *American Journal of Preventive Medicine*, 37(6), 495-500. PMID: PMC2814545
10. Ries, A.V., **Dunsiger, S.**, & Marcus, B.H. (2009). Physical activity interventions and changes in perceived home and facility environments. *Preventive Medicine*, 49(6), 515-517. PMID: PMC2805038
11. Williams, D.M., Whiteley, J. A., **Dunsiger, S.**, Jennings, E.G., Albrecht, A.E., Ussher, M.H., Ciccolo, J.T., Parisi, A.F., & Marcus, B.H. (2010). Moderate intensity exercise as an adjunct to standard smoking cessation treatment for women: A pilot study. *Psychology of Addictive Behaviors*, 24(2), 349-54. No PMC
12. Hayes, R. B., Borrelli, B., & **Dunsiger, S.** (2010). The influence of quality of life and depressed mood on smoking cessation among medically ill smokers. *Journal of Behavioral Medicine*, 33(3), 209-218. No PMC
13. Pekmezi, D.W., Williams, D.M., **Dunsiger, S.**, Jennings, E.G., Lewis, B.A., Jakicic, J.M., & Marcus, B.H. (2010). Feasibility of using computer-tailored and internet-based interventions to promote physical activity in underserved populations. *Telemedicine and e-Health*, 16(4), 498-503. PMID: PMC2998032
14. Borrelli, B., Hayes, R.B., **Dunsiger, S.**, & Fava, J.L. (2010). Risk perception and smoking behavior in medically ill smokers: A prospective study. *Addiction*, 105(6):1100-8. PMID: PMC2908209

15. Carr, L.J., **Dunsiger, S.I.**, & Marcus, B.H. (2010). Walk score as a global estimate of neighborhood walkability. *American Journal of Preventive Medicine*, 39(5), 460-3. No PMC
16. Carr, L.J., **Dunsiger, S.I.**, & Marcus, B.H. (2011). Validation of walk score for estimating access to walkable amenities. *British Journal of Sports Medicine*, 45(14), 1144-8. No PMC
17. Williams, D.M., Papandonatas, G.D., Jennings, E.G., Napolitano, M.A., Lewis, B.A., Whiteley, J.A., Bock, B.C., Albrecht, A.E., **Dunsiger, S.**, Parisi, A.F., King, A.C., & Marcus, B.H. (2011). Does tailoring on additional theoretical constructs enhance the efficacy of a print-based physical activity promotion intervention? *Health Psychology*, Jul;30(4), 432-41. No PMC
18. Ciccolo, J.T., **Dunsiger, S.I.**, Williams, D.M., Jennings, E.G., Bartholomew, J.B., Ussher, M.H., Kraemer, W.J., & Marcus, B.H. (2011). Resistance training as an aid to standard smoking cessation treatment: A pilot study. *Nicotine and Tobacco Research*. Aug;13(8), 756-60 PMID: PMC3150692
19. Gupta, A., Tsiaras, S.V., **Dunsiger, S.I.**, & Tilkemeier, P.L. (2011). Gender disparity and the appropriateness of myocardial perfusion imaging. *Journal of Nuclear Cardiology*, 18(4),588-94. No PMC
20. Williams, D.M., **Dunsiger, S.**, Ussher, M.H., Whiteley, J.A., Jennings, E.G., & Ciccolo, J.T. (2011). Acute effects of moderate intensity exercise on core affect and cigarette cravings. *Addictive Behaviors*, 36(8), 894-7. No PMC
21. Hartman, S.J., **Dunsiger, S.I.** & Jacobsen, P.B. (2011). The relationship of psychosocial factors to mammograms, physical activity, and fruit and vegetable consumption among sisters of breast cancer patients. *International Journal of Women's Health*, 3, 257-63. PMID: PMC3163655
22. Hartman, S.J., **Dunsiger, S.I.**, Pekmezi, D.W., Barbera, B, Neighbors, C.J., Marquez, B, & Marcus, B.H. (2011). Impact of baseline BMI upon the success of Latina participants enrolled in a 6-month physical activity intervention. *Journal of Obesity*, 2011;2011:921916. Epub 2011 Nov 24.
23. Rabin, C., **Dunsiger, S.**, Ness, K., & Marcus, B.H. (2011). Internet-based physical activity intervention targeting young adult cancer survivors. *Journal of Adolescent and Young Adult Oncology*. 1(4), 188-194. PMID: 23610737.
24. Papandonatas, G.D., Williams, D.M., Jennings, E.G., Napolitano, M.A., Bock, B.C., **Dunsiger, S.I.** & Marcus B.H. (2012). Mediators of physical activity behavior change: Findings from a 12-month randomized controlled trial. *Health Psychology*, 31(4), 512-20.

25. Williams, D.M., **Dunsiger, S.**, Jennings, E.G., & Marcus, B.H. (2012). Does core affective valence during and immediately following a ten-minute walk predict concurrent and future physical activity? *Annals of Behavioral Medicine*, Aug;44(1), 43-51.
26. Whiteley, J.A., Williams, D.M., **Dunsiger, S.**, Jennings, E.G., Ciccolo, J.T., Bock, B.C., Albrecht, A., Parisi A., Linke, S.E., & Marcus, B.H.. (2012). Outcomes from the randomized trial of commit to quit in the YMCAs. *American Journal of Preventive Medicine*, Sep;43(3), 256-62.
27. Pekmezi, D., **Dunsiger, S.**, Gans, K., Bock, B., Gaskins, R., Marquez, B., Lee, C., Neighbors, C., Jennings, E., Tilkemeier, P., & Marcus, B. (2012). Rationale, design, and baseline findings from Seamos Saludables: A randomized controlled trial testing the efficacy of a culturally and linguistically adapted, computer- tailored physical activity intervention for Latinas. *Contemporary Clinical Trials*. Nov;33(6), 1261-71.
28. Carr, L.J., & **Dunsiger, S.I.** (2012). Search query data to monitor interest in behavior change: Application for public health. *PLoS One*, 7(10), e48158. <https://doi.org/10.1371/journal.pone.0048158>
29. Hartman, S.J., **Dunsiger, S.I.** & Marcus, B.H. (2013). A pilot study of a physical activity intervention targeted towards women at increased risk for breast cancer. *Psycho-Oncology*, 22(2), 381-387.
30. Carr, L.J., **Dunsiger, S.I.**, Lewis, B., Ciccolo, J., Hartman, S., Bock, B., Dominick, G., & Marcus, B. Randomized controlled trial testing an Internet physical activity intervention for sedentary adults. (2013). *Health Psychology*. March; 32(3), 328-336.
31. Pekmezi, D., **Dunsiger, S.**, Gaskins, R., Barbera, B., Marquez, B., Neighbors, C., & Marcus, B. (2013). Feasibility and acceptability of using pedometers as an intervention tool for Latinas. *Journal of Physical Activity & Health*, 10(3), 451-7.
32. Dominick, G.M., **Dunsiger, S.I.**, & Marcus, B.H. (2013). Association between health literacy and self-efficacy for physical activity among Latinas. *Journal of Immigrant and Minority Health*, Jun;15(3), 533-9.
33. Lewis, B.A., Williams, D.M., Martinson, B.C., **Dunsiger, S.I.**, & Marcus, B.H. (2013). Healthy for life: A randomized trial examining physical activity outcomes and psychosocial mediators. *Annals of Behavioral Medicine*, 45(2), 203—212. PMID: 23229158
34. DePue, J.D., **Dunsiger, S.I.**, Seiden, A., Blume, J., Rosen, R.K., Goldstein, M., Nu'solia, O., Tuitele, J., & McGarvey, S.T. (2013). Nurse-community health worker team improves diabetes care in America Samoa: Results of a randomized controlled trial. *Diabetes Care*, Jul;36(7), 1947-53.
35. Whiteley, JA, Williams, DM, Jennings, EG, Ciccolo, JT, Bock, BC, **Dunsiger, S.**, & Marcus, BH. (2013). The challenges of translating an efficacious smoking cessation

- program, Commit to Quit, to the community setting of YMCAs. *Translational Behavioral Medicine: Practice, Policy and Research*, Mar; 3(1), 47-58.
36. Pinto, B.M., **Dunsiger, S.I.**, Farrell, N., Marcus B.H., Todaro, J.F. (2013). Psychosocial outcomes of an exercise maintenance intervention after phase II cardiac rehabilitation. *Journal of Cardiopulmonary Rehabilitation Prevention*, 33(2), 91-98.
 37. Marcus, B.H., **Dunsiger, S.I.**, Pekmezi, D.W., Larsen, B.A., Bock, B.C., Gans, K.M., Marquez, B., Morrow, K.M., Tilkemeier, P. (2013). The Seamos Saludables Study: A randomized controlled physical activity trial of Latinas. *American Journal of Preventive Medicine*. 2013 Nov;45(5):598-605

Intervention to Prevent Peer Violence & Depressive Symptoms Among At-Risk Adolescents

The goal of this study is to determine which type of ED-initiated intervention is most potent at reducing peer violence and depressive symptoms among at-risk youth.

Role: Co-Investigator/Biostatistician

2R01CA159954-05, NCI Marcus, Bess (PI) 09/06/11-08/31/22

Promoting Physical Activity in Latinas via Interactive Web-based Technology

To test an enhanced version of the original intervention (Pasos Hacia la Salud, R01CA159954) in order to outperform PA gains of the parent trial and achieve long term maintenance, which is critical to reducing the burden of chronic disease.

Role: Co-Investigator/Biostatistician

1R01HL136327-01, NHLBI, Busch, Andrew (PI) 08/18/17-07/31/22

Secondary Prevention Following Acute Coronary Syndrome Using Integrated Smoking Cessation and Mood Management

The primary aim of this project is to test whether a combined mood management and smoking cessation counseling intervention can improve outcomes following a cardiac event.

Role: Co-Investigator/Biostatistician

1R01MD012225-02, NIMHD, Koinis-Mitchell, Daphne (PI) 09/25/17-05/31/22

Peer-Administered Asthma Self-Management Intervention in Urban Middle Schools

Role: Co-Investigator/Biostatistician

5R01CA183849-04, NCI, Pinto, Bernardine (PI) 04/03/15-03/31/22

Peers Promoting Exercise Adoption and Maintenance Among Cancer Survivors

This application proposes to develop and test interventions for exercise maintenance among breast cancer survivors which can be used by various community-based organizations.

Role: Co-Investigator/Biostatistician

1R01DK117843-01 Unick, Jessica (PI) 9/18/2018-6/30/2023

NIH/NIDDK

Phone Coaching as a Rescue Strategy for Early Non-Responders Enrolled in an Internet-Delivered Weight Loss Program

This study examines whether the addition of brief (3 phone calls) or extended phone coaching (weekly phone calls) to early non-responders enrolled in an Internet-based WL program improves weight loss.

Role: Co-Investigator

1R01DK117857-01A1 Thomas, John G (PI) 6/1/2019-3/31/2023

NIH/NIDDK

Rapid Evaluation of Innovative Intervention Components to Maximize the Health Benefits of Behavioral Obesity Treatment Delivered Online: An Application of Multiphase Optimization Strategy

This project aims to optimize the weight loss outcomes produced by online behavioral obesity treatment via 5 innovative intervention components tested in a randomized factorial experiment.

Role: Co-I/Biostatistician

1R01HL142058-01A1 Koinis-Mitchell, Daphne (PI) 4/1/2019-3/31/2024

NIH

Disparities in Sleep, Asthma, and the Sleep Context in Urban Children

The proposed research builds on the team's prior work by utilizing a multi-method, in-depth approach to characterize the sleep patterns and sleep settings of urban children in combination with biological measures that may differ based on children's ethnic group background and may contribute to asthma outcomes.

Role: Biostatistician

1R01NR017876-01A1 Larsen, Britta (PI) 8/1/2019-3/31/2024

NIH/NINR

Individually Tailored Physical Activity Intervention for Latina Adolescents: Niñas Saludables

To conduct a randomized controlled trial of a six-month MVPA intervention for Latina adolescents that will incorporate an individually tailored interactive multimedia website, wearable trackers to reinforce key behavior change techniques, and SMS messages to encourage adaptive goal setting.

Role: Co-Investigator/Biostatistician

MRSR-17-152-01, ACS McDonnell, Karen (PI) 01/01/18-12/31/22

Dyad-based Multiple Behavior Intervention for Reducing Lung Cancer Symptoms

The goal of this project is to address the need to integrate symptom reduction with change in multiple behaviors (tobacco use and lack of physical activity) into a self-managed, dyad-based intervention, known as Breathe a little easier for survivors with early stage lung cancer (Stages I–IIIa) and their family members.

Role: Co-Investigator/Biostatistician

Hassenfeld Child Health Institute McQuaid, Beth; Koinis-Mitchell, Daphne; and Fritz, Gregory (PI) 02/01/16-01/31/22

Childhood Asthma Research Innovation Program

The Childhood Asthma Research Innovation Program comprises three projects; 1) a project to capitalize the Child Health Innovation Institute birth cohort to assess genetic, epigenetic, and environmental/contextual contributions to asthma onset in children at, 2) examination of epigenetic, immune, and social context in school-aged children with asthma at risk for

experiencing health disparities, and 3) establishment of data infrastructure and referral network to coordinate community-based interventions available across the state for families of children with asthma.

Role: Co-Investigator/Biostatistician

1R21DA045848-01 Green, Traci (PI) 12/1/2017-11/30/2021

NIH/NIDA

Comparing Medication Maintenance in Comprehensive Community and Pharmacy Settings to Enhance Engagement

The goal of this study is to examine how the pharmacy can better optimize treatment expansion by providing pharmacy-based MAT for maintenance. This study aims to develop (R21 phase) then test (R33 phase) a model of MAT maintenance and coordinated care in the pharmacy.

Role: Co-Investigator

VPR-27320915, Landoll, Ryan (PI) 8/1/2017-7/31/2022

USUHS

Optimizing a Multi-Modal Intervention to Reduce Health-Risking Sexual Behavior

The major goals of this project are to adapt and evaluate intervention strategies that aim to reduce health-risking sexual behavior in active-duty military populations.

Role: Biostatistician

1K23AT010099-01A1 Dunne, Eugene (PI) 4/15/2019-3/31/2024

NIH/NCCIH

Tai Chi Intervention to Improve Chronic Pain Management for Adults with HIV

The major goal of this project (K23) is to gain the knowledge and skills necessary to become an independently-funded mind-body researcher focused on chronic pain in the context of HIV.

Role: Collaborator

1R01MH119892-01A1 Nelson, Kimberly (PI) 12/25/2019-11/30/2024

NIH/NIMH

Minor Consent Laws and HIV Prevention Among Adolescents in the United States

The overarching aim of the proposed study is to understand how state-specific minor consent laws are affecting HIV/STI testing and other preventive behaviors among adolescents.

Role: Co-Investigator/Biostatistician

1R01DK120731-01-01 Lillis, Jason (PI) 04/1/2019-03/31/2024

NIH/NIMH

Teaching Novel Value-Based Skills to Improve Long-Term Weight Loss: A Randomized Trial Examining the Efficacy of a Weight Loss Maintenance Intervention Based on Acceptance and Commitment Theory

This randomized controlled trial will determine whether principles of acceptance and commitment therapy can be used to improve weight loss maintenance after behavioral obesity treatment.

Role: Co-Investigator/Biostatistician

1R01AG069349-01 Williams, David (PI) 09/15/20-08/31/2025

NIH/NIAAA

Comparing A Recommendation For Self-Paced Versus Moderate Intensity Physical Activity For Midlife Adults: An RCT

To compare the effects of an explicit recommendation for self-paced PA versus a traditional intensity-based exercise prescription (based on heart rate range) on PA behavior among previously low-active overweight midlife adults.

Role: Co-Investigator/Biostatistician

1R01HL149672-01 Salmoirago-Blotcher, Elena (PI) 03/01/2020-02/28/2025

NIH/NHLBI

Heterogeneity And Predictors Of Stress Reactivity In Takotsubo Syndrome

The goals of this project are to study the role of stress and stress reactivity in Takotsubo Syndrome.

Role: Co-Investigator/Biostatistician

1R01HD104187Ranney,Megan,Nugent,Nicole(MPI) 09/18/2020-08/31/2025

NIH / NICHD

Social Media, Violence, and Social Isolation Among At-Risk Adolescents: Exploring Ground Truth

This innovative 6-month cohort study will use multiple methods of real-time measurement of social media use, in-person interactions, and self-perceptions to identify patterns of social connectivity, peer victimization, and psychological well-being among a high-risk sample of adolescents. Results will inform future in-person and population-level interventions for youth, parents, and communities. Role: Co-Investigator/Biostatistician

1R34DA046078-01A1 Japuntich, Sandra (PI) 12/1/19-11/30/22.36 CM

NIH/NIDA

Implementation of Cessation Treatment in Community Based Mental Health Centers

The proposed study adapts the Addiction Technology Transfer Centers Science to Service Laboratory implementation strategy to implement proactive, chronic care based tobacco cessation treatment strategy into community-based mental health centers. Role: Co-Investigator/Biostatistician

U01AT011184 Bock, Beth (PI) 06/04/2021-05/31/2024

NIH/NCCIH

Establishing Multi-Site Feasibility and Fidelity of Yoga to Improve Management of Type-2 Diabetes

To optimize a yoga intervention for adults with diabetes and to establish our ability to deliver and enhanced yoga intervention with high fidelity across multiple recruitment and intervention sites.

Role: Co-Investigator/Biostatistician

R03CA252500 Benitez, Tanya (PI) 07/01/2021-06/30/2023

NIH

Increasing aerobic and muscle-strengthening physical activity in Latinas via interactive web-based technology

To address the lack of interventions promoting muscle-strengthening activities exclusively for Latinas, we are testing the preliminary efficacy of a culturally and linguistically relevant, web-based aerobic plus muscle-strengthening PA intervention in this at-risk population. Our web-based intervention provides a more comprehensive and highly disseminable approach for reducing PA-related health disparities in Latinas.

Role: Co-Investigator/Biostatistician

R01CA262894 Williams, David and Galarraga Omar (MPI) 07/15/2021-06/30/2026

NIH

Empirical testing of a widely available insurance-based monetary incentive program for exercise: A randomized trial

We propose to conduct a randomized controlled trial to test two different financial incentive programs (versus control) to promote physical activity among 330 low-active adults.

Role: Co-Investigator/Biostatistician

R34AT011302-01A1 Williams, David(PI) 08/15/2021-07/31/2023

NIH

Early phase clinical trial to test the feasibility of an ACT-based physical activity promotion program for adults with depressive symptoms

The aims of this project are to conduct a feasibility trial of an 8-week ACT-based PA promotion intervention (ACTivity) for low-active adults with elevated depressive symptoms delivered at local YMCAs.

Role: Co-Investigator/Biostatistician

R01HD106635 Ybarra, Michelle, Nelson, Kimberly (MPI) 09/01/2021-08/31/2024

NIH

Adolescent health behaviors in the time of COVID-19

This project's overarching goal is to investigate how the COVID-19 pandemic is impacting short- and long-term sexual health behaviors among adolescents in the United States.

Role: Co-Investigator/Biostatistician

R01HL156277 Koinis-Mitchell, Daphne & Marshall, Gailen(MPI) 08/15/2021-07/31/2026

NIH

Impact of Sleep Duration on Immune Balance in Urban Children with Asthma

To examine the associations between shortened sleep and immune imbalance, recovery sleep and immune imbalance and immune imbalance and lung function in a sample of 204 8-9 year olds with persistent asthma.

Role: Co-Investigator/Biostatistician

R01MH128269-01 Mitchell, Kimberly(PI) 09/13/2021-06/30/2026

NIH

Understanding Bystanders for Self-Directed Violence Prevention: A Prospective National Study Highlighting Marginalized Youth and Young Adults

To recruit and survey 3,000 adolescents and young adults over three time points to identify the pathways through which attitudinal and contextual components of the SCM-SDV predict a) opportunity to act, b) intent to act, and c) actual bystander behavior for SDV.

Role: Co-Investigator/Biostatistician

P20GM139767 Stroud, Laura (PI) 09/15/2021-07/31/2026

NIGMS

Stress, Trauma, Resilience: Technology, Assessments, Data and Analysis (TADA) Core

Provide statistical support for included investigator projects as well as future pilot investigations. She will aid in the development and execution of statistical models, provide guidance on measurement selection, study design and data collection and aid in the interpretation of study results.

Role: Co-Investigator/Biostatistician

U01 HD108738 Ybarra, Michelle (PI) 09/01/2021-08/31/2026

NIH/NICHD

Harnessing the power of text messaging to reduce HIV incidence in adolescent males across the United States

Oversee all statistical aspects of the project, including development of statistical models for data analysis and will contribute to the scientific reports and manuscripts based on the results of the study. She will collaborate with study staff, including data management, to provide support on coding data, analysis and scientific abstracts and presentations.

Role: Co-Investigator/Biostatistician

1R01MD016241-01 Grigsby-Toussaint, Diana(PI) 09/01/2021-08/31/2026

NIMH

Green Space, Mental Health and Sleep

Findings from this study will allow us to determine (1) how green space utilization (GPS-derived measures of daily activity and environmental features) is related to sleep (duration, timing, regularity) in children, (2) Determine whether greenspace utilization is associated with mental health and wellbeing via sleep behaviors and (3) Explore the potential epigenetic contribution of greenspace on sleep and wellbeing in children across Rhode Island.

Role: Co-Investigator/Biostatistician

R01DK128412 Demos McDermott, Kathryn (PI) 09/23/2021-08/31/2026

NIH

Adapting Episodic Future Thinking for Behavioral Weight Loss: Comparing strategies and characterizing treatment response

To examine intervention effects (comparing standard, PREVENT, and PROMOTE) on weight loss from baseline to mid-treatment (3 and 6 months), end of treatment (12 months) and follow-up (18 months).

Role: Co-Investigator/Biostatistician

1R01DK128197 Keita, Akilah & Gans, Kim (MPIs) 03/07/2022-02/28/2025
NIDDK

Testing a Multilevel, Multicomponent, Multigenerational Dietary Intervention to Improve Southeast Asian Children's Diets

Relative to other racial/ethnic groups, Southeast Asian (SEA) children (specifically Hmong, Cambodian, Vietnamese and Laotian) experience higher rates of diet-related chronic diseases like type 2 diabetes risk factors. We will leverage our a longstanding partnership with the Center for SEA to test the feasibility and preliminary efficacy of an innovative multilevel, multicomponent, multigenerational dietary intervention with SEA families with children ages 6 to 11. This intervention integrates family-based nutrition education, motivational interviewing, descriptive dietary norms messaging, and healthy eating financial incentive coupons to improve children's diet quality (primary) and body mass index and HbA1c (secondary).

Role: Co-Investigator/Biostatistician

R21AA030523 Ramsey, Susan (PI) 07/01/2022-06/30/2024

NIH

Alcohol Use, Intimate Partner Violence, and ART Adherence among Men Living with HIV who Have Sex with Men

Role: Co-Investigator/Biostatistician

R01AT011744 Yeh, Gloria (PI) 09/05/2022-008/31/2025

NIH

Tai Chi Exercise and Wearable Feedback Technology to Promote Physical Activity in ACS Survivors

To study a multi-level intervention (TC-Wearable) that includes group-based TC classes (remotely delivered to increase access and potential scalability) and an individual wearable device with iterative feedback to promote PA in physically inactive patients with prior ACS.

Role: Co-Investigator/Biostatistician

P20GM139743 Wolff, Jennifer (PI) 06/01/2022-02/28/2023

NIH

COBRE Center for Sleep and Circadian Rhythms in Child and Adolescent Mental Health - PBC.

To provide statistical support to COBRE projects and investigators associated with this project.

Role: Biostatistician

R01AG076438, Salmoirago-Blotcher, Elena (PI) 04/01/2022-03/31/2027

NIDA

Using a YMCA Exercise Program to Enhance Nicotine Dependence Treatment for Women

This study will test the efficacy of our CTQ smoking cessation program when delivered in local YMCAs by YMCA staff. This is a necessary intermediate step toward dissemination of our efficacious smoking cessation treatment for women and is consistent with Stage III behavioral research as defined in PA-03-126.

Role: Co-I/Statistician

1R34DA031057-01 (R. Cohen, PI) 9/30/10-08/31/12

NIDA

Improving Adherence and Cognition in Substance-Using HIV Patients

Substance abuse in the context of HIV infection is a major problem that affects clinical outcome and interferes with adherence to treatment regimens. This study examines the value of a computer-based cognitive training program (Vigorous Mind) to enhance attention and executive functioning as a means of improving organizational and planning ability and ultimately treatment adherence.

Role: Co-I/Statistician

5R18DK075371 (S. McGarvey, PI) 9/15/06-07/31/12

NIDDK

Diabetes Care in American Samoa

This project will test the effectiveness of a Community Health Worker and primary-care coordinated intervention to provide outreach, education and support to type 2 diabetes patients and their families in American Samoa.

Role: Co-I/Statistician

5R01NR011295-04 (B. Marcus, PI) 09/01/09–05/31/13

NINR

Culturally and Linguistically Adapted Physical Activity Intervention for Latinas

The purpose of the study is to promote physical activity among this at-risk population using a high-reach, low-cost strategy, which has great potential for adoption on a larger scale and thus high potential for reducing existing health disparities in the U.S.

Role: Co-I/Statistician

5R33MH080591-05 & Supplement: (R21) 09/28/06-08/31/08;(R33) 09/01/08–12/31/12 (NCE)

(K. Morrow, PI)

NIMH

Linking Biophysical Functions of Microbicides to user Perception & Acceptability

To explore the potential link between specific omnibus measures of microbicide formulation properties and similarly omnibus scale measures of women's experiences with those formulations.

Role: Co-I/Statistician

5R01CA132854-05(B. Pinto, PI) 01/01/09–11/30/13

NCI

Community Volunteers Promoting Physical Activity Among Cancer Survivors

To determine the effects of Reach to Recovery (RTR) volunteers at American Cancer Society (ACS) offices providing brief physical activity (PA) counseling via telephone (RTR Plus) over 12 weeks to 108 women who contact collaborating ACS offices (3 offices) for RTR services.

Role: Co-I/Statistician

5R33AI076967-05 (K. Morrow, PI)11/01/09-02/28/13 (NCE)

ImQuest/NIAID

Rational Development of Combination Microbicide Therapies

The aim of this project is to explore the potential link between specific omnibus measures of microbicide formulation/device (i.e., topical vaginal gels and quick-dissolving vaginal film) properties and similarly omnibus scale measures of user's experiences with those formulations.

Role: Co-I/Statistician

5R03CA153942-02 (S. Dunsiger, PI)07/22/10-06/30/13 (NCE)

NIH/NCI

Statistical Methods for Assessing Patterns of Change in Cancer-Control Behavior

To develop intensive longitudinal models specifically designed for detecting patterns of behavior change in cancer-control trials.

Motivating Smokers with Mobility Impairments to Quit Smoking

The aim of this project is to use community based participatory research to develop and produce a theory-based DVD for smoking cessation that is tailored for smokers with mobility impairments, and test the efficacy in a randomized clinical trial.

Role: Co-I/Principal Investigator(took over for last 2 years when PI transferred institutions).

NIH/NHLBI

Efficacy of Exercise Videogames for Physical Activity Adoption and Maintenance

For the proposed study we will conduct a 3-group randomized, controlled trial among healthy, sedentary adults (age =18), to test the efficacy of EVGs compared to a standard exercise program (Standard) and contact-control (Control) to increase time spent in PA and changes in physical fitness and cardiovascular health. We will also examine maintenance of PA and fitness changes during a 6-month home based EVG and Standard interventions (Months 4-9). This study will also examine changes in theoretically-based constructs that will shed light on the cognitive and behavioral mechanisms underlying observed between-group differences in adherence to PA.

NIH/NCCIH

Efficacy of Yoga as an Alternative Therapy for Smoking Cessation

The proposed study will test the efficacy of Yoga as a complementary therapy for smoking cessation in a randomized, controlled 2-group study design. Adult smokers will be provided with smoking cessation counseling (SCC) and randomly assigned to either; 1) Yoga, or 2) a Control group (CTL) given a Health & Wellness program to control for contact time. Smoking abstinence will be measured at the end of treatment and at 3, 6 and 12 months follow-up. We hypothesize that abstinence will be significantly higher in the SCC+Yoga compared to SCC+CTL. We will also test theoretically posited mediators of intervention efficacy (e.g., perceived stress, cognitive/perceptual changes), and explore the relationship between maintenance of yoga practice during the post-treatment period and smoking status. This study builds on our programmatic line of research developing innovative, theory driven smoking cessation therapies.
