

CURRICULUM VITAE
Paul E. Morrissey, MD, FACS

Associate Professor of Surgery
Division of Organ Transplantation
Rhode Island Hospital
593 Eddy Street, APC 921
Providence, RI 02903

Phone: (401) 444-5285

Fax: (401) 444-3283

Email: pmorrissey@lifespan.org

EDUCATION

Boston College 1979 - 1983
Chestnut Hill, Massachusetts
Chemistry, Bachelor of Science, 1983
Summa cum laude, Phi Beta Kappa
Alpha Sigma Nu (Jesuit Honor Society)

University of Massachusetts Medical School 1983 - 1988
Worcester, Massachusetts
Doctor of Medicine, 1988

University of Massachusetts Medical School 1986 - 1987
Research Fellowship

POSTGRADUATE TRAINING

Yale-New Haven Hospital, Yale School of Medicine
Chief Resident in Surgery 1993 - 1995
Research Fellow - Transplantation Biology 1991 - 1993
Resident Physician in General Surgery 1988 - 1991

Beth Israel-Deaconess Medical Center, Harvard Medical School
Boston, Massachusetts
Fellow in Organ Transplantation (Liver, Kidney, Pancreas) 1995 - 1997

POSTGRADUATE HONORS AND AWARDS

Outstanding Paper (New Member Prize), New England Surgical Society	2003
Outstanding Physician Award, Nat'l Kidney Foundation of RI and MA	2004
Department of Surgery, Outstanding Teaching Faculty Award	2005
Profile in Competence Teaching Award, Brown Medical School	2006
Thomas Murray Award, RI Organ Donor Awareness Coalition	2006

PROFESSIONAL LICENSES AND BOARD CERTIFICATION

Rhode Island Medical License #09125	1997 – present
American Board of Surgery – Diplomat ABS, Recertification	1996 – 2007 2007 – 2017
ACS – Providence Surgical Society	2005 – present

ACADEMIC APPOINTMENTS

Assistant Professor of Surgery Brown Medical School, Providence, RI	1997 – 2005
Associate Professor of Surgery Brown Medical School, Providence, RI	2005 – present

HOSPITAL APPOINTMENTS

Surgical Director Division of Organ Transplantation Rhode Island Hospital, Providence, RI	2002 - present
Transplant Surgeon Department of Surgery, Transplant and General Surgery Rhode Island Hospital, Providence, RI	1997 - present
Assistant Medical Director New England Organ Bank, Newton, MA	1999 - present
Consultant Providence VA Hospital, Providence, RI	1999 - present

OTHER APPOINTMENTS

Clinical Preceptor, Brown Medical School	1998 – present
Rhode Island Representative, UNOS Kidney-Pancreas Committee United Network of Organ Sharing, Region 1	2001 – present
Editorial Board, <u>Transplantation</u>	1997 – present
Ad hoc Reviewer, <u>American Journal Transplantation</u>	2002 – present
Ad hoc Reviewer, <u>Nature Clinical Practice Nephrology</u>	
Ad hoc Reviewer, <u>Nephron</u>	
Ad hoc Reviewer, <u>Psychology, Health & Medicine</u>	
Ad hoc Reviewer, <u>Clinical Transplantation</u>	
Ad hoc Reviewer, <u>Aging Health</u>	
Reviewer, American Society of Transplant Surgeons (ASTS) Winter Symposium (Abstracts)	2003 – 2006
Reviewer, American Transplant Congress (ATC) Abstract Selection	2008 – present

HOSPITAL COMMITTEES

New England Organ Bank

Medical Oversight Committee	1999 – present
Renal Transplant Oversight Committee, Chairman Chairman	1999 – present 2001 – 2005
Board of Trustees	2001 – present
Executive Committee	2002 – present
Committee for the Protection of Human Subjects (IRB) Rhode Island Hospital	2000 – 2005
Transfusion Committee, Chairman Rhode Island Hospital	2000 – present
Surgical QA Committee, Morbidity and Mortality Rhode Island Hospital	2002 – 2005

UNIVERSITY COMMITTEES

Renal Attending Search Committee Brown Medical School	1999, 2002, 2004, 2007
Transplant Surgeon Search Committee, Chairman Brown Medical School	2000, 2006
Microbiology Director Search Committee Brown Medical School	2002
Urology Chief Search Committee Brown Medical School	2007

MEMBERSHIP IN SOCIETIES

United Network for Organ Sharing (UNOS)	
Organ Procurement Organization Committee, Chicago, IL	2002 – 2005
OPO Committee, Chair	2004 – 2005
OPO Committee	2005 – 2006
Membership & Professional Standards	2007 – 2009
Associate Counselor – Region 1 (New England)	2007 – 2009
American Society of Transplant Surgeons (ASTS)	2001 – present
Vanguard Committee	2001 – 2005
American Society of Transplantation	2001 – present
New England Surgical Society	2002 – present
Rhode Island State Representative	2004 – 2006
American College of Surgeons (FACS)	2004 – present

ORIGINAL PUBLICATIONS IN PEER-REVIEWED JOURNALS

1. Clarke MJ, Morrissey PE. Nucleoside oxidation and hydrolysis induced by a coordinated metal ion: xanthine oxidase activity in a simple metallonucleoside complex. **Inorganica Chim Acta** **80**: L69-70, 1983.
2. Fink MP, Morrissey PE, Stein KL, Clement RE, Fiallo V and Gardiner WM. Systemic and regional hemodynamic effects of cyclo-oxygenase and thromboxane synthetase inhibition in normal and endotoxemic rabbits. **Circulatory Shock** **26**: 41-57, 1988.

3. Morrissey PE and Marks WH. Biochemical detection of rejection occurring in cardiac allografts by serum heart fatty acid binding protein (H-FABP). **Surg Forum** 100: 451-453, 1993.
4. Morrissey PE, Gollin G, Brusett K and Marks WH. Prolongation of allograft survival in rat heterotopic heart transplantation by TLCK, a serine protease inhibitor. **Transplantation** 57: 631-643, 1994.
5. Morrissey PE, Lorber KM, Marcarelli M, Bia MJ, Kliger AS, Lorber MI. Posttransplant Epstein-Barr virus infection is associated with elevated levels of CD19+ B-lymphocytes. **Transplantation** 59: 637-640, 1995.
6. Morrissey PE, Lorber KM, Marcarelli M, Bia MJ, Kliger AS, Lorber MI. Immunologic monitoring after organ transplantation: Relationship between Epstein-Barr virus infection and CD19+ B cells measured by flow cytometry. **Transplant Proc** 27: 1428-1430, 1995.
7. Morrissey PE, Burns G and Cohn S. Sump syndrome complicating Roux-en-Y hepaticojejunostomy. **Surgery** 119: 403-405, 1996.
8. Morrissey PE, Gollin G, Marks WH. Small bowel allograft rejection detected by serum intestinal fatty acid binding protein (I-FABP) is reversible. **Transplantation** 61: 1451-1453, 1996.
9. Morrissey PE, Gohh R, Shaffer D, Crosson A, Madras PN, Sahyoun A and Monaco AP. Correlation of clinical outcomes after tacrolimus conversion for resistant kidney rejection or cyclosporine toxicity with pathologic staging by the Banff criteria. **Transplantation** 63: 845-848, 1997.
10. Morrissey PE, Shaffer D, Madras PN, Sahyoun AI and Monaco AP. Progression of peripheral vascular disease after combined kidney-pancreas transplantation in diabetic patients with end-stage renal failure. **Transplant Proc** 29: 662-3, 1997.
11. Morrissey PE, Shaffer D, Monaco AP, Conway P and Madras PN. Peripheral vascular complications after kidney-pancreas transplantation versus kidney transplant alone in diabetics with ESRD. **Arch Surg** 132: 358-362, 1997.

39. (L) Role of organ donation in end-of-life care. Rhode Island Hospital Rounds. Dushay K, Barile-Lyons K, Richard K, Morrissey PE, November 2007.
40. (R) Kidney Exchanges: Innovations in Living Donation in UNOS Region 1. New York Academy of Medicine, NY, NY, December 2007.
41. (R) Encouraging Medical and Psychosocial Compliance of the Transplant Candidate and Recipient. UNOS Region 1 Collaborative Conference, Worcester, MA, November 2008.

GRANTS

1. "A multi-center, randomized open label trial of Simulect with rapid steroid withdrawal vs. Simulect with standard steroid treatment in subjects treated with Neoral and Cellcept for the prevention of acute rejection in renal transplantation." Novartis Pharmaceuticals, \$30,000, 1998, Co-investigator.
2. "An open-label, multicenter study to further characterize the clinical utility and safety of Rapamune and cyclosporine combination treatment in de novo renal allograft recipients." Wyeth-Ayerst Laboratories, \$144,875, 1999, Co-investigator.
3. "Pilot study to induce donor specific unresponsiveness with donor peripheral blood mobilized bone marrow stem cells (PBSCs) in recipients of living donor, mismatched renal allografts treated with Thymoglobulin and standard cyclosporine based immunosuppression." Sangstat Pharmaceutical Corporation, \$22,500, 1999, Co-investigator.
4. "A comparative, open-label study to evaluate graft function in de novo renal allograft recipients treated with either a "reduced dose" or a "standard dose" of cyclosporine in combination with Rapamune (sirolimus) and corticosteroids." Wyeth-Ayerst Laboratories, \$81,400, 2000, Co-investigator.
5. "Simulect induction followed by overall reduction in immunosuppression exposure after renal transplantation (SIRE)." Investigator Originated Study with Novartis Pharmaceuticals, \$18,750, 2001, Principle Investigator.
6. "Registry of Simulect Use in Living Donor Renal Transplants (ReSULTs)." Novartis Pharmaceuticals Corporation, \$12,000, 2001, Principle Investigator.
7. "A 1 year multicenter, randomized study of safety, tolerability and efficacy of two doses of Certican (RAD001) with steroids and optimized administration of Neoral in de novo renal transplant recipients." Novartis Pharmaceuticals, \$95,952, 2002, Principle Investigator.
8. "A Prospective, Randomized, Multicenter double blind Study of Early Corticosteroid Cessation versus long-term Maintenance Corticosteroid Therapy with Prograf, and Cellcept in Primary Renal Transplant Recipients", Fujisawa, \$170,000, 2002, Principle Investigator.
9. "The impact of an expedited allocation system and pulsatile preservation upon the transplantation of kidneys (ECD). New England Organ Bank, \$10,000, 2003, Principle Investigator.
10. "Long-term suppressive Valcyte therapy in transplant patients and the development of ganciclovir resistant CMV." Roche Pharmaceutical Corporation, \$31,200, 2003, Principle Investigator.
11. "Thymoglobulin Antibody Immunosuppression in Living Donor Recipients Patient Registry (TAILOR)." Sangstat, 2003, Principle Investigator.
12. "Randomized trial to evaluate the safety and efficacy of two doses of FTY720 combined with Neoral versus Neoral + MMF in de novo adult renal transplant recipients." Novartis, 2003, Co-investigator.
13. "Optimizing Prograf[®] Therapy in Maintenance Allografts." Fujisawa, \$37,950, 2003, Principle Investigator.
14. "One-year outcomes following live donor nephrectomy in high-risk donors." Institutional Funds, \$1000, 2007.
15. "Delayed graft function after kidney transplantation." Institutional, \$1000, 2007.

UNIVERSITY TEACHING ROLES

1. Bio-ethics Course, Professor Ladd, PhD and Ed Foreman, MD. “Ethical issues in transplantation and organ donation.” April 2001.
2. Immunology (MMI), Professor Atwood. “Survival after renal transplantation from donors after cardiac death.” February 2002.
3. Immunology (MMI), Professor Andrew Campbell. “Lack of tolerance following hand transplantation.” March 2003.
4. Bio-ethics Course, Professor Ladd, PhD and Ed Foreman, MD. “Ethical issues in transplantation and organ donation.” April 2003.
5. Biomedical Engineering (BIO108), Professor Lysaght. “Challenges and future solutions in transplantation.” April 2003.
6. Biomedical Engineering (BIO108), Professor Lysaght. “Current research to address the shortage of solid organs for transplantation.” April 2004, April 2006, March 2008.
7. Bio-Pharmacology (BIO350), Professor Wayne Bowen. “Immunopharmacology of organ transplantation.” December 2004-2007.
8. Brown Clerkship in Community Medicine (Transplantation), M. Mello and E. Feller, Directors. April – December 2007.

Clinical Rotation in Transplantation

Attending Morning Rounds (daily)

(Renal fellows, surgical residents, URI Pharmacy students)

Weekly Journal Club

Weekly Team Meeting

Outpatient clinic – Surgery Resident (weekly), Medical students (by request)

Department of Surgery Medical Student Lectures (Quarterly)

Transplantation (1998 – 2002)

Ethical Issues in Transplantation (2001, 2002)

Rhode Island Hospital Residency and Fellowship Lectures (Yearly)

Transplantation Immunology

Vascular Access

Urologic Issues in Renal Transplantation

Clinical Longitudinal Rotations (Weekly July - March)

Pedro Ramirez, MS IV

Michael Passero, MS IV

Jonathan Grossberg, MS II, III

James Carroll, MS IV

Student Clerkships

Vernon Cannon, MS II, UMDNJ (Summer 1999)

Michael Awad, MS IV (Subinternship in Transplantation)

Jon Greer, MS IV (Subinternship)

Jeffery Wootton, Senior, Brown University. Advisor, Senior Honors Thesis (BI/0196)
Joslynn Jordan, PhD Candidate (Signaling Events Controlling BKV Tropism), PhD
Committee, Laboratory of Walter Atwood, PHD, Brown University.

Miscellaneous

“The Process of Transplantation: A Doctor’s and Patient’s View”, BMS II Seminar - 2001
“A Career in Surgery”, Luncheon session with BMS I and II – 2004, 2007
“Physician-Patient Relationship”, BMS II Seminar, 2007.

HOSPITAL TEACHING ROLES

1. Transplantation Daily Rounds, Rhode Island Hospital, Transplant Service, since 1997.
Daily 8:45 – 9:15 AM
Daily 4:00 PM (walk-rounds)
2. Clinical Nephrology Lecture Series, Rhode Island Hospital, Lecturer – Transplantation and Vascular Access Surgery, since 1998.
3. Urology Teaching Conference, Rhode Island Hospital, Lecturer – Renal Transplantation and Renovascular Hypertension, since 2000.
4. Basic Science Core Lectureship in General Surgery, Lecturer - Transplantation Immunology, 1998 -2003.
5. Brown Medical School Curriculum in General Surgery, Lecturer – Clinical Transplantation, 1998 -2002.
6. Community Health Preceptorship (Transplantation) – 2006, 2007, 2008.
