Grants

Completed

1. 1 F31 AA14056 **Squires (PI)** 9/20/02-9/19/03
NIH/NIAAA \$25,146
Diffusing a PC-Based Intervention for Problem Drinkers
The goal of this proposal was to evaluate the adoption of an interactive computer (PC)-based program for problem drinking by a sample of treatment providers across 10 treatment sites.

2. 6 UD1 TI013418 **Squires (PI)** 9/30/06-9/29/07
DHHS/SAMHSA \$1,458,177
Addiction Technology Transfer Center of New England
The goal of this project was to promote system change and workforce development/enhancement through the infusion of current research findings into clinical practice and educational programming across the six-state New England region.

3. 2 U10 DA015831 Weiss (PI) 9/1/07-8/31/08
NIH/NIDA \$2,475,006
Clinical Trials Network: Harvard University Northern New England Node
The goal of this proposal was to bring together research expertise and community treatment programs to design and implement addiction treatment studies in the community, and to insure the broad distribution of research-based treatment practices into clinical practice.
Role: **Co-Investigator**

4. 1 R21 DA021150 **Squires (PI)** 5/10/07-12/31/10
NIH/NIDA \$261,250
Training Drug Treatment Providers to Adopt Evidence-Based Practices
The goal of this proposal was to evaluate novel technology transfer methods intended to enhance adoption of evidence-based practice for drug treatment among treatment providers.

5. 30771 00030382 (UMKC) **Squires (PI)** 10/1/10-9/30/11
DHHS/SAMHSA/UMKC \$7,430
Workforce Development for MAT (Subcontract through University of Missouri-Kansas City)
The goal of this project was to increase awareness, provide education, and promote access to medication assisted treatment (MAT) for specific racial and ethnic minority populations.

6. 1 R01 AA016000-01 Colby (PI) 10/01/09-8/31/12
NIH/NIAAA \$375,478
Brief Alcohol Intervention for School-to-Work Transitions
The goal of this project was to compare the efficacy of brief motivational intervention vs. a time-matched control for reducing heavy alcohol use and related consequences in a sample of non-college bound underage drinkers aged 17-20.
Role: **Co-Investigator**

7. 5 UD1 TI013418 **Squires (PI)** 9/30/07-3/31/13
 DHHS/SAMHSA \$552,000
 Addiction Technology Transfer Center of New England
 The goal of this project was to promote system change and workforce development/enhancement through the infusion of current research findings into clinical practice and educational programming across the six-state New England region.
8. 1 P01 AA019072 Monti (PI) 9/30/10-8/31/15
 NIH/NIAAA \$1,174,485
 Alcohol and HIV: Biobehavioral Interactions and Intervention
 The goals of this alcohol research center were to study the effects of alcohol use on HIV disease progression and the effects of interventions to reduce alcohol use in HIV-infected populations. The center also fosters multidisciplinary collaborations and training in research on alcohol and HIV and dissemination of research findings to clinicians treating addictions and HIV.
 Role: **Co-Investigator**
9. 1 K23 DA031881 Choo (PI) 7/1/11 - 6/30/16
 NIH/NIDA \$834,080
 A Computer-based Intervention for Substance Use and Partner Abuse in the Emergency Department
 The goal of this study is to development and test a novel, computer-based intervention for ED patients with coexisting substance use and partner violence victimization.
 Role: **Co-Mentor**
10. 1 K23 DA031743-01 Becker (PI) 9/1/12 - 8/31/17
 NIH/NIDA \$832,599
 Services Marketing to Disseminate Evidence-Based Therapy for Youth Substance Use
 The goal of this study is to evaluate whether strategies from services marketing, a field of marketing focused on increasing the appeal and quality of professional services, can be used to advance the dissemination of evidence-based psychotherapy for adolescent substance abuse.
 Role: **Co-Mentor**
11. 1 UR1 TI024234 **Squires (PI)** 9/30/12-9/29/17
 DHHS/SAMHSA \$639,259
 Addiction Technology Transfer Center of New England
 The goal of this project is to promote system change and workforce development/enhancement through the infusion of current research findings into clinical practice and educational programming across the six-state New England region.
