EDUCATION:

Colby College, Waterville, Maine
B.A. Psychology, May 1987
Salutatorian, Summa cum Laude, Phi Beta Kappa

University of California, San Diego/San Diego State University
Ph.D. Clinical Psychology, July 1994
Dissertation Topic: Attention and Memory Dysfunction in Post-Rape PTSD
Specializations: Experimental Psychopathology and Neuropsychology

Internship, Clinical Neuropsychology
Bay Pines Veterans Affairs Medical Center, Bay Pines, Florida 1993-1994

Postdoctoral Fellowship, Clinical Neuropsychology
Butler Hospital/Brown University, 1994-1995

PROFESSIONAL LICENSURE: Rhode Island Psychologist #555

EMPLOYMENT:

January 2009 to present: Clinical Neuropsychologist
BRAINWORKS RI, Providence, Rhode Island
Perform clinical neuropsychological evaluations of outpatients, specializing in the assessment of attention and memory disorders associated with developmental and acquired neurologic illness or injury. Provide feedback to referring physicians and other treatment providers. Conduct research pertaining to attention and memory disorders. Supervise psychology trainees and participate in the Clinical Psychology Training Consortium at Brown University. Present clinical and research topics at rounds and case conferences.

September 1995 to December 2008: Clinical Neuropsychologist
Butler Hospital, Providence, Rhode Island
Performed clinical neuropsychological assessments of outpatients, including those with attention deficit and learning disorders, multiple sclerosis, traumatic brain injury, seizure disorders, dementing illnesses, and stroke. Provided feedback to referring physicians and other treatment providers. Participated in a multidisciplinary outpatient Memory Disorders clinic. Conducted research pertaining to attention and memory disorders. Supervised psychology interns and postdoctoral fellows. Taught in the psychiatry residency and geriatric psychiatry fellowship programs. Presented clinical and research topics at rounds and case conferences.

July 1998 to September 2001: Director, Department of Psychology

Eleanor Slater Hospital, Cranston, Rhode Island

Served as director of 15-member Department of Psychology, providing full oversight and management of that department including staff meetings, personnel reviews, budgetary oversight, and compliance with hospital and JCAHO requirements. Oversaw inpatient psychology and medical unit consultation services. Participated in hospital performance improvement committees. Developed and oversaw training program for doctoral students from the University of Rhode Island.

November 1995 to June 1998: Clinical Neuropsychologist

Eleanor Slater Hospital, Cranston, Rhode Island

Performed neurocognitive assessment as well as behavioral interventions for hospitalized patients from subacute medical and long term care units. Services were provided for patients with dementing illnesses, traumatic brain injury, stroke, seizure disorders, psychiatric and substance abuse disorders and other neuropsychiatric conditions. Participated in multidisciplinary treatment planning rounds, rehabilitation conferences, and family meetings.

July 1997 to July 1998: Research Associate

Miriam Hospital, Providence, Rhode Island

Assisted with treatment trial of citicholine for patients with vascular dementia, including data coordination, storage, and analysis. Conducted semi-automated analyses of MRI scans using NIH Image and Medvision software programs. Supervised pre- and postdoctoral research assistants.

July 1996 to July 1997: Research Coordinator

Butler Hospital, Providence, Rhode Island

Managed a three-year follow up study examining white matter disease and cognitive functioning in late life depression. Coordinated subject recruitment, data collection, and data analysis. Performed semi-automated quantification of MRI scans using MedVision and NIH Image systems. Prepared manuscripts for publication, research presentations, and grant submissions.

November 1995 to July 1996: Neuropsychology Associate

The Miriam Hospital, Providence, Rhode Island

Performed neuropsychological assessments with inpatients and outpatients in an acute care hospital. Served as member of the consultation-liaison psychiatry team and multidisciplinary Memory Clinic. Conducted research pertaining to stroke, vascular and Alzheimer's-type dementia, and other neuropsychiatric syndromes in geriatric patients. Supervised psychology interns in research placements, and conducted training seminars for interns, residents and postdoctoral fellows.

September 1994 - October 1995: Postdoctoral Fellow in Geriatric Neuropsychology

Brown University/Butler Hospital, Providence, Rhode Island

Served as member of a multidisciplinary treatment team for the Senior Specialty Program, and participated in treatment and discharge planning, as well as family meetings. Performed neuropsychological evaluation with geropsychiatric inpatients and provided feedback to staff psychiatrists, patients, family members, and community treatment providers including community mental health centers and nursing homes. Conducted research pertaining to frontal lobe functioning, Alzheimer's disease, and vascular dementia. Attended neuroradiology, neuropsychology, neurology and psychiatry rounds. Supervised interns and practicum students.

September 1993 - August 1994: Psychology Intern

V.A. Medical Center; Bay Pines, Florida

Worked as a member of a consultation service in a large, general medical setting. Performed neuropsychological evaluation of patients on Neurology, Physical Medicine and Rehabilitation, and Geriatric Units. Conducted brief psychotherapy, crisis intervention, and behavioral management with inpatients, and longer-term therapy with outpatients. Conducted patient and family education classes on recovery from stroke. Served as member of multidisciplinary treatment team for AIDS patients. Attended

neuropsychology, neurology, psychiatry, and psychology rounds and case conferences. Participated in research on Gulf War Syndrome and cognitive sequelae of atrial fibrillation.

August 1991 - June 1993: Instructor

Department of Psychology, San Diego State University.

Taught Statistics, Research Methods and Personality Theory to undergraduate students. Full responsibility for course instruction, including lecture preparation and presentation, test construction, office-hour consultation for students, and grade assignment. Received commendation for high ratings on student-completed course evaluations.

July 1992 - July, 1993: Practicum Student in Neuropsychological Testing

V.A. Medical Center, San Diego, California.

Performed neuropsychological evaluations and submitted written results for geropsychiatric and neurologic referrals. Patients included those with AIDS, dementia, CVA, head injury, and seizure disorders. Participated in WADA testing of patients with seizure disorders. Attended Neuropsychology and Neurology rounds and case conferences as well as group and individual supervision sessions.

July 1991 - July 1992: Student Clinician

Psychology Clinic, San Diego State University.

Conducted individual and group psychotherapy with students and community members; addressed substance abuse, eating disorders, depression, anxiety, and personality disorders.

July 1991 - December 1992: Testing Specialist

Disabled Students Programs and Services, Mesa College, San Diego, California.

Administered and scored the Wechsler Adult Intelligence Scale-Revised (WAIS-R) for college students who were being evaluated for learning disabilities.

July 1990 - July 1991: Student Clinician

Gifford Mental Health Clinic, San Diego, California.

Individual and group psychotherapy, intake assessment, and team treatment planning for patients with chronic pain, schizophrenia spectrum disorders, personality disorders, PTSD, and mood disorders.

July 1989 - July 1991: Research Associate

Department of Psychiatry, University of California, San Diego.

Assisted with data collection and analysis for large NIMH-funded schizophrenia research program with human and animal laboratory components. Conducted research on exaggerated startle in PTSD; neuropsychological functioning, sensorimotor gating, and habituation measures in schizophrenia; methodological issues in schizophrenia research.

November 1987 - July 1989: Research Assistant

Department of Psychiatry, University of California, San Diego.

Neuropsychological testing of psychiatric inpatients for research and clinical evaluations.

November 1987 - January 1989: Counselor

Job Corps Center, San Diego, California

Counseled teens and young adults on career planning, relationship issues, alcohol and substance use, and cultural issues.

GRANT SUPPORT:

7/1/93 to 7/1/94: Principal Investigator. *Core Symptoms And Physiologic Signs of Post-Rape PTSD*. National Institute of Mental Health - National Research Service Award F31-MH104044-01.

12/31/95 to 12/31/96: Co-Investigator. *Efficacy of pemoline and methylphenidate in Improving Attentional Functioning and Mood in Adults with ADHD*. Abbot Laboratories.

7/96 to 7/97: Principal Investigator: *Subcortical hyperintensities on MRI: A three-year follow up study in geriatric depressed patients*. Geriatric Psychiatry Program, Butler Hospital.

COMMUNITY ACTIVITIES:

1996-2002: Advisory Council Member, Rhode Island Office of Rehabilitative Services.

2003-2004: Volunteer, Johnycake Center Food Pantry

2005-2008: Board of Directors, Narragansett Running Association

2009: Volunteer, Waterfire

OTHER:

Save the Bay 1.7 mile swim finisher, 2007 & 2009

New York Marathon finisher, 2007

Ironman 140.6 finisher, Louisville KY, 2007

Tupper Lake Tinman 70.3 Triathlon finisher, 2006

Mt. Washington Road Race finisher, 2006

Firmman Triathlon 70.3 finisher, 2006, 2005

Clarence DeMar Marathon finisher, 2005

Disney Marathon finisher, 2004
