
CURRICULUM VITAE

Eric B. Loucks, Ph.D.

**Associate Professor
Brown University**

1. SUMMARY

Office Address: Department of Epidemiology
Brown University School of Public Health
121 South Main Street, 2nd Floor, Box G-S121-2
Providence, RI, USA, 02912
Tel: 401-863-6283
Email: eric.loucks@brown.edu

Date of Last CV Revision: January 11, 2019

2. EDUCATION

2002-2006	Post-Doctoral Fellowship	Dept. of Society, Human Development & Health	Harvard School of Public Health, Boston, MA, USA
2002	Post-Doctoral Fellowship	Institute of Health Promotion Research	University of British Columbia, Vancouver, Canada
2002	Ph.D.	Dept. of Pharmacology & Therapeutics	University of British Columbia, Vancouver, Canada
1995	B.Sc. (Honors)	Dept. of Physiology	University of British Columbia, Vancouver, Canada

3. PROFESSIONAL APPOINTMENTS

2017-	Associate Professor (with tenure)	Brown University School of Public Health, Department of Epidemiology
2017-	Associate Professor (with tenure)	Brown University School of Public Health, Department of Behavioral and Social Sciences
2017-	Associate Professor (with tenure)	The Warren Alpert Medical School of Brown University, Department of Medicine
2017-	Director	Mindfulness Center at Brown University
2016-	Graduate Program Director	Brown University School of Public Health, Department of Epidemiology
2009-2017	Assistant Professor	Brown University School of Public Health, Department of Epidemiology
2014-	Member	Brown University, Contemplative Studies Concentration Faculty
2012-2015	Epidemiologist & Evaluator	Division of Community, Family Health & Equity, Rhode Island Department of Health
2009-2010	Adjunct Professor	McGill University, Department of Epidemiology, Biostatistics and Occupational Health
2006-2008	Assistant Professor	McGill University, Department of Epidemiology, Biostatistics and Occupational Health
2006-2008	Assistant Professor	McGill University, Department of Psychiatry

4. COMPLETED PUBLICATIONS

4.1. Refereed Journal Articles (mentored students are underlined; in epidemiology, first author typically represents the scientist leading the analytic approach and manuscript writing; last author typically indicates senior author, as often the mentor or supporter of the research program)

1. **Loucks EB**, Symersky P, Qayumi AK. Platelet activating factor (PAF) antagonism: A new concept in the management of regional myocardial ischemia-reperfusion injury. *J Invest Surgery*. 1997; 10(6): 321-338. PMID: 9654389.
2. **Loucks EB**. The role of anesthesia in the advancement of surgical technique. *J Invest Surg*. 1997; 10(3): 3-4. PMID: 9219080.
3. Qayumi AK, English JC, Godin DV, Ansley DM, **Loucks EB**, Lee JU, Kim CW. The role of platelet activating factor in the pathophysiology of regional myocardial ischemia-reperfusion injury. *Ann Thorac Surg*. 1998. 65: 1690-1697. PMID: 9647083.
4. **Loucks EB**. The origin and future of transplantation surgery. *J Invest Surg*. 1998; 11(2): iii-iv. PMID: 9700615.
5. **Loucks EB**, Qayumi AK, English JC, Al Mahmeed T, Lim SP, Horley KJ, Gul S. Therapeutic potential of PAF antagonist in the management of myocardial infarction. *Can J Cardiol*. 2000; 16(4): 497-504. PMID: 10787465.
6. **Loucks EB**, Spiegel JM, Barcelo C, Yassi A, Aldama A, Dunn JR, Tate R, Seccombe D, McLean D, Guzman Pineiro R, Eugenia Triana M. Using biomarkers for measurement of the health effects of housing conditions: practical guidelines. *Conference Proceedings of the 5th PAHO Inter-American Health and Housing Conference*. May 2002.
7. **Loucks EB**, Godin DV, Walley KR, McManus B, Rahimian R, Granville D, Hong JM, Aktary FM, Qayumi AK. Role of platelet activating factor in cardiac dysfunction, apoptosis and nitric oxide synthase mRNA expression in the ischemic-reperfused rabbit heart. *Can J Cardiol*. 2003; 19(3): 267-274. PMID: 12677282.
8. Barceló Pérez C, Guzmán Piñeiro R, **Loucks EB**, Spiegel J, Plá Rodríguez E. Vivienda y salud en residentes de Centro Habana. Parte I, Ambiente Físico. *Rev Cubana de Hig Epidemiol*. 2003; 41(2-3).
9. Spiegel J, Barcelo C, **Loucks EB**, Bonet M, Aldama A, Yassi A. What the Cuban context provides health researchers: the feasibility of a longitudinal multi-method study of the impact of housing improvements on health in Havana, Cuba. *J Public Health*. 2004; 26(1): 95-100. PMID: 15044583.
10. **Loucks EB**, Aldama A, Maria Ibarra A, Barcelo Perez C, Guzman Pineiro R, Tate B, Spiegel J. Vivienda y salud en residents de Centro Habana. Parte II. Condiciones de vida y salud. *Rev Cubana de Hig Epidemiol*. 2004; 42(1).
11. **Loucks EB**, Berkman LF, Gruenewald TF, Seeman TE. Social integration is associated with fibrinogen concentration in elderly men. *Psychosom Med*. 2005; 67: 353-358. PMID: 15911896.
12. Ford ES, **Loucks EB**, Berkman LF. Social isolation and concentrations of C-reactive protein among US adults. *Ann Epidemiol*. 2006;16:78–84. PMID: 16271297.
13. **Loucks EB**, Sullivan LM, D'Agostino RB, Larson MG, Berkman LF, Benjamin EJ. Social networks and inflammatory markers in the Framingham Heart Study. *J Biosoc Sci*. 2006; Jan 27:1-8. PMID: 16441967.
14. **Loucks EB**, Berkman LF, Gruenewald TL, Seeman T. Relation of Social Integration to Inflammatory Marker Concentrations in Men and Women 70-79 Years. *Am J Cardiol*. 2006; 97(7):1010-6. PMID: 16563907.
15. **Loucks EB**, Sullivan LM, Hayes LJ, D'Agostino RB, Sr., Larson MG, Vasani RS, Benjamin EJ, Berkman LF. Association of educational level with inflammatory markers in the Framingham Offspring Study. *Am J Epidemiol*. 2006; 163(7):622-8. PMID: 16421236.

16. **Loucks EB**, Rehkopf DH, Thurston RC, Kawachi I. Socioeconomic Disparities in the Metabolic Syndrome Differ by Gender: Evidence from NHANES III. *Ann Epidemiol*. 2007; 17(1):19-26. PMID: 17140811.
17. **Loucks EB**, Magnusson KT, Cook S, Rehkopf DH, Ford ES, Berkman LF. Socioeconomic position and the metabolic syndrome in early, middle and late life: Evidence from NHANES 1999-2002. *Ann Epidemiol*. 2007; 17(10): 782-790. PMID: 17697786.
18. Gilman SE, Martin LT, Abrams DB, Kawachi I, Kubzansky L, **Loucks EB**, Rende R, Rudd R, Buka SL. Educational attainment and cigarette smoking: a causal association? *Int J Epidemiol*. 2008; 37: 615-624. PMID: 18180240.
19. **Loucks EB**, Juster RB, Pruessner JC. Neuroendocrine biomarkers, allostatic load, and the challenge of measurement: A commentary on Gersten. *Soc Sci Med*. 2008; 66:525-530.
20. **Loucks EB**, Lynch JW, Pilote L, Fuhrer R, Almeida ND, Richard H, Agha G, Murabito JM, Benjamin EJ. Life course socioeconomic position and incidence of coronary heart disease: Framingham Heart Study. *Am J Epidemiol*. 2009; 169 (7): 829-836. PMCID: PMC2727217.
21. Senese LC, Almeida ND, Kittler Fath A, Smith BT, **Loucks EB**. Associations between childhood socioeconomic position and adulthood obesity. *Epidemiol Rev*. 2009; 31: 21-51 PMCID: PMC2873329.
22. Bacon SL, Bouchard A, **Loucks EB**, Lavoie KL. Individual-level socioeconomic status is associated with worse asthma morbidity in patients with asthma. *Respir Res*. 2009; 17(10): 125. PMCID: PMC2806364.
23. Almeida ND, **Loucks EB**, Kubzansky L, Pruessner J, Maselko J, Meaney MJ, Buka SL. Quality of parental emotional care and calculated risk for coronary heart disease. *Psychosom Med*. 2010; 72: 148-155. PMCID: PMC2837946.
24. **Loucks EB**, Pilote L, Lynch JW, Richard H, Almeida ND, Benjamin EJ, Murabito JM. Life course socioeconomic position is associated with inflammatory markers: The Framingham Offspring Study. *Soc Sci Med*. 2010; 71(1):187-95. PMCID: PMC2895737
25. Martin LT, Schonlau M, Haas A, Derose KP, Rudd R, **Loucks EB**, Rosenfeld L, Buka SL. Literacy skills and calculated 10-year risk of coronary heart disease. *J Gen Intern Med*. 2011; 26(1): 45-50. PMID: 20809155.
26. Liu SY, Buka SL, Linkletter CD, Kawachi I, Kubzansky L, **Loucks EB**. The association between blood pressure and years of schooling versus educational credentials: Test of the sheepskin effect. *Ann Epidemiol*. 2011; 21(2):128-38. PMID: 21184953.
27. Smith BT, Lynch JW, Fox CS, Harper SB, Abrahamowicz M, Almeida ND, **Loucks EB**. Life course socioeconomic position and type 2 diabetes: The Framingham Offspring Study. *Am J Epidemiol*. 2011; 173(4): 438–447. PMID: 21242301.
28. **Loucks EB**, Abrahamowicz M, Xiao Y, Lynch JW. Associations of education with 30 year life course blood pressure trajectories: Framingham Offspring Study. *BMC Public Health*. 2011; 11(1):139. PMCID: PMC3053249. *Dr. Loucks received the 2011 BioMed Central Public Health Research Award for this article, voted as the most ground-breaking public health research article published in all BioMed Central journals for 2011.*
29. Appleton AA, Buka SL, McCormick MC, Koenen KC, **Loucks EB**, Gilman SE, Kubzansky LD. Emotional functioning at age 7 years is associated with C-reactive protein in middle adulthood. *Psychosom Med*. 2011; 73(4): 295-303. PMID: 21536835.
30. Aslibekyan SH, Campos H, **Loucks EB**, Linkletter C, Ordovas J, Baylin A. Derivation and validation of a new cardiovascular risk score in the Costa Rica Study. *J Nutrition*. 2011; 141(7):1375-1380. PMID: 21562240.
31. **Loucks EB**, Almeida ND, Taylor SE, Matthews KA. Family psychosocial environment and coronary heart disease risk: the CARDIA study. *Psychosom Med*. 2011; 73(7): 563-571. PMID: 21810898. PMCID: PMC4017861
32. Agha G, Murabito JM, Lynch JW, Abrahamowicz M, Harper SB, **Loucks EB**. Cumulative life course socioeconomic position and ankle-brachial index. *Am J Cardiol*. 2011; 108(11): 1651-1657. PMID: 21907950.

33. Liu T, Gatsonis CA, Baylin A, Kubzansky LD, **Loucks EB**, Buka SL. A prospective study of prenatal exposure to cigarette smoke and anger proneness. *J Psychiatric Res.* 2011; 45(12): 1648-1654. PMID: 21890149.
34. Aslibekyan S, Jensen MK, Campos H, Linkletter CD, **Loucks EB**, Ordovas JM, Deka R, Rimm EB, Baylin A. Fatty acid elongase gene variants are not associated with serum blood lipids, inflammation, or the risk of nonfatal myocardial infarction. *Eur J Clin Nutr.* 2012; 66(3): 353-359. PMID: 22293571.
35. Liu SY, Linkletter CD, **Loucks EB**, Glymour MM, Buka SL. Decreased births among black female adolescents following school desegregation. *Soc Sci Med.* 2012. 22(3): 183-190. PMID: 22365940.
36. Everage NJ, Gjelsvik A, McGarvey ST, Linkletter CD, **Loucks EB**. Inverse associations between perceived racism and coronary artery calcification. *Ann Epidemiol.* 2012; 22(3): 183-190. PMID: 22365645.
37. Gilman SE and **Loucks EB**. Does the childhood environment influence the association between every X and every Y in adulthood? *Am J Epidemiol.* 2012; 176(8): 684-688. PMID: 23024136.
38. **Loucks EB**, Buka SL, Rogers ML, Liu T, Kawachi I, Kubzansky LD, Martin LT, Gilman SE. Education and coronary heart disease risk associations may be affected by early life common prior causes: a propensity matching analysis. *Ann Epidemiol.* 2012; 22(4): 221-232. PMID: 22463841.
39. Appleton AA, Buka SL, McCormick MC, Koenen KC, **Loucks EB**, Kubzansky LD. The association between childhood emotional functioning and adulthood inflammation is modified by early life socioeconomic status. *Health Psychol.* 2012. 31(4): 413-422. PMID: 22329424.

5. RESEARCH

5.1. Current Grants

1UH3AT009145-01 Loucks, Britton, King (PIs; contact PI: Loucks) 09/1/18-08/31/20
NIH/NCCIH

Mindfulness Influences on Self-Regulation: Mental and Physical Health Implications

This study aims to (1) analyze several existing datasets to evaluate what specific elements of mindfulness interventions are most effective at influencing self-regulation, and if those changes in self-regulation translate into clinically meaningful health behavior changes, such as improved medical regimen adherence, and (2) test the ability of customized mindfulness interventions to alter self-regulation and medical regimen adherence in four ongoing randomized controlled trials.

Role: Principal Investigator

5R01AT008393-02 Pbert, Carmody, Kerr (PIs) 09/01/14-08/31/19
NIH/NCCIH

Asthma Symptom Management Through Mindfulness Training

The primary aim of the proposed randomized controlled trial is to test Mindfulness-Based Stress Reduction against an active control on the key clinical outcomes of asthma control and symptoms using gold standard measures with 256 adults with mild, moderate or severe asthma. Secondary aims evaluate the program's effect on asthma quality of life, lung function, cost-effectiveness, and the mediating effect of respiratory interoceptive accuracy on asthma control, quality of life, and medication use.

Role: Mindfulness-Based Stress Reduction Instructor

1R34AT008948-01A1 Hecht (PI)
NIH/NCCIH

08/01/16-07/31/19

Predictors of Outcomes in MBSR Participants from Teacher Factors

Mindfulness-based interventions are effective in a variety of conditions, including chronic pain, substance use disorders, anxiety and depression. These interventions are thought to depend on teacher skill, but we don't have established approaches to assess teacher skill, nor do we have a good idea of which skills really matter. This project will advance our understanding of how to measure teacher skills and potentially add a critical tool for future research on mindfulness-based interventions.
Role: Independent Monitor

Brown University School of Public, Loucks (PI)

11/1/16-10/31/18

Development and Evaluation of Mindfulness-Based Cardiac Rehabilitation on Outcomes and Molecular Markers of Successful Cardiac Rehabilitation.

Primary aims are to evaluate the impact of Mindfulness-Based Cardiac Rehab (MB-Cardiac Rehab) vs. standard of care on: (1) Metabolic Equivalent of Tasks (METs) during exercise stress test, which is an established primary outcome used to evaluate success of cardiac rehabilitation on cardiovascular and functional status during graded increases in physical exertion; (2) Molecular markers of successful cardiac rehabilitation including lipids, glucose regulation, inflammatory markers, and oxidative stress. Furthermore, this project will establish a biobank of tissue to be leveraged through collaborative efforts for molecular assays.

Role: Principal Investigator

Brown University Office of the Vice-President of Research, Loucks (PI)

7/1/17-6/30/19

Brown Mindfulness Center: Research, Methods, and Service

This project delineates a strategic plan for launching the Brown Mindfulness Center over the next two years, while longer term sustainability is aimed to be established through donors and grants. A Brown Mindfulness Center, with a focus on "Research, Methods, and Service" would address important needs world-wide for methodologically rigorous research on positive and negative effects of mindfulness-based interventions, and disseminate this knowledge to the greater community. Funding is directed to mindfulness pilot research studies and strategic meetings to foster research collaborations.

Role: Principal Investigator, Director

Brown University of the Provost, Loucks (PI)

7/1/17-6/30/20

Mindfulness-Based College Randomized Controlled Trial

This grant provides support to implement a randomized controlled trial to evaluate impacts of a mindfulness-based intervention customized to emerging adults to foster health and performance, called Mindfulness-Based College.

Role: Principal Investigator

1R01HL135200-01A1 (Dulin-Keita, Howe)

8/23/2018-7/31/2021

NHLBI/NIH

Impact of Multilevel Risk and Resilience Factors on Cardiovascular Health in Racially/Ethnically Diverse Men and Women

This project will: (a) determine whether multilevel resilience resources are associated with cardiovascular (CV) outcomes (i.e., ideal CV health and incident CV disease); (b) quantify the impacts of hypothetical multilevel resilience resource building interventions on racial/ethnic disparities and sex differences in CV outcomes; and (c) examine the degree to which the aforementioned relationships/impacts are moderated by multilevel psychosocial risks. This work will be conducted using longitudinal data on racially/ethnically diverse men and women enrolled in three United States-based CV health cohorts (i.e., JHS, MESA, MASALA) that will be harmonized to create an integrated dataset. This project responds to the calls of NIH, OBSSR, NHLBI, and AHA to conduct studies to fill critical gaps in psychosocial risk, resilience, and CV outcomes research.

5.2. Completed Grants (since 2003)

- 1R01AG023397 Buka (PI) 10/01/03-09/30/07
 NIH/NIA \$309,401
 Pathways linking education and health in middle adulthood.
 This study aims to identify pathways (including physiological, behavioral, psychological and health literacy) that may link education to health outcomes.
 Role: Physiologist
- MOP-81239 Loucks (PI) 10/01/06-09/30/09
 Canadian Institutes of Health Research \$47,330
 Elucidating gender-specific associations between life course socioeconomic position (SEP) and longitudinal trajectories of cardiovascular disease risk factors.
 This study aims to determine whether life course SEP is associated with classic and novel CVD risk factors, and whether life course SEP predicts gender-specific longitudinal trajectories of sub-clinical CVD risk factors.
 Role: PI (2006-2008), Collaborator (2009, due to moving to United States)
- MOP-89950 Loucks (PI) 10/01/08-09/30/11 (declined funding after
 12/31/08, due to moving to United States)
 Canadian Institutes of Health Research \$62,622
 Life Course Socioeconomic Position, Type II Diabetes, and Obesity: Potential Interactions with Genetic Polymorphisms.
 This study aims to evaluate whether the FTO gene alters the strength of association between socioeconomic position (SEP) and obesity, whether childhood and adulthood SEP predict type II diabetes (T2D), and whether the TCF7L2 gene affects the strength of association between SEP and incident T2D. Other genes predictive of T2D will also be investigated, including KCNJ11 and PPARG.
 Role: PI
- Establishment Grant. Loucks (PI) 10/01/07-09/30/10 (declined funding after
 12/31/08, due to moving to United States)
 \$15,000
 Fonds de la Recherche en Santé Québec (FRSQ)
 Elucidating gender-specific associations between life course socioeconomic position (SEP) and longitudinal trajectories of cardiovascular disease risk factors.
 The major goal of this grant is to provide funds to facilitate new investigators to establish their research activities in Quebec, Canada.
 Role: PI
- Operating Grant. Pilote (PI) 10/01/08-09/30/09
 Canadian Institutes of Health Research \$100,000
 GENESIS PRAXY (GENdEr and Sex Determinants of Cardiovascular Disease: From Bench to Beyond Premature Acute Coronary Syndrome).
 This study aims to begin a large prospective cohort study in Canada to comprehensively address sex differences in prognostic, health services utilization, and diagnostic aspects of premature ACS.
 Role: Co-Investigator
- Type: Operating Grant. Paradis, Seguin (PI) 10/01/06-09/30/11
 Canadian Institutes of Health Research \$276,039
 Longitudinal analysis of the Quebec birth cohort: Pathways between early childhood poverty, stress, child health, cardiovascular risk factors, associated secular trends, and resiliency.

This project aims to elucidate mechanisms by which poverty may influence cardiovascular risk factors in young adults.

Role: Co-Investigator

Type: Operating Grant. Louise Pilote (PI) 10/01/08-09/30/11
Heart and Stroke Foundation \$310,031

GENESIS PRAXY (GENdEr and Sex Determinants of Cardiovascular Disease: From Bench to Beyond Premature Acute Coronary Syndrome).

This study aims to begin a large prospective cohort study in Canada to comprehensively address sex differences in prognostic, health services utilization, and diagnostic aspects of premature ACS.

Role: Co-Investigator

RC2AG036666-01 Loucks, Buka, Eaton (PIs; contact PI: Loucks) 9/30/09-8/31/12
NIH/NIA \$628,782

The New England Family Study: Fifty Year Post-Perinatal Follow-up for Life Course Effects on Aging
This project will assess aging processes in 500 of the Collaborative Perinatal Project (CPP) participants born in 1959-1966 to explore how conditions during pregnancy and early life may impact epigenetic alterations and aging processes that could subsequently manifest in midlife as atherosclerosis, type 2 diabetes, adiposity and cognitive decline.

Role: PI

Type: Operating grant. Levitan (PI) 04/01/09-03/30/14
Canadian Institutes of Health Research \$156,078

A Longitudinal Study of Food Reward and Obesity in Young Children: The Role of Gene-Environment Interaction.

This project aims to determine genetic and environmental influences on eating behaviors in a birth cohort of children aged 6 years.

Role: Co-Investigator

CDC-RFA-DP13-1305 Novais (PI) 07/01/13-06/30/18 (declined funding after 12/31/15 due to overfunding by other grants)

US Centers for Disease Control (CDC)

State Public Health Actions to Prevent and Control Diabetes, Heart Disease, Obesity and Associated Risk Factors and Promote School Health.

This project implements state-level public health actions in Rhode Island, and evaluates the effectiveness of the programs. Evaluation includes overarching monitoring of the cardiovascular health of Rhode Island residents.

Role: Epidemiologist

FOA 13-1302 Novais (PI) 07/01/13-06/30/18 (declined funding after 12/31/15 due to overfunding by other grants)

US Centers for Disease Control (CDC)

Well-Integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN) Program

This project provides low-income, underinsured, or uninsured 40-64 year old women with the knowledge, skills, and opportunities to improve their diet, physical activity, and other life habits to prevent, delay, or control cardiovascular and other chronic diseases. This project also evaluated the effectiveness of this program at the Rhode Island site.

Role: Epidemiologist and Evaluator

1R01AG048825-01 Loucks, Gilman (PIs; contact PI: Loucks) 09/30/14-04/30/17
NIH/NIA

Identifying Targets for Reducing Obesity Caused by Early Life Disadvantage

This study aims to evaluate pathways (e.g. diet, physical activity, education, depressive symptomatology, mindfulness and epigenetic methylation patterns) that may link early life socioeconomic/social adversity to adulthood obesity. This evidence will inform society on anticipated benefits of adulthood interventions on these pathways to reduce the long-term consequences of early childhood adversity on obesity.

Role: Principal Investigator

3UH2AT009145-02S2 Loucks (PI) 09/01/2016 – 08/31/2017
NIH/NCCIH

Mindfulness-Blood Pressure Reduction Study Randomized Controlled Trial.

This study transitions the MB-BP study funded by NIH Grant 1UH2AT009145-01 to a two-arm, dual-blind, randomized RCT during the UH2 phase, instead of being an uncontrolled pre/post study. This approach will allow evaluation of the impacts of MB-BP vs. control on self-regulation targets, medical regimen adherence, and blood pressure over a 1 year follow-up time period.

Role: Principal Investigator

3UH2AT009145-02S2 Britton (PI) 09/01/2016 – 08/31/2017
NIH/NCCIH

Systematic Reviews on Impacts of Mindfulness-Based Interventions on Self-Regulation and Neuroimaging Targets.

This study extends the systematic reviews funded by NIH Grant 1UH2AT009145-01 to perform systematic reviews on 3 distinct self-regulation domains, including neuroimaging targets. Similar to CONSORT guidelines that have been created for acupuncture trials (STRICTA), we plan to use information from the systematic review to create a CONSORT extension for mindfulness trials.

Role: Co-Investigator

1UH2AT009145-01 Loucks, Britton, King (PIs; contact PI: Loucks) 09/15/15-08/31/18
NIH/NCCIH

Mindfulness Influences on Self-Regulation: Mental and Physical Health Implications

This study aims to (1) analyze several existing datasets to evaluate what specific elements of mindfulness interventions are most effective at influencing self-regulation, and if those changes in self-regulation translate into clinically meaningful health behavior changes, such as improved medical regimen adherence, and (2) test the ability of customized mindfulness interventions to alter self-regulation and medical regimen adherence in four ongoing randomized controlled trials.

Role: Principal Investigator

3UH2AT009145-02S1 Loucks (PI) 09/01/2017 – 08/31/2018
NIH/NCCIH

Interoceptive Self-Awareness as a Behavior Change Tool

This study aims to (1) Evaluate whether the Multidimensional Assessment of Interoceptive Awareness (MAIA) is influenced by mindfulness-based interventions including the Mindfulness-Based Blood Pressure Reduction (MB-BP) intervention and Mindfulness-Based College Intervention (2) Further cross-validate the MAIA assay by inserting an objective measure of self-awareness (heart beat detection task) into the MB-BP Stage II randomized controlled trial . (3) Consider use of an fMRI task to investigate neural activity during interoceptive awareness (heartbeat counting) and exteroceptive awareness (tone counting).

Role: Principal Investigator

6. SERVICE

6.1. University Service

2017 Member, PhD Admissions Committee, Brown University, Department of Epidemiology

2016-present	Member, Curriculum Committee, Department of Epidemiology, Brown University School of Public Health
2016-present	Graduate Program Director, Department of Epidemiology, Brown University School of Public Health
2015-present	Member, Graduate Studies Committee, Brown University School of Public Health
2018	Science Track Advisor, Contemplative Studies Undergraduate Concentration
2015-2017	Member, Undergraduate Studies Committee, Brown University School of Public Health
2014-present	Member, Contemplative Studies Concentration Faculty, Brown University
2013-2017	Co-Chair, Public Health Academic Working Group, Brown University and Rhode Island Department of Health
Jan-Mar, 2017 Sep-Nov, 2016	Mindfulness-Based College Instructor, Brown University. Intervention, currently being scientifically investigated, designed to improve well-being and performance undergraduate university students throughout Rhode Island. Course consists of 9 weekly 2.5 hour sessions, and one all-day mindfulness retreat.
2014-2016	Masters Program Director, Department of Epidemiology, Brown University
2016, 2013	Member, Selection Committee for Dean's Awards in Teaching and Mentoring, Brown University, Program in Public Health
2015	Member, Master's Program Planning Committee, Brown University School of Public Health
2015	Member, Epidemiology ScM Admissions Committee, Brown University, Department of Epidemiology
2014-2015	Member, Department of Epidemiology Identity Committee, Brown University
2014	Chair, Epidemiology ScM Admissions Committee, Brown University, Department of Epidemiology
2012-2013	Chair, Seminar/Social Committee, Brown University, Department of Epidemiology.
2009-2012	Member, PhD Admissions Committee, Brown University, Department of Epidemiology
2011-2012	Member, Curriculum Committee, Department of Epidemiology, Brown University
2010-2012	Member, Epidemiology Faculty Search Committee (Molecular Epidemiology), Brown University, Department of Epidemiology
2009-2010	Member, Core Competencies & Evaluation Committee, Brown University, Epidemiology Section.
2009-2010	Chair, Seminar and Social Committee, Brown University, Epidemiology Section.
2009-2010	Member, Epidemiology Faculty Search Committee, Brown University, Epidemiology Section
2009-2010	Member, Biostatistics Faculty Search Committee, Brown University, Biostatistics Section.
2007-2008	Member, PhD Comprehensive Exam Committee, Dept. of Epidemiology, Biostatistics and Occupational Health.
2006-2008	Member, Curriculum Committee, Dept. of Epidemiology, Biostatistics and Occupational Health, McGill University.

- 2015 National Institutes of Health, National Institute on Aging. Program Project Grant Type 1 Grant Review Panel. Peer reviewer.
- 2015 National Institutes of Health, National Institute on Aging. Grant review panel for PA-13-302 "CVD risk reduction in socioeconomically distressed environment." Peer reviewer.
- 2012-2015 Canadian Institutes of Health Research. Public, Community & Population Health Grants Committee PH1, Member. Peer reviewer of operating grant applications; 4 days per year in meetings; an additional 60-80 hours per year in reviewing time.
- 2013 (July) National Institutes of Health, National Institute on Aging. Special Emphasis Panel for RFA-AG-13-009 "Secondary Analyses and Archiving of Social and Behavioral Datasets in Aging." Peer reviewer.
- 2013 (Feb) National Institutes of Health, National Institute on Aging. Special Emphasis Panel for RFA-AG-13-004 "Secondary Analyses and Archiving of Social and Behavioral Datasets in Aging." Peer reviewer.
- 2012 Canadian Institutes of Health Research. Program Name: "Operating Grant: Advancing Theoretical and Methodological Innovations in Health Research." Peer Reviewer
- 2007-2009 Canadian Institutes of Health Research. Institute of Public, Community & Population Health – Committee A, Member. Peer reviewer of operating grant applications; 4 days per year in meetings; an additional 60-80 hours per year in reviewing time.
- 2004-2006 Robert Wood Johnson Foundation "Young Epidemiology Scholars" program. Peer reviewer of applications; 2 meeting days/ year
- 2006 Heart and Stroke Foundation of Ontario, Social Determinants of Hypertension Special Competition, Peer Reviewer

Committees:

- 2017-present Member, Canadian Institutes of Health College of Reviewers
- 2015-present Member, Steering Committee, National Institutes of Health Science of Behavior Change (SOBC) Research Network
- 2014-present Member, Rhode Island Preventive Health and Health Services Block Grant Statewide Advisory Committee
- 2015-2017 Member, Program Committee for the American Psychosomatic Society Annual Scientific Meetings, 2016 (USA), 2017 (Spain).
- 2012-2015 Member, Rhode Island Stroke Task Force, Rhode Island Department of Health

2012-2015	Member, Heart Disease and Stroke Prevention Program Steering Committee, Rhode Island Department of Health
2011-present	Member, CARDIA (Coronary Artery Risk Development in Young Adults) Study Psychosocial Committee
2007-2012	Member, Expert Advisory Committee, Statistics Canada Canadian Health Measures Survey (CHMS). 3 days/year.
2006-2011	Member, Quality Control/Quality Assurance (QC/QA) Advisory Committee, Statistics Canada Canadian Health Measures Survey (CHMS). 10 days/year.
2004-2005	Member, Canadian Cardiovascular Society Trainee Committee. 6 meeting hours/year

Other Professional and Scientific Contributions:

2017-present	Founder and Director, Mindfulness Center, Brown University School of Public Health
2011-2013	Founder and Director, Rhode Island Social Determinants of Health Working Group
2006-2007	Founder and Co-Director, Social Physiology Axis of Research and Knowledge Transfer (SPARK)
2002-2004	Co-Founder and Co-Director, Harvard Biomarkers Working Group

6.3. Community Service

2014-present	Member, Rhode Island Preventive Health and Health Services Block Grant Statewide Advisory Committee
2013-2017	Co-Chair, Rhode Island Public Health Academic Working Group, Brown University and Rhode Island Department of Health
2016-2017	Mindfulness-Based Stress Reduction Instructor, Miriam Hospital. Evidence-based intervention designed to improve patients' overall well-being in health care settings. Course consists of 9 weekly 2.5 hour sessions, and one all-day mindfulness retreat.
2015-present	Mindfulness-Based Blood Pressure Reduction Instructor, Brown University School of Public Health. Intervention, currently being scientifically investigated, designed to lower blood pressure in community members with prehypertension or hypertension. Course consists of 9 weekly 2.5 hour sessions, and one all-day mindfulness retreat.
2016-present	Mindfulness-Based College Instructor. Brown University. Intervention, currently being scientifically investigated, designed to improve well-being and performance undergraduate university students throughout Rhode Island. Course consists of 9 weekly 2.5 hour sessions, and one all-day mindfulness retreat.
2012-2015	Member, Rhode Island Stroke Task Force, Rhode Island Department of Health
2012-2015	Member, Heart Disease and Stroke Prevention Program Steering Committee, Rhode Island Department of Health
2012-2015	Epidemiologist & Evaluator, Division of Community, Family Health & Equity, Rhode Island Department of Health

7. ACADEMIC HONORS

2018	Elected as Fellow, Academy of Behavioral Medicine Research
2014	Psych Central named the following article in "The Four Greatest Psychological Discoveries of 2014": Loucks EB, Britton WB, Howe CJ, Eaton CB, Buka SL. Positive associations of dispositional mindfulness with cardiovascular health: The New England Family Study. <i>Int J Behav Med.</i> 2015 Aug; 22(4): 540-550 PMID: 25339282.
2012	BioMed Central Public Health Award for the article Loucks EB <i>et al.</i> , <i>BMC Public Health.</i> 2011; 11(1):139, voted as the most ground-breaking public health research article published in all BioMed Central journals for 2011.

2011	Dean's Award for Excellence in Mentoring in Public Health, Brown University
2007-2012	Canadian Institutes of Health (CIHR) New Investigator Award (declined after 2008 due to moving to United States)
2007-2011	Fonds de la Recherche en Santé Québec (FRSQ) Chercheur-Boursier Junior 1 Salary Award (declined)
2008, 2009	Senior Teaching Excellence Award, McGill University, Epidemiology and Biostatistics Student Society
2007	Senior Teaching Excellence Award, Runner Up, McGill University, Epidemiology and Biostatistics Student Society
2002-2005	Harvard Center for Society and Health Fellowship
2002-2004	Heart and Stroke Foundation of Canada Research Fellowship
1999	W.B. and M.H. Chung Lectureship Award
1997-1999	Natural Sciences and Engineering Research Council of Canada (NSERC) Postgraduate Scholarship
1994-1995	Dean's Honor List, University of British Columbia
1991	Passport to Education Scholarship
1991	Provincial Scholarship, British Columbia, Canada

8. TEACHING

8.1 Courses (last 3 years)

"Meditation, Mindfulness and Health (PHP 1880)"

Brown University School of Public Health

3 credits; 30 h class time.

Years taught: 2015, 2016, 2018

Evaluations are available

"Social Determinants of Health (PHP 1920)"

Brown University School of Public Health

3 credits; 30 h class time.

Years taught: 2010, 2012, 2014, 2015, 2017, 2018

Evaluations are available

"Public Health Senior Seminar (PHP 1910)"

Brown University School of Public Health

3 credits; 30 h class time.

Years taught: 2015, 2016, 2017, 2018

Evaluations are available

"Meditation and the Brain: Applications in Basic and Clinical Science (UNIV 0900)"

Brown University Pre-College Program

3 credits pre-college program: 30 h class time.

Years taught: 2015.

Co-instructor with Willoughby Britton, Jared Lindahl and Cathy Kerr

Evaluations are available

"Research Grant Writing: Developing a Successful Grant Proposal and Conducting Collaborative Research (PHP 2090)"

Brown University School of Public Health

3 credits; 30 h class time.

Years taught: 2011, 2013, 2014
Evaluations are available

“Human Biology for Public Health (PHP 2130)”
Brown University School of Public Health
3 credits; 30 h class time.
Years taught: 2009, 2011
Evaluations are available.

8.2. Guest Lectures in University Courses (last 4 years)

University, Department	Title	Course	Years Taught
Brown University, Dept. Health Services, Policy & Practice	<i>Effects of Mindfulness on Pain and Physiology</i>	Pain and the Human Condition (PHP 0050)	2017, 2015
Brown University, School of Public Health	<i>Mindfulness and Cardiovascular Disease Risk: State of an Emerging Field</i>	Introduction to Public Health (PHP 0320)	2016
Brown University, Dept. Epidemiology	<i>Communicating Epidemiologic Research: Collaborating with the Media for Knowledge Dissemination</i>	Interpreting Epidemiologic Evidence (PHP 2180)	2016
Brown University, Dept. Epidemiology	<i>Social Determinants of Health</i>	Introduction to Public Health (PHP 0320)	2015
Brown University, Dept. Epidemiology	<i>Epidemiologic Methods for Cardiovascular Biomarker Development</i>	Human Biology for Public Health (PHP 2130)	2014
Brown University, Dept. Epidemiology	<i>Main Elements and Importance of Collaboration/ Team Building</i>	Scientific Writing in Public Health (PHP 2090)	2014
Brown University, Dept. Epidemiology	<i>Epidemiology of Coronary Heart Disease</i>	Epidemiology of Chronic Diseases (PHP 2210)	2011, 2014
Brown University, Dept. Psychiatry	<i>Health Disparities in Cardiovascular Disease</i>	Cardiovascular Behavioral Medicine	2011

8.3. Research Trainees Supervised

Post-Doctoral Fellow Advisor:

Jennifer Maccani, PhD. 2013-2014.

PhD Students' Primary Advisor (Dissertation Chair):

Nicholas J. Everage, PhD Candidate, Dept. Community Health, Brown University. 2005-2011 (primary advisor from 2009-2011).

Megan Sands, PhD Candidate, Dept. Epidemiology, Brown University. 2008-2012.

Golarah Agha, PhD Candidate, Dept. Epidemiology, Brown University. 2009-2013.

Marcia Pescador Jimenez, PhD Candidate, Dept. Epidemiology, Brown University, 2014-present. Year degree expected: 2018.

PhD Students' Committee Member:

Robert B. Juster, PhD Candidate, Dept. Psychiatry, McGill University. 2007-2008
Sze Liu, PhD Candidate, Dept. Community Health, Brown University. 2005-2009.
Stella Aslibekyan, PhD Candidate, Dept. Community Health, Brown University. 2007-2011
Su Chu, PhD Candidate, Dept. Epidemiology, Brown University. 2014-2017.

PhD Students' Academic Advisor:

Marcia Pescador Jimenez, PhD Candidate, Dept. Epidemiology, Brown University, 2014-present. Year degree expected: 2018.
Anna Wentz, PhD Candidate, Dept. Epidemiology, Brown University, 2015-present. Year degree expected: 2019.

MSc Students' Primary Thesis Advisor:

Brendan Smith. Dept. Epidemiology, Biostatistics and Occupational Health, McGill University. 2007-2009.
Golareh Agha. Dept. Epidemiology, Biostatistics and Occupational Health, McGill University. 2007-2009.

ScM (Epidemiology) Students' Academic Advisor:

Xinmiao Tan, Dept. Epidemiology, Brown University. 2012-2014.
Cole Roberts, Dept. Epidemiology, Brown University. 2014-present. Year degree expected: 2016.
Sadia Sharmin, Dept. Epidemiology, Brown University. 2016-present. Year degree expected: 2018.
Kari Kusler, Dept. Epidemiology, Brown University. 2017-present. Year degree expected: 2019.

MPH Students' Primary Thesis Advisor:

Jonathan Abraham. Brown University Program in Public Health. 2009-2011.
Lynda Stinson. Brown University Program in Public Health. 2010-2012.
Joel Stewart. Brown University School of Public Health. 2014-2015.
Lauren Sager. Brown University School of Public Health. 2015-2017.
Hannah Kimmel. Brown University School of Public Health. 2015-2017.
Carin Northuis. Brown University School of Public Health. 2015-2017.
Emma Scarpa, Brown University School of Public Health. 2016-2018.

ScM (Behavioral and Social Sciences) Students' Primary Thesis Advisor:

Pamela Acero, Dept. Behavioral and Social Sciences, Brown University. 2016-2018.
William Nardi, Dept. Behavioral and Social Sciences, Brown University. 2016-present. Year degree expected: 2019.
Julie Webb, Dept. Behavioral and Social Sciences, Brown University. 2017-present. Year degree expected: 2019.

ScM (Epidemiology) Students' Primary Thesis Advisor:

Cole Roberts, Dept. Epidemiology, Brown University. 2014-2016.

ScM (Epidemiology) Directed Studies Advisor:

Cole Roberts. Brown University School of Public Health. 2015.

MPH Students' Thesis Reader:

Brittany Dobosz, MPH Candidate, Dept. Community Health, Brown University. 2008-2010.
Madeline Montgomery, MPH Candidate, Brown University School of Public Health. 2013-present. Year degree expected: 2015.
Sarah Peters. Brown University School of Public Health. 2015-2017.

ScM (Behavioral and Social Sciences) Students' Thesis Reader:

Akash Radia, Dept. Behavioral and Social Sciences, Brown University. 2016-present. Year degree expected: 2018.

MPH Students' Academic Advisor:

Lynda Stinson. Public Health Program, Brown University. 2010-2012.

Paul Davis. Public Health Program, Brown University. 2010-2012.

Neeraja Krishnaswami. Public Health Program, Brown University. 2011-2013.

Elizabeth Piette. Public Health Program, Brown University. 2011-2013.

MPH Students' Internship Mentor:

Jonathan Abraham. Dept. Community Health, Brown University. 2009.

Hannah Kimmel. Brown University School of Public Health. 2016.

Lauren Sager. Brown University School of Public Health. 2016.

MPH Directed Studies Advisor:

Joel Stewart. Brown University School of Public Health. 2015.

ScM (Behavioral and Social Sciences) Directed Studies Advisor:

Pamela Acero Brown University School of Public Health. 2017.

MSc Students' Thesis Reader:

Serena Luchenski, Dept. Epidemiology, Biostatistics and Occupational Health, McGill University, 2007.

Michel Vallée, Dept. Epidemiology, Biostatistics and Occupational Health, McGill University, 2008.

MSc Students' External Examiner for Thesis:

Ashley Naimi, Department of Social and Preventive Medicine, University of Montreal, 2008.

Undergraduate Students' Thesis Advisor:

Beth Anne George. Public Health Concentration. 2016-2017.

Anthony Mei. Human Biology. 2017-2018.

Jodi Scharf. Contemplative Studies. 2016-present. Year degree expected: 2019.

Undergraduate Students' Thesis Reader:

Lisa Rickey, Dept. Human Biology, Brown University. 2008-2011.

Susan (Scottie) Thompson, Dept. Community Health, Brown University. 2009-2012.

Luyu Zhang, 2011-2014.

Undergraduate Students' Academic Advisor:

Andrea Martinez (2010-2012), Janine Melvin (2010-2012), Katherine Kartheiser (2011-2012), Arianna Kazez (2011-2012), Bryan Mera (2011-present), Mallory Yant (2011-2012), Vannida Lorn (2012-2013), Anisha Lewis (2012-2014) Elliott Liebling (2012-2014), Emily Westgate (2012-2014), John Facey (2014-2016), Imani Herring (2014-2016), Zachary Neill (2014-2016), Clayton Sanford (2014-2016).

Undergraduate Contemplative Studies Science Track Advisor:

Andy Pham (2018), Samuel Fredericks (2018), Helen Ding (2018), Maria Martinez (2018), Jodi Scharf (2018), Maya Singh (2018), Hailey Fulkerson (2018), Nikisha Vaghjianai (2018), Genesis Barrera (2018).

Undergraduate Directed Studies Advisor:

Natalie Cutler (2015), Alexx Temena (2015), Ellise Sharpe (2016), Anthony Mei (2017, 2018)
