HONORS AND AWARDS

Camp Rising Sun, an International Scholarship Camp in Rhinebeck, NY with campers from Japan, Thailand, India, Iran, Egypt, Brazil, Greece, Poland, the Netherlands, Denmark, France, Finland, and Sweden.

Award from Marine Midland Bank for the highest GPA in Mathematics, in a graduating class of 400+, Whitesboro High School.

Class Salutatorian (second highest GPA) in a graduating class of 400+, Whitesboro High School.

Research Excellence Award, awarded to Drs. Irene Glasser and William Zywiak, May 2000, by the Center for Alcohol and Addictions Studies, Brown University.

National Institutes of Health, Clinical Loan Repayment Program Award Recipient. 2002 - 2005.

PENDING GRANTS

1. "Predictors and Outcomes of the 3 Time Dimension of Alcohol Relapse" (PI: Zywiak) This set of secondary analyses will examine antecedents and consequences of the time of day of relapse, the day of week of relapse, and to provide context for these findings, number of days to first drink. Role: Principal Investigator. \$149,000 Discussed by the Review Committee in March 2015, to be resubmitted for the November 2015 NIH deadline through my new institution.

CURRENTLY FUNDED GRANTS

1. "Barriers to Alcohol, Drug, and PTSD Treatment for Returning National Guard." (PIs: Ames/Moore) The goal of this qualitative research is to identify, explain and thereafter provide guidelines for eliminating individual, socio-cultural, and structural barriers to treatment for alcohol and drug use disorders and PTSD among US National Guard service members returning from deployment in Afghanistan and Iraq. Role: Co-Investigator (2/01/13 - 06/30/15).

2. "Evaluation Services: California Community Colleges Student Mental Health Program." (PI: Saltz) This project will evaluate the efforts across the California Community College system to improve the mental health of students through faculty trainings, student trainings, peer to peer interventions, and other campus specific initiatives. Role: Senior Evaluator. (8/16/12 - 04/30/15).

3. "A Longitudinal Prospective Study of Social Network Dynamics in Addictions" (PI: Stout) To examine the influence of relationships ending and beginning on substance use outcomes and risk behaviors among those recently receiving substance abuse treatment. Role: Co-Investigator. (7/16/12 - 6/30/15).

4. "Evaluation of Rhode Island's Jail Diversion and Trauma Recovery Program" (PI: Friend) This is an evaluation of the Jail Diversion project at The Kent Center which utilizes the TAMAR protocol for justice-involved persons (priority is given to veterans). TAMAR stands for Trauma, Addiction, Mental health, And Recovery. Follow-ups are completed at 6 and 12-months. Evaluator. (7/16/11 - 6/30/15)

PREVIOUS GRANTS

1. "A Novel Pharmacotherapy for Alcoholism and Alcohol Liver Disease" (PI: Kenna) This project will conduct a 12-week (followed by a 2-month follow-up)

double-blind, placebo controlled, between-subject randomized clinical trial with metadoxine in 83 alcohol dependent individuals with advanced liver disease. Role: Statistician. (6/1/12 - 5/31/14).

2. "Doxazosin an Alpha-1 Antagonist for Alcohol Dependence" (PI: Kenna) The primary aim of this study is to randomize treatment-seeking alcohol dependent individuals to test the effects of the alpha-blocker doxazosin in reducing alcohol craving and drinking. Role: Statistical Consultant (11/01/11 - 08/31/14).

3. "GED Pilot Study" (PI: Zywiak) This pilot study is examining the acceptability, and academic/employment/substance use outcomes associated with a 4-month long combined telephone contact and stage/substance-matched text intervention for GED students. Results from this study will be used to support a grant application. Role: PI (3/01/13 - 6/30/14).

4. "Computer-based MI to engage smokers living with HIV in tobacco quitline treatment" (PI: Brown) The overall objective of this study is to develop the computer intervention, modify it based on piloting and feedback, and obtain preliminary data supporting the efficacy of the intervention. Role: Statistician (4/1/13 - 11/15/13).

5. "Testing the Efficacy of an Exercise Intervention for Patients with OCD" (PI: Abrantes) The purpose of this study is to conduct a RCT to test the efficacy of an exercise intervention versus a health education control for patients with clinically significant OCD symptoms despite engaging in recommended doses of pharmacotherapy and/or Cognitive Behavioral Therapy. Role: Statistician. (4/8/12 - 11/15/13).

6. "Sequential Use of Fluoxetine for Smokers with Elevated Depressive Symptoms" (PI: Brown) To evaluate the efficacy of the sequential use of fluoxetine for smoking cessation in smokers with elevated depressive symptoms. Role: Statistician. (12/12/11 - 12/15/12).

7. "Aripiprazole and Topiramate for Free Choice Drinking." (PI: Swift) This study will test two new promising medications for alcohol treatment in a 2 X 3 between-subjects design. Dependent measures will include the number of standard drink units consumed during controlled laboratory conditions, craving, adverse reactions, and standard real world alcohol consumption measures. Co-Investigator. (09/15/07 - 5/31/12).

8. "Developing a Peer Advocate Intervention for Rural LGBT Populations" (PI: Willging) The peer advocate intervention will address depression and alcohol use disorders among rural LGBT help seekers. This study will develop the empowerment protocol, coaching manual, and peer advocate support system; design and implement a training curriculum to prepare individuals to serve as peer advocates; and conduct a pilot test to yield preliminary qualitative and quantitative data on feasibility, acceptability, and changes in treatment access and utilization. Statistician. (07/16/11 - 5/31/12).

9. "Longitudinal Study of Mechanisms of Drug Abuse Recovery - Pilot." (PI: Stout) A naturalistic pilot study of relapse in those that have recovered from cocaine problems without formal treatment. Co-Investigator. Total Award (02/01/2010 - 12/31/2011) \$410,647, total costs.

10. "Multi-Method Ethnographic Assessment of Behavioral Health Reform in New Mexico." (PI: Willging) This study uses ethnography, surveys, and reviews of administrative databases to examine the introduction of a new managed

behavioral health care system in the largely rural and ethnically diverse state of New Mexico. Statistician (12/01/08 - 8/31/11) \$777,497, initial total costs.

11. "Mental Illness & Community Reentry in a Multi-Ethnic Population of Female Inmates." (PI: Willging) This translational research will adapt and refine a data- and theory driven approach, the Critical Time Intervention (CTI) in order to address mental illness and community needs and to decrease recidivism within a vulnerable population of rural and ethnic minority women in prison. This project will combine formative research and participatory planning methods to adapt the CTI for female inmates in the rural state of NM. Statistician. (05/01/10 - 08/31/11) \$125,000 initial year direct costs.

12. "Matching 5-HTT Genotypes to Serotonergic Medications for Alcoholism." (PI: Kenna) A 2 x 2 (between subjects) x 3(within subjects) design will compare genetic matches to mismatches on response to ondansetron versus sertraline versus placebo. Co-Investigator. Total Subcontract (9/30/07 - 8/31/11) \$111,339

13. "College Facilitation for Alcohol Problems," (PI: Zywiak) NIAAA grant AA014667. College facilitation has been developed from the extended case monitoring protocol. Three hundred seventy four First Offenders of the University of Rhode Island's substance use policy were recruited to participate in this study. Participants were randomized to a four semester college facilitation protocol, or the First Offenders program as usual. This is one of the first studies to examine the effects of an intervention for college students spread out over the course of two years. Eighty eight percent of the 24-month follow-ups were completed. Results indicate that those receiving the calls have a higher g.p.a. (particularly for first generation college students), and a longer time to peak drinking. Principal Investigator. Total Project Cost (08/01/05 - 12/30/10): \$1,974,770

14. "Organizational Factors in Drug Abuse Treatment Outcome." (PI: Stout) This study is following 10 to 30 clients from each of 20 diverse outpatient programs. This study will assess how organizational factors affect clinical outcomes. It will be one of the first studies to measure organizational characteristics and client outcomes using state of the art assessment techniques for both domains. Co-Investigator. Total Project Cost (7/15/04 - 6/30/11): \$2,914,291

15. "Extended Case Monitoring for Alcoholics: Health Costs," (PI: Stout) NIAAA grant AA09907. This is a 5 year competing renewal. This randomized clinical trial included a number of improvements to the previous case monitoring protocol, including the addition of motivational interviewing techniques to case monitoring, and the recruitment of participants from detoxification programs rather than day treatment programs. Case monitoring is an adjunct to standard alcohol treatment. Co-Principal Investigator. Total Project Cost (9/20/01 - 5/31/07): \$3,248,390

16. "College Facilitation: Case Monitoring for College Students," (PI: Zywiak) PIRE corporate development funds. This randomized clinical trial of 40 students tested the feasibility of conducting a 5-month version of college facilitation. One statistically significant difference and two statistical trends were found among four measures of drinking and negative consequences when the college facilitation group was compared to the control group. Principal Investigator. Total Project Cost (01/01/02 - 06/30/03) \$20,732.

17. "Relapse Onset and Termination and Abstinence Maintenance," (PI: Zywiak) NIAAA grant AA12302. This study focused on four aspects of treatment outcome: 1) client perceived influences of relapse onset 2) client perceived influences of relapse termination 3) client perceived influences of periods of abstinence, and 4) temporal and alcohol-related parameters of relapse. Principal Investigator. Total Project Cost (9/03/99 - 8/31/02): \$280,591.

18. "Extended Case Monitoring for Alcoholics: Health Costs," (PI: Stout) NIAAA grant AA09907. The goal of this study was to test the cost-effectiveness of a long duration, low intensity intervention for alcohol problems in a randomized clinical trial. Project Director from 1996 to November 2000. Total Project Cost (9/29/94 - 11/30/00): \$2,374,153.

19. "Census and Brief Assessment of the Homeless of Hartford," (PI: Glasser) award from the city of Hartford. This study consisted of brief assessments of all homeless persons in Hartford, CT on the night of December 13th, 1999. A more thorough in-person interview assessing alcohol and drug problems, health care issues, and needs was conducted on a random subsample of this population. Co-Investigator. Total Project Cost (11/01/99 - 3/31/00): \$15,786; Total Direct Cost: \$9,991

20. "Relapse Replication and Extension Project," (PIs: Stout/Connors) NIAAA Contract ADM-281-91-0007. The goal of this study was to empirically test components of Alan Marlatt's Relapse Prevention Model. Project Director from 1991 to 1994. Consultant from 1994 to 1995. Research Associate from 1995 to 1996. Project Director from 1996 to 2001. Total Project Cost: \$724,226
