## GRANTS

1. Co-Investigator  
**“Identifying subtypes of maritally violent men”**  
Principal Investigator: Amy Holtzworth-Munroe, Ph.D.  
Agency: National Institute of Mental Health  
Type: R01 (R01MH5935)  
Period: May 31, 1996 - April 30, 2000.  
Total Direct Costs = \$400,000 (approximate)  
Project validated a typology of maritally violent men and examined whether these subtypes of violent men were stable longitudinally.
  
2. Principal Investigator  
**“Impact of substance abuse treatment on marital violence”**  
Agency: National Institute on Alcohol Abuse and Alcoholism  
Type: K23 (1K23AA13231)  
Period: September 30, 2000 - August 31, 2005.  
Total Direct Costs = \$563,384  
Project assesses the impact of substance abuse treatment for alcohol dependent patients on intimate partner violence, psychological abuse, relationship discord, and other domains of relationship functioning. This research, near completion, has demonstrated that intimate partner violence perpetration and victimization is overrepresented in populations of individuals in treatment for substance abuse. Results show that, in both male and female patients and their relationship partners, intimate partner violence and psychological abuse perpetration and victimization decline significantly subsequent to treatment for alcohol abuse and dependence. Similarly, functioning in other relationship domains improves significantly after alcohol treatment. In both genders, the prevalence and frequency of intimate partner violence and psychological abuse are significantly higher among relapsed alcoholics relative to remitted alcoholics one year following alcohol treatment.
  
3. Co-Investigator  
**“Applying exercise intervention to drug treatment”**  
Principal Investigator: Richard Brown, Ph.D.  
Agency: National Institute on Drug Abuse  
Type: R01 (1R01DA14599)  
Period: September 30, 2001 – August 31, 2005  
Total Direct Costs = \$600,000  
Study designed to improve treatment options for drug dependant patients by developing and establishing the efficacy of a supervised aerobic exercise intervention.
  
4. Co-Investigator  
**“Development of an exercise intervention for alcoholics”**  
Principal Investigator: Richard Brown, Ph.D.  
Agency: National Institute on Alcohol Abuse and Alcoholism  
Type: R01 (1R01AA13418)

Period: December 1, 2001 – November 30, 2005

Total Direct Costs = \$450,000

Preliminary randomized clinical trial examining the efficacy of a supervised aerobic exercise intervention in the treatment of alcohol abuse or dependence.

5. Principal Investigator

**“Brief intervention to reduce drinking among batterers”**

Agency: National Institute on Alcohol Abuse and Alcoholism

Type: R01 (1R01AA014193)

Period: July 1, 2003 - June 30, 2008.

Total Direct Costs = \$1,250,000

The goal of this project is to examine whether, relative to standard care, violence and alcohol use outcomes can be improved by a brief, motivationally based adjunct alcohol treatment for men enrolled in batterer intervention programs.

6. Consultant

**“Reducing HIV Risk Among Pregnant Women in Drug Treatment”**

Agency: National Institute on Drug Abuse

Type: R01 (1R01DA020930)

Period: September 1, 2005 – August 31, 2009.

Total Direct Costs = \$1,000,000

The aim of this project is to develop and pilot test an intervention that addresses both sex- and drug-related HIV risk behavior among pregnant women in drug treatment.

**GRANTS PENDING**

1. Principal Investigator

**“Brief alcohol intervention for violent women”**

Agency: National Institute on Alcohol Abuse and Alcoholism

Type: R01 (1R01AA014392)

Period: December 1, 2006 – November 30, 2010.

Total Direct Costs = \$975,000

The goal of this project is first to develop and pilot test a brief motivationally focused alcohol intervention for women arrested and court-referred to violence intervention programs. Subsequently the project will examine whether, relative to standard care, violence perpetration, violence victimization, and alcohol use outcomes can be improved in a sample of women receiving the brief alcohol treatment.

2. Co-Principal Investigator

**“Temporal link between substance use and partner violence”**

Agency: National Institute on Drug Abuse

Type: R01 (1R01DA018721)

Total Direct Costs = \$1,262,791

The goal of this project is to examine the extent to which the odds of male-to-female partner violence are greater on days men use drugs compared to days they abstain from drug use among men enrolled in batterer intervention groups.

3. Principal Investigator  
**“Brief intervention to reduce drinking and intimate partner violence in women”**  
 Agency: National Institute on Alcohol Abuse and Alcoholism  
 Type: R01 (1R01AA016315)  
 Period: April 1, 2007 – March 31, 2012.  
 Total Direct Costs = \$1,712,695  
 The goal of this randomized clinical trial is to examine whether, relative to standard care, violence perpetration, violence victimization, and alcohol use outcomes can be improved in a sample of arrested women receiving a brief alcohol treatment.
  
4. Co-Mentor  
**“Risk Factors for Intimate Partner Violence in Pregnant Women”**  
 Agency: National Institute on Alcohol Abuse and Alcoholism  
 Type: Ruth L. Kirschstein National Research Service Award (NRSA)  
 Period: September 1, 2006 – June 30, 2009.  
 The goal of this project is to examine potential risk factors for intimate partner violence in pregnancy, such as alcohol use, stress, infidelity, jealousy, and relationship discord, from both a cross-sectional and longitudinal perspective.
  
5. Co-Investigator  
**"Effect of Alcohol on Violent and Nonviolent Couples' Prisoner's Dilemma performance"**  
 Agency: National Institute on Alcohol Abuse and Alcoholism  
 Type: R21 (1R21AA016637-01)  
 Period: December 1, 2006 - November 30, 2008  
 Direct Costs: \$275,000  
 This experimental study will assess whether alcohol consumption leads to more selfish and retaliatory play in violent than non-violent couples on an iterated Prisoner's Dilemma task. Couples will be led to believe they are playing each other, when in fact they are playing a computer programmed to be alternately cooperative and provocative.
