

CURRICULUM VITAE

JEFFREY R. MORGAN

1. Name, Position, Academic Department

Jeffrey R. Morgan
Professor of Medical Science and Engineering
Department of Molecular Pharmacology, Physiology & Biotechnology
Brown University
BioMed Building, G-B393
Providence, RI
02912

Phone: 401-863-9879

Fax: 401-863-1753

Jeffrey_Morgan@Brown.edu

2. Home address

3. Education

1977 B.S. Syracuse University, Syracuse, NY (Biology)
1983 Ph.D. Harvard University, Cambridge, MA (Biological Chemistry)
Dissertation title: *Messenger RNA Biogenesis by Vaccinia Virus*

4. Professional appointments

1983 - 1988 Post Doctoral Fellow, Massachusetts Institute of Technology and Whitehead
Institute for Biomedical Research
1988 - 1991 Co-Founder, Somatix Corporation, Cambridge, MA
1988 - 1990 Senior Scientist, Somatix Corporation, Cambridge, MA
1990 - 1991 Scientific Officer, Somatix Corporation, Cambridge, MA
1991 - 1994 Instructor in Surgery, Harvard Medical School, Boston, MA
1991 - 2002 Senior Research Scientist, Shriners Hospital for Children, Boston, MA
1994 - 2000 Assistant Professor in Surgery, Harvard Medical School, Boston, MA
1991 - 1996 Assistant Biologist, Department of Surgery, Massachusetts General Hospital,
Boston, MA
2001 - 2002 Associate Professor in Surgery, Harvard Medical School, Boston, MA
1997 - 2002 Associate Biologist, Department of Surgery, Massachusetts General Hospital,
Boston, MA
2002 - 2004 Associate Professor of Medical Science, Brown University, Providence, RI
2005 - 2013 Associate Professor of Medical Science and Engineering,
Brown University, Providence, RI
2004 - Investigator, Providence Veterans Affairs Medical Center, Providence, RI

- 2002 - 2007 Program Director, Graduate Program in Biomedical Engineering, Brown University, Providence, RI
- 2007 – 2007 Vice Chair, Department of Molecular Pharmacology, Physiology and Biotechnology, Brown University, Providence, RI
- 2007 – 2007 Interim Chair, Department of Molecular Pharmacology, Physiology and Biotechnology, Brown University, Providence, RI
- 2014 – 2014 Acting Chair, Department of Molecular Pharmacology, Physiology and Biotechnology, Brown University, Providence, RI
- 2007 - 2016 Co-Director, Center for Biomedical Engineering, Brown University, Providence, RI
- 2017 Founding Director, Center to Advance Predictive Biology, Brown University, Providence, RI
- 2013 - Professor of Medical Science and Engineering, Brown University, Providence, RI

5. Completed Research, Scholarship and/or Creative Work

a. Books/monographs (authored and/or edited volumes)

1. Morgan, J.R., Messenger RNA Biogenesis by Vaccinia Virus [dissertation]. Harvard University, Cambridge, MA, 1983.
2. Morgan, J.R. and Yarmush, M.L. Eds. “Tissue Engineering Methods and Protocols”, In: Methods in Molecular Medicine. Humana Press, Totowa, NJ, 1999.
3. Morgan, J.R., Ed., “Gene Therapy Protocols”, 2nd Edition, In: Methods in Molecular Medicine. Humana Press, Totowa, NJ, 2002.
4. Berthiamue, F. and Morgan, J.R. Eds., “3D Tissue Engineering”, Artech House, Boston, MA. 2010.

b. Chapters in books

1. Morgan, J.R., Tompkins, R.G., Yarmush, M.L. Advances in Recombinant Retroviruses for Gene Delivery, In: “Gene Therapeutics issue of *Advanced Drug Delivery Reviews*,” Elsevier Publishers Amsterdam, The Netherlands, 12:143-158, 1993.
2. Morgan, J.R., Yarmush, M.L., Tompkins, R.G. Consultations in Molecular Biology, In: “Surgical Consultations,” Beahrs OH, Beart, JR., RW, Pemberton JH, (Eds.) St. Louis, MO, Mosby-Year Book, Inc., Chapter 15:1-22, 1993.
3. Morgan J.R., Tompkins R.G., Yarmush, M.L. Genetic Engineering and Therapeutics, In: “Implantation Biology: The Host Response and Biomedical Devices,” CRC Press, Inc., Boca Raton, FL, pp387-400, 1994.

4. LeDoux, J.M., Morgan, J.R., and Yarmush, M.L. Antisense Technology, In: "The Biomedical Engineering Handbook," CRC Press, Inc., Boca Raton, FL, pp1472-1488, 1994.
5. LeDoux J.M., Morgan J.R., and Yarmush, M.L. Gene Therapy, In: "The Biomedical Engineering Handbook," CRC Press, Inc. Boca Raton, FL, pp1518-1535, 1995.
6. Eming, S.A., and Morgan, J.R. Methods for the Use of Genetically Modified Keratinocytes in Gene Therapy, In: "Methods in Molecular Medicine: Gene Therapy Protocols," Robbins, P. (Ed.), Humana Press, Totowa, N.J., Chapter 19; 264-279, 1997.
7. Morgan, J.R. and Yarmush, M.L. Gene Therapy in Tissue Engineering. In: "Frontiers in Tissue Engineering", Patrick, Jr., CW, Mikos, AG, McIntire, LV, (eds.) Pergamon; Elsevier Science Publishers, Amsterdam, The Netherlands, Chapter II.15, 278-310, 1998.
8. Medalie, D.A. and Morgan, J.R. Methods for the Preparation and Transplantation of a Composite Graft of Epidermal Keratinocytes on Acellular Dermis, In: "Methods in Tissue Engineering," Morgan, J.R. and Yarmush, M.L. (Eds.), Humana Press, Totowa, NJ, Chapter 30; 407-421, 1999.
9. Machens, H-G., Morgan, J.R., Berthiaume, F., Stefanovich, P. and Berger, A. Genetically Modified Fibroblasts Induce Angiogenesis in the Rat Epigastric Island Flap. In: "Biological Matrices and Tissue Reconstruction", Stark, Horch, Tanczos (Eds.) Springer Verlag/Berlin/Heidelberg/New York, 53-59, 1998.
10. Morgan, J.R. "Genetic Engineering of Skin Substitutes" In: Bioengineering of Skin Substitutes, International Business Communications, Inc., Southborough, MA, Chapter 1.4., 61-73, 1998.
11. LeDoux, J.M., Morgan J.R., and Yarmush, M.L. Gene Therapy In: "The Biomedical Engineering Handbook, 2nd Edition" CRC Press, Inc. Boca Raton, FL, Chapter 106; 1-19, 2000.
12. Sheridan, R.L., Morgan, J.R. and Mohammed, R. Biomaterials in Burn and Wound Dressings. In: "Polymeric Biomaterials, Second Edition, Revised and Expanded", Dumitriu (Ed.) Marcel Dekker, Inc., New York, Chapter 17; 451-458, 2001.
13. Andreadis, S.T and Morgan, J.R. Methods for the Quantitative Measurement of the Concentration of Active Recombinant Retrovirus, In: "Gene Therapy Protocols" 2nd Edition, Morgan, J.R. (Ed.), Humana Press, Totowa, NJ, Chapter 13; 161-172, 2002.
14. Hamoen, K.E., Erdag, G., Cusick, J.L., Rakhorst, H.A. and Morgan, J.R. Methods for the Preparation and Use of Genetically Modified Skin Substitutes, In "Gene Therapy Protocols", 2nd Edition, Morgan, J.R. (Ed.), Humana Press, Totowa, N.J., Chapter 16: 203-217, 2002.
15. Morgan, J.R., Sheridan, R.L., Tompkins, R.G., Yarmush, M.L. and Burke, J.F. Burn Dressings, In: "Biomaterials Science: An Introduction to Materials in Medicine, 2nd

- Edition". Ratner, B.D., Hoffman, A.S., Schoen, F.J. and Lemons, J.E. (Eds.) Academic Press, San Diego, CA, Chapter 7.12; 602-614, 2004.
16. Youssef, J., and Morgan, J.R. Self-assembled Scaffold-free 3D Micro-tissues for Tissue Repair. Wound Healing Society Year Book- Advances in Wound Care. In Press.
 17. Youssef, J., Bao, B., Ferruccio, T-M. and Morgan, J.R. Micro-molded Nonadhesive Hydrogels for the Self-Assembly of Scaffold-Free 3D Cellular Microtissues. In: "3D Tissue Engineering", Berthiaume, F. and Morgan, J.R. Eds. Artech House, Boston, MA. Chapter 9: 151-166, 2010.
 18. Blakely, A.M., Schell, J.Y., Rago, A.P., Chai, P.R., Napolitano, A.P, Morgan, J.R. Formation of Multi-cellular Microtissues and Applications in Biofabrication, In "Biofabrication", Forgacs, G., Sun, W. (Eds) Elsevier, Amsterdam, The Netherlands Chapter 8: 149-164, 2013.
 19. Leary, E., Curran, S., Susienka, M., Manning, K.L., Blakely, A.M. and Morgan, J.R. Micro-moulded Nonadhesive Hydrogels to Form Multi-cellular Microtissues – The 3D Petri Dish®. In "3D Cell Culture: Technology and Application", Przyborski, S. (Ed.) Wiley-Blackwell, West Sussex, United Kingdom. Chapter 5: 97-123, 2017.

c. Refereed journal articles.

1. Roberts, B.E., Miller, J.S., Ricciardi, R., Mahr, A., Jones, R., Rice, A., Morgan, J.R. Determination of the Identity and Organization of Messenger RNAs within DNA. *Am. J. Trop. Hyg.* 29:1117-1122, 1980.
2. Morgan, J.R., Roberts, B.E. Organization of RNA Transcripts from a Vaccinia Virus Early Gene Cluster. *J. Virol.* 51: 283-297, 1984.
PMCID: PMC254437
3. Morgan, J.R., Cohen, L.K., Roberts, B.E. Identification of the DNA Sequences Encoding the Large Subunit of the mRNA-Capping Enzyme of Vaccinia Virus. *J. Virol.* 52: 206-214, 1984.
PMCID: PMC254507

f. Abstracts

Do not keep track

g. Invited lectures

- 07-07-81 "Mapping of Specific mRNAs by Hybridization-Selection and Cell-Free Translation." Molecular Cloning Course, Cold Spring Harbor Labs, Cold Spring Harbor, NY.
- 08-02-83 "Messenger RNA Biogenesis by Vaccinia Virus." Integrated Genetics, Inc., Framingham, MA.
- 07-25-84 "Identification of the DNA Sequences Encoding the Large Subunit of mRNA-Capping Enzyme of Vaccinia Virus." Workshop on Vaccinia Virus, University of Wisconsin, Madison, WS.
- 10-01-85 "Transfer and Expression of Foreign Genetic Material in Transplantable Human Epidermal Cells." Department of Oral Biology and Dental Medicine, School of Dental Medicine, State University of New York at Stony Brook, Stony Brook, NY.
- 02-12-86 "Expression of Human Growth Hormone by Transplantable Human Epidermal Cells." UCLA Workshop on Human Gene Therapy, Lake Tahoe, CA.
- 02-25-87 "Genetic Modification of Transplantable Human Epidermal Cells." Yale Department of Dermatology, New Haven, CT.
- 03-18-87 "Genetic Modification of Transplantable Human Epidermal Cells." Department of Physiology and Biophysics, Case Western Reserve, University School of Medicine, Cleveland, OH.
- 05-11-87 "Immortalization of Human Epidermal Cells." NIH and Cystic Fibrosis Foundation sponsored workshop, Cell Immortalization, Bethesda, MD.
- 05-01-87 "Gene Transfer Into Transplantable Human Epidermal Cells." Salk Institute Biotechnology/Industrial Associates, Inc., La Jolla, CA.
- 12-09-87 "Transfer and Expression of Foreign Genetic Material in Transplantable Human Epidermal Cells." Department of Biochemistry, University of Massachusetts Medical School, Worcester, MA.

- 01-14-90 "Retroviral-Mediated Gene Transfer Into Transplantable Human Epidermal Cells." Third International Symposium on Tissue Repair: Clinical and Experimental Approaches to Dermal and Epidermal Repair: Normal & Chronic Wounds, Miami, FL.
- 10-12-90 "Biological Bandage for Advanced Wound Healing." Biomedical Business International Meeting, Innovative Wound Care Technologies, San Francisco, CA.
- 12-04-90 "Somatic Cell Gene Therapy." Massachusetts Centers of Excellence Symposium: Genetics, Biotechnology & Public Health, Boston, MA.
- 12-07-90 "Applications of Cell-Based Protein Deliver Systems for Growth Factors." Technology Management Group Conference, Growth Factors for Wound Healing II, Cambridge, MA.
- 03-28-91 "Gene Transfer into Transplantable Human Epidermal Cells." The University of Michigan, Ann Arbor, MI.
- 04-15-91 "The Challenges to Gene Therapy." Symposium on "New Horizons in Biotechnology." Sponsored by American Society for Microbiology, Jamaica Plain, MA.
- 10-2-91 "Modification of Human Keratinocytes by Viral Transfection." Seminar in Research Medicine, Rockefeller University, New York, NY.
- 12-2-91 "Gene Transfer into Transplantable Human Epithelial Cell." Section of Molecular Dermatology, Jefferson Institute of Molecular Medicine, Department of Dermatology, Jefferson Medical College, Philadelphia, PA.
- 04-14-82 "Research: A New State of the Art." International Shrine Hospital Day and Hospital Symposium. Shriners Burns Institute, Boston, MA.
- 02-20-95 "Gene Modified Skin Grafts to Promote Wound Healing." American Association for the Advancement of Science Annual Meeting and Science Innovation Exposition, Atlanta, GA.
- 04-20-95 "Enhanced Function of Cultured Epithelium by Genetic Modification." American Burn Association, 27th Annual Meeting, Albuquerque, NM.
- 05-22-95 "Gene Modified Skin Grafts to Promote Wound Healing." Biochemical Engineering IX, Davos, Switzerland.
- 08-20-95 "Growth Factor Gene Therapy: Production of Wound Healing Growth Factors by Genetically Modified Skin Grafts." Second International Conference on Cell Engineering, La Jolla, CA.
- 09-13-95 "Differential Connective Tissue Formation: Effects of Cell Associated versus Secreted Isoforms of PDGF-BB." Organogenesis, Inc., Canton, MA.

- 04-22-96 "Gene Modified Skin Grafts to Promote Wound Healing." Ninth Annual Advanced Wound Care Meeting, Symposium on Advanced Wound Care & Medical Research Forum on Wound Repair, Atlanta, GA.
- 05-02-96 "Overexpression of PDGF-A Enhances the Performance of a Composite Skin Graft." 42nd Annual Conference, American Society for Artificial Internal Organs, Washington, DC.
- 05-03-96 "Targeted Expression of EGF and IGF-1 to Human Keratinocytes: Modification of the Autocrine Control of Keratinocyte Proliferation," The Society for Investigative Dermatology, 57th Annual Meeting, Washington, DC.
- 05-17-96 "Engineering Genetic Strategies for Tissue Repair." European Association of Plastic Surgeons, 7th Annual Meeting, Innsbruck, Austria.
- 06-19-96 "Gene Therapy for Tissue Repair: Production of Wound Healing Growth Factors by Genetically Modified Skin Grafts." Genzyme Tissue Repair, Inc., Framingham, MA.
- 07-16-96 "Gene Therapy Technologies: Rate Limiting Steps to Retroviral-Mediated Gene Transfer." 5th World Congress of Chemical Engineering, Cell Transplantation and Gene Therapy Symposium, San Diego, CA.
- 07-16-96 "Growth Factor Gene Therapy: Genetically Modified Skin Grafts for the Synthesis and Delivery of Wound Healing Growth Factors." 5th World Congress of Chemical Engineering, Cell Transplantation and Gene Therapy Symposium, San Diego, CA.
- 11-21-96 "Genetic Strategies for Tissue Engineering." American Society of Mechanical Engineering, Tissue Engineering Symposium, Atlanta, GA.
- 02-07-97 "Growth Factor Gene Therapy for Wound Healing of the Skin." Department of Molecular Pharmacology, Physiology & Biotechnology, Brown University, Providence, RI.
- 04-03-97 "Technologies and Applications in Gene Therapy." BioDelivery Sciences, Inc., Newark, NJ.
- 06-12-97 "Gene-Modified Skin Grafts for Wound Healing." Cell Genesys, Inc., Foster City, CA.
- 06-13-97 "Rate Limiting Steps to Retroviral-Mediated Gene Transfer." Systemix, Inc. Palo Alto, CA.
- 09-18-97 "Genetic Engineering of Skin Substitutes." International Business Communications Group plc Conference: Bioengineering of Skin Substitutes, Boston, MA.

- 10-18-97 "Gene Therapy and Tissue Engineering of the Skin." Dr. John Francis Burke Symposium, Massachusetts General Hospital, Boston, MA.
- 4-21-98 "Rate Limiting Steps to Retroviral-Mediated Gene Transfer." Symposium: Engineering Gene Therapeutics, Experimental Biology 98, FASEB Meeting, San Francisco, CA.
- 07-12-98 "Gene Therapy and Engineered Skin Substitutes." The 35th Annual Meeting of the Society for Cryobiology Pittsburgh, PA.
- 10-11-98 "Growth Factor Delivery from Genetically Modified Skin Grafts." Annual Meeting of the Biomedical Engineering Society, Cleveland, OH.
- 02-19-99 "Use of Genetically Modified Composite Skin Grafts in Tissue Engineering." 3rd Annual Hilton Head Workshop: Tissue Engineering, Gene Delivery, and Regenerative Healing, Hilton Head Island, SC.
- 03-23-99 "Applications of Gene Therapy and Microfabrication Technologies in Tissue Engineering of the Skin." Keynote Speaker for the Canadian Special Interest Group, American Burn Association Annual Meeting, Orlando, FL.
- 07-20-99 "Local Growth Factor Delivery from Genetically Modified Skin Grafts." Epithelial Differentiation and Keratinization, Gordon Research Conference, Tilton, NH
- 10-23-99 "Wound Healing." Group Leader for Discussion. Dystrophic Epidermolysis Bullosa Research Association of America and the United Kingdom Visioning Meeting, Florham Park, NJ.
- 12-02-99 "Novel Membranes for the Capture of Virus Particles." Cambridge Healthtech Institute's Second Biannual Conference: "Bioengineering of Nanostructures for Biomedical and Biotechnical Applications", Boston, MA.
- 10-05-99 "Growth Factors in Wound Healing." Course in Bioengineering and Gene Therapy, Universidade Federal de Sao Paulo/ Escola Paulista de Medicina, Sao Paulo, Brasil.
- 10-06-99 "Tissue Engineering and Applications to Skin." Course in Bioengineering and Gene Therapy, Universidade Federal de Sao Paulo/ Escola Paulista de Medicina, Sao Paulo, Brasil.
- 10-08-99 "Gene Transfer Technologies." Course in Bioengineering and Gene Therapy, Universidade Federal de Sao Paulo/ Escola Paulista de Medicina, Sao Paulo, Brasil.

- 10-08-99 "Gene Therapy and Applications in Tissue Engineering." Course in Bioengineering and Gene Therapy, Universidade Federal de Sao Paulo/ Escola Paulista de Medicina, Sao Paulo, Brasil.
- 06-01-00 "Gene Therapy and Tissue Engineering of the Skin." Department of Molecular Pharmacology, Physiology & Biotechnology, Brown University, Providence, RI.
- 06-28-00 "Microfabrication of a Basal Lamina Analog." Gordon Research Conference, Tilton, NH.
- 07-18-00 "Transient Hyperproliferation of a Transgenic Human Epidermis Expressing Hepatocyte Growth Factor." Tissue Engineering 2000, Advances in Tissue Engineering, Biomaterials and Cell Signaling, York, England.
- 07-18-00 "Innate Immunity of Cultured Skin Substitutes: Cytokines Stimulate Anti-Microbial Activity." Tissue Engineering 2000, Advances in Tissue Engineering, Biomaterials and Cell Signaling, York, England
- 08-04-00 "Tissue Engineering: From Discovery to Patient Care." Medicine Meets Millennium during EXPO 2000, Hannover, Germany.
- 02-21-01 "Enhancing Tissue Function Through Gene Transfer." ET-2001 Workshop: The New Biology Tool Box for Tissue Engineering, Hilton Head Island, SC.
- 02-25-01 "IL-1 and IL-6 Enhance the Anti-Bacterial Properties of Cultured Skin Substitutes." 5th Annual Hilton Head Workshop: Engineering Tissues, Hilton Head Island, SC.
- 04-01-01 "Enhancing Tissue Function Through Gene Transfer." Tissue Engineering: Opportunities and Challenges, Experimental Biology 2001, FASEB Meeting, Orlando, FL.
- 09-11-01 "Growth Factor Gene Delivery in Wound Healing." Cutaneous Gene Therapy: Applications in Genodermatoses and Wound Healing, Berzellius Symposium 57, Uppsala, Sweden.
- 09-11-01 "Functionalized Membranes for the Capture and Purification of Recombinant Retroviruses." Amersham Pharmacia Biotech, Uppsala, Sweden.
- 03-20-02 "Growth Factor Delivery from Genetically Modified Skin Grafts." Department of Surgery, University of Utrecht, Utrecht, The Netherlands.
- 04-28-02 "Growth Factor Delivery from Genetically Modified Skin Grafts." 15th Annual Symposium on Advanced Wound Care & Medical Research Forum on Wound Repair, Baltimore, MD.
- 11-21-02 "The Next Generation of Living Skin Substitutes." Biomedical Engineering Seminar Series, Brown University, Providence, RI.

- 11-25-02 "Tissue Engineered Skin Substitutes." Biomedical Engineering Seminar Series, Rutgers University, New Brunswick, NJ.
- 03-12-04 "Functionalization of Materials Using Electron Beam Induced Graft Polymerization." United States Army Research, Development and Engineering Command, Natick Soldier Center, Natick, MA.
- 04-20-04 "Entrepreneurial Fellows Program." Rhode Island's Experimental Program to Stimulate Competitive Research (EPSCoR), Providence, RI.
- 06-25-04 "Enhancing the Performance of Tissue Engineered Skin By Genetic Modification." NIH-NSF Bioengineering and Bioinformatics Summer Institute at Clemson University, Clemson, SC.
- 12-20-05 "Enhancing the Performance of Tissue Engineered Skin By Genetic Modification." Division of Surgical Research Seminar Series, Department of Surgery, Brown University, Rhode Island Hospital, Providence, RI.
- 05-24-06 "Production of Complex Micro-Tissues for Evaluation of Nanomaterials." Showcase of NanoMedicine, Brown University, Providence, RI.

Patents

1. Morgan, J.R. and Mulligan, R.C. United States Patent #4,868,116, "Introduction and Expression of Foreign Genetic Material in Epithelial Cells." Issued September 19, 1989.
2. Morgan, J.R. and Mulligan, R.C. United States Patent #4,980,286, "In Vivo Introduction and Expression of Foreign Genetic Material in Epithelial Cells." Issued December 25, 1990.
3. Morgan, J.R. and Mulligan, R.C. European Patent EP0228458, "Epithelial Cells Expressing Foreign Genetic material." Issued January 14, 1991.
4. Pins, G. and Morgan, J.R. United States Patent #6, 479, 072 "Microfabricated Membranes and Matrices." Issued November 12, 2002.
5. Lee, W., Yarmush, M., Morgan, J.R. "Methods for Removal, Purification and Concentration of Viruses, Methods of Therapy Based Thereupon." United States Patent #6, 861, 001. Issued March 1, 2005.
6. LeDoux, J.M., Yarmush, M.L, Morgan, J.R. United States Patent #6,884,613. "Selective Precipitation of Viruses with Polymers." Issued April 4, 2005.
7. Lee, W., Yarmush, M., Morgan, J.R. United States Patent #7,160,464 . "Methods for Removal, Purification and Concentration of Viruses, Methods of Therapy Based Thereupon." Issued January 9, 2007.
8. LeDoux, J.M., Yarmush, M.L, Morgan, J.R. United States Patent #7,592,170. "Selective Precipitation of Viruses Using Polyelectrolytes." Issued September 22, 2009.
9. Jarrell, J.D. and Morgan, J.R. United States Patent #8,080,223. "Method of Making a Composite from Metal Oxide and Polymer Precursors." Issued December 20, 2011.
10. Morgan, J.R. and Napolitano, A. P. United States Patent #8,361,781. "Cell Aggregation and Encapsulation Device and Method." Issued January 29, 2013.
11. Dean, D., Morgan, J.R. and Rago A. United States Patent # 8,501,476. "Assays and Methods for Fusing Cell Aggregates." Issued August 6, 2013.
12. Morgan, J.R., Chai, P., Napolitano, A. P., Mathiowitz, E., Dean, D. European Patent #1976972. "Cell Aggregation and Encapsulation Device and Method." Issued March 12, 2014.
13. Achilli, T.M., Youssef, J., Morgan, J.R. "Mechanotransduction by the Synergistic Action of Heterotypic Cell Interactions" United States Patent # 9,243,278 Issued January 26, 2016.

14. Achilli, T.M., McCalla, S., Tripathi, A., Morgan, J.R. “Differential Effects of Drugs on Transport in a Multi-layered 3D Spheroid Model” United States Patent #9,468,680. Issued October 18, 2016.
15. Chai, P., Mathiowitz, E., Morgan, J.R., Napolitano, A. P. “Methods and Devices for Encapsulating Cells.” United States patent filed January 24, 2016.
16. Blakely, A., Morgan, J.R., Murphy, J., Patterson, W., Tripathi, A. “Device for Engineering Thick Living Tissues”. United States Patent #9,771,554, Issued September 26, 2017.
17. Morgan, J.R., Chai, P., Napolitano, A. P., Mathiowitz, E., Dean, D. “Methods and Devices for Encapsulating Cells” United States Patent #9,587,213, Issued March 7, 2017.

Patented Scientific Products in the Marketplace

1. ViraDuctin™, Retrovirus Transduction Kit, sold by Cell Biolabs, Inc. United States Patent #6,884,613.
2. 3D PetriDish®, sold by Microtissues, Inc. and Sigma-Aldrich, Inc. United States Patent #8,361,781.

6. Research in Progress

My research group continues to be at the forefront of investigating the cellular and molecular rules of cell-to-cell aggregation that drives the self assembly of mono-dispersed cells into 3D microtissues and the use of 3D microtissues. Using micro-molded nonadhesive hydrogels, a novel technology developed by my lab (patents filed by Brown University, notices of allowance in US, Japan and EU), we are investigating differences between cell types in the extent and dynamics of self assembly, the ability of cells to self assemble complex branching microtissues (e.g., honeycombs) and the ability of a mixture of two different cell types to self-sort, whereby one cell type forms the inner core and the other cell type forms the outer coating of a 3D microtissue. We’ve devised a new toroid-on-cone assay to quantify for the first time the cellular forces driving the self assembly process and a new method to quantify the self sorting process. Further, we are dissecting the contribution of specific molecular systems (e.g., cytoskeletal proteins, surface adhesion molecules) to self assembly and self sorting. The cell-to-cell adhesion that drives self assembly and self sorting is fundamental to many processes in biology including developmental biology (e.g., morphogenesis), can be defective in disease (e.g., metastasis) and is critical to the field of tissue engineering which seeks to produce 3D tissue substitutes for *in vitro* testing and for the repair of diseased and damaged tissues. We have recently developed a new quantitative method of measuring drug transport into 3D spheroids and are using this to investigate the role of inhibitors of efflux pumps whose upregulation can be the cause of multi-drug resistance in cancer.

7. Service:

(i.) To the University

- 2002 - 2007 Founding Program Director, Graduate Program in Biomedical Engineering, Brown University, Providence, RI
- 2002 Member, Safety Committee for Division of Biology and Medicine, Brown University, Providence, RI
- 2004 Member, Faculty Search Committee, Interdisciplinary Initiative in Soft Materials, Brown University, Providence, RI
- 2005 Member, Committee to Review the Engineering Graduate Curriculum, Brown University, Providence, RI
- 2005 Member, Ad hoc Alliance for Nanoscale Innovation Steering Committee, Brown University, Providence, RI
- 2005 Member, Faculty Search Committee, Interdisciplinary Initiative in Soft Materials, Brown University, Providence, RI
- 2006 Member, Faculty Search Committee, Department Pathobiology, Brown University, Providence, RI
- 2006- 2008 Member, Graduate Council, Graduate School, Brown University, Providence, RI
- 2006- 2007 Member, Faculty Search Committee, Department Molecular Pharmacology, Physiology and Biotechnology, Brown University, Providence, RI
- 2007- 2008 Member, Faculty Search Committee, Department Molecular Pharmacology, Physiology and Biotechnology, Brown University, Providence, RI
- 2008 Member, Faculty Search Committee, Department Molecular Cell Biology, Brown University, Providence, RI
- 2011 Member, Faculty Search Committee, Biomedical Engineering, School of Engineering, Brown University, Providence, RI
- 2012 Member, Faculty Search Committee, Department Molecular Pharmacology, Physiology and Biotechnology, Brown University, Providence, RI
- 2012 Member, Faculty Search Committee for Chair, Department of Obstetrics and Gynecology, Warren Alpert Medical School of Brown University, Providence, RI

- 2013 Member, Steering Committee for Multi-photon Core Facility
- 2013 Member, Faculty Search Committee, Two Positions in Biomedical Engineering, School of Engineering, Brown University, Providence, RI
- 2013 Member, Faculty Search Committee, Neuroengineering, School of Engineering, Brown University, Providence, RI
- 2007 - 2016 Co-Director, Center for Biomedical Engineering, Brown University, Providence, RI
- 2015 - Member, Faculty Advisory Committee, Executive Masters in Science and Technology Leadership Degree,
- 2015 - Member, Molecular Pathology Core Advisory Committee, Brown University, Providence, RI
- 2014- Founding Member, Center to Advance Predictive Biology, Brown University, Providence, RI
- 2017- Director, Biotechnology Graduate program, Brown University, Providence, RI
- 2018- Director, Center to Advance Predictive Biology, Brown University, Providence, RI

<u>Past Postdoctoral Fellows</u>	<u>Year</u>	<u>Current Position</u>
Jaegwan Lee, Ph.D.	1991-1992	Professor, Chung-Ang University, Seoul, Korea
Jongwon Lee, Ph.D.	1992-1993	Professor, Taegu Catholic University School of Medicine, Taegu, Korea
Xiao-Ming Lu, Ph.D.	1991 - 1993	Research Scientist, Shriners Hospital for Children, Boston, MA
Howard Matthew, Ph.D.	1992 - 1994	Professor, Wayne State University, Detroit, MI
Sabine Eming, M.D./Ph.D.	1993 - 1996	Professor, Dermatology, University Koeln, Koeln, Germany

Daniel Medalie, M.D.	1994 - 1996	Assistant Professor, Case Western Reserve, Cleveland, Ohio
Maura Collins, Ph.D.	1995 - 1996	Associate Professor, Worcester State College, Worcester, MA
Deborah Quinn, M.D.	1995 - 1997	Assistant Professor in Pulmonary Medicine, Massachusetts General Hospital, Boston, MA
Charles Roth, Ph.D.	1995 - 1996	Associate Professor, Rutgers University, New Brunswick, NJ
Peter Stefanovich, M.D.	1995 - 1996	Instructor, Harvard Medical School, Boston, MA
H-G Machens, M.D.	1997 - 1997	Professor, Plastic Surgery, Hannover Medical School, Hannover, Germany
A. Gragnani, M.D./Ph.D.	1998 - 1998	Associate Professor, Plastic Surgery, University of Sao Paulo, Sao Paulo, Brazil
Stylianios Andreadis, Ph.D.	1996 - 1998	Professor, State University of New York, Buffalo, NY
Ray Samuels, M.D., Ph.D.	1996 - 1998	Instructor, Orthopedic Surgery, Children's Hospital, Boston, MA
William Lee, Ph.D.	1996 - 1999	Vice President R&D and Regulatory Affairs AST Products, Inc., Billerica, MA
George Pins, Ph.D.	1996 - 1999	Associate Professor, Worcester Polytechnic Institute, Worcester, MA
Joseph Le Doux, Ph.D.	1998 - 1999	Associate Professor, Georgia Institute of Technology, Atlanta, GA
Rashid Mohammed, Ph.D.	1999 - 2001	Postdoctoral Fellow, Beth Israel Hospital, Boston, MA
Karen Hamoen, M.D./Ph.D.	1998 – 2001	Resident, University of Utrecht Medical School, Utrecht, The Netherlands
Jane Tjia, Ph.D	2001 – 2002	Senior Scientist, InterCytex, Inc., Burlington, MA
Hinne Rakhorst, M.D.	2000 – 2002	Resident, Plastic Surgery, Erasmus University, Rotterdam, The Netherlands
Margaret Porembski, M.D.	2000 – 2002	Resident, General Surgery, Medical College of Pennsylvania, Philadelphia, PA

Christiane Sobral, M.D.	2002 – 2004	Resident, Plastic Surgery, University of Sao Paulo, Sao Paulo, Brazil
Gulsun Erdag, M.D.	2000 – 2004	Assistant Professor, Johns Hopkins University Baltimore, MD
Xudong Cao, Ph.D.	2002 – 2005	Associate Professor, University of Ottawa, Ottawa, Canada
Anelisa Companer, M.D.	2003 - 2005	Assistant Professor, University of Sao Paulo, Sao Paulo, Brazil
Stephan Krotz, M.D. Specialist,	2009 – 2010	Reproductive Endocrinology & Infertility Advanced Fertility Center, Houston, TX
Lorin Jakubek, Ph.D	2011-2012	Postdoctoral Associate, Sanofi, Cambridge, MA
Jacquelyn Youssef, Ph.D.	2005-2012	Assistant Professor (Research), Brown University, Providence, RI
Andrew Blakely, M.D.	2012-2014	Surgical Resident, Rhode Island Hospital, Providence, RI

(ii) To the Profession

Committees

- 1988 - 1989 Chairman, Institutional Biosafety Committee, Somatix Corporation, Cambridge, MA
- 1990 - 1991 Chairman, Animal Care and Use Committee, Somatix Corporation, Cambridge, MA
- 1993 - 1999 Facility Manager, Shriners Burns Institute Research Center, Cambridge, MA
- 1991 - 1992 Chairman, Ad hoc Planning Committee for Relocation to Cambridge, Shriners Hospital for Children, Boston, MA
- 1994 - 2000 Member, Subcommittee on Review of Research Proposals, Massachusetts General Hospital, Boston, MA
- 1995 - 1996 Chairman, Search Committee for Faculty in Wound Healing, Center for Engineering in Medicine, Massachusetts General Hospital, Boston, MA
- 1995 - 1996 Member, Planning Group for Center of Excellence in Bioengineering at Massachusetts General Hospital
- 1995 - 2001 Chairman, Operations Committee, Shriners Hospital for Children Research Center
- 1995 - 2002 Member, Scientific Council, Center for Engineering in Medicine, Massachusetts General Hospital
- 1996 - 2002 Member, Graduate Committee, Division of Health Sciences & Technology, Harvard-Massachusetts Institute of Technology
- 2000 - 2002 Member, Shriners Hospital for Children, Skin Bank Medical/Scientific Advisory Committee
- 2000-2009 Member External Advisory Committee, Georgia Tech/Emory University National Science Foundation Engineering Research Center, Center for the Engineering of Living Tissues
- 2001 Member, Advisory Editorial Board, – “Engineering in Medicine & Biology” publication series, Artech House Publishers
- 2005- 2007 Member, Scientific Advisory Board, NIH supported BioMEMS Resource Center, Massachusetts General Hospital, Boston, MA
- 2010-2014 Member, Editorial Board, *Biofabrication*, Institute of Physics Publishing, Bristol, UK

Meetings

- 1996 Session Co-Chairperson, 5th World Congress of Chemical Engineering, Cell Transplantation and Gene Therapy Symposium, San Diego, CA; 14-17 July
- 2000 Session Co-Chairperson, Annual Meeting of the Biomedical Engineering Society, Seattle, WA; 11-14 October
- 2007 Organizer and Member Scientific Advisory Board, Regional Bioengineering and Biotechnology Conference, University of Massachusetts, Dartmouth, MA
- 2010 Panelist, Medical Device Manufacturers Match Making Event, March 16th, Rhode Island Center for Innovation and Entrepreneurship (RI-CIE), Providence, RI
- 2010 Session Co-Chair, “Bioprinting of cells, proteins, and biologics.” 2010 International Conference on Biofabrication, Philadelphia, PA
- 2013 Session Chair, Functional Analysis & Screening Technologies Congress, Engineering 3D Tissues. Cambridge Healthcare Institute, Cambridge, MA
- 2015 Session Chair, 3D Cellular Models, Revitalizing Phenotypic Screening as part of 14th Annual World Preclinical Congress, Tackling Translational Challenges, Boston, MA
- 2015 Session Chair, 3rd Annual Functional Analysis & Screening Technologies Congress, 3D Cell Culture: Organoid, Spheroid, & Organ-on-a-Chip Models. Cambridge Healthcare Institute, Cambridge, MA

8. Academic honors, research grants, fellowships, honorary societies, listed chronologically.

Academic honors

- 1977 Departmental Award for Outstanding Achievement in Biology, Syracuse University, Syracuse, NY
- 1979 National Research Service Award in Viral Oncology
- 1983 - 1986 Damon Runyon Walter Winchell Postdoctoral Fellowship
- 1986 - 1988 Cancer Research Institute Postdoctoral Fellowship

1996	European Association of Plastic Surgeons Honorary Lecture
1996	La Roche-Posay International Foundation Prize
2009	Innovator of the Year, Providence Business News
2011	Innovation of the Year, Providence Business News
2015	Fellow, National Academy of Inventors
2016	Fellow, American Institute of Medical and Biological Engineering

Research grants

Current Research Funding

2014-2017	National Science Foundation Principal Investigator MRI Development of a Bio-Pick and Place Instrument for the Fabrication of 3D Organs from Complex Shaped Living Building Parts Total Direct Costs \$994,385
2014-2014	CR Bard Foundation, Inc. Principal Investigator CR Bard Scholars Program for Undergraduate Research Total Direct Costs \$9,000
2011-2014	National Science Foundation Co-Principal Investigator From Reconstituted Actin Networks to 3D Multi-cellular Microtissues: Multi- scale Models and Experiments on Contractility in Active Cytoskeletal Networks Total Direct Costs \$ 268,279

Past Research Funding

1991 - 1991	National Institute of Health /Small Business Innovative Research Grant Principal Investigator Cell-Based Delivery of Wound Healing Growth Factors Total Direct Costs \$50,000
1991 - 1991	National Institute of Health / Small Business Innovative Research Grant Principal Investigator Measuring the Disablement of Retroviral Vectors Total Direct Costs \$50,000

- 1992 - 2004 National Institute of Health /PO1
 Director, Molecular Biology Core
 Use of Genetically Modified Skin to Treat Disease
 Total Direct Costs \$989,075
- 1993 - 1998 National Institute of Health
 Principal Investigator
 Genetic Modification of Epidermal Stem Cells of the Skin
 Total Direct Costs \$325,000
- 1995 - 1997 Shriners Hospital for Children
 Principal Investigator
 Gene Therapeutics for Respiratory Complications Following Smoke
 Inhalation
 Total Direct Costs \$370,836
- 1996 - 1996 Shriners Hospital for Children
 Principal Investigator
 Towards a Cure for Epidermolysis Bullosa, an Inherited Blistering Skin
 Disease
 Total Direct Costs \$50,000
- 1996 - 1996 Shriners Hospital for Children
 Principal Investigator
 Development of an Animal Model for Keloids/Hypertrophic Scars
 Total Direct Costs \$50,000
- 1996 - 1997 Shriners Hospital for Children
 Principal Investigator
 Genetically Modified Epidermal Keratinocytes
 Total Direct Costs \$181,718
- 1997 - 1998 LifeCell, Inc.
 Principal Investigator
 Composite Grafts of AlloDerm with Patterned Surface of Allogeneic
 Keratinocytes
 Total Direct Costs \$35,000
- 1995 - 1997 Shriners Hospital for Children
 Co-Principal Investigator
 Susceptibility to Infection Following Thermal Injury
 Total Direct Costs \$290,863
- 1998 – 1998 Center for Engineering in Medicine/MGH
 Principal Investigator
 Evaluation of Factors Affecting the Efficiency of Recombinant Retrovirus-
 Mediated Gene Transfer

Total Direct Costs \$35,000

1997 - 1999 Shriners Hospital for Children
Principal Investigator
Determination of Cytokine Mediated Autocrine/Paracrine Controls of the
Cells of the Dermis
Total Direct Costs \$271,011

1997 - 1999 National Science Foundation
Co-Principal Investigator
The Role of Proteoglycans in Retroviral Mediated Gene Transfer
Total Direct Costs \$99,860

1998 - 2000 Shriners Hospital for Children
Principal Investigator
A Universal Allograft for the Burned Patient
Total Direct Costs \$386,727

1995 - 2000 Shriners Hospital for Children
Co-Principal Investigator
The Modulation of the Acute Phase Response Using Antisense Technology
Total Direct Costs \$800,910

2000 - 2002 Shriners Hospital for Children
Principal Investigator
Acellular Dermis with Autologous Keratinocytes as a Composite Skin Substitute
in Burn Resurfacing and Reconstruction
Total Direct Costs \$284,759

1997 - 2002 Shriners Hospital for Children
Co-Principal Investigator
Control of Fibroblast Activation in Hypertrophic Scar
Total Direct Costs \$612,480

2001 - 2003 Shriners Hospital for Children
Principal Investigator
Microfabrication of a Basement membrane: Applications in the Tissue
Engineering of Skin Structures
Total Direct Costs \$238,721

1999 - 2004 National Institute of Health
Principal Investigator
Modulating the Local Immune Microenvironment to Prolong Allograft Survival
Total Direct Costs \$544,825

2002 - 2004 Shriners Hospital for Children
Co-Principal Investigator
Anhydrobiotic Engineering of Living Skin Substitutes

Total Direct Costs \$333,505

2004 - 2005 National Institute of Health
Co- Principal Investigator
Biocompatibility at the Nanoscale
Total Direct Costs \$50,000

2006 - 2007 National Collegiate & Innovators Alliance
Principal Investigator
Novel 3D Cell Culture Device for Drug Discovery and Biopharmaceutical
Production
Total Direct Costs \$15,236

2007-2008 International Foundation for Ethical Research
Principal Investigator
Microtissues in Micromolded Hydrogels: Reducing Animal Use with In Vitro
Tissue Analogues
Total Direct Costs \$12,500

2005 - 2008 National Institute of Health
Co-Principal Investigator
Living Cell Arrays for Real Time Functional Genomics
Total Direct Costs \$ 403,212

2004 - 2009 Veterans Administration
Principal Investigator
Optimizing the Soft Tissue seal Around a Percutaneous Osseointegration Device
Total Direct Costs \$833,493

2005 - 2009 National Science Foundation
Co- Principal Investigator
Micropatterned Nanotopography Chips for Probing the Cellular Basis of
Biocompatibility and Toxicity
Total Direct Costs \$1,321,535

2010-2010 CR Bard Foundation, Inc.
Principal Investigator
“CR Bard Scholars Program for Undergraduate Research”
Total Direct Costs \$9,000

2009 - 2010 Rhode Island Science & Technology Award
Principal Investigator
An Application of the 3-D Petri Dish: The Human Artificial Ovary
Total Direct Costs \$200,000

2009-2012 National Institute of Health
Principal Investigator
Directed Self Assembly of Complex Branching Micro-Tissues

Total Direct Costs \$450,000

2005 – 2011 National Science Foundation
Investigator
Materials Research Science and Engineering Center
Micro- and Nano- Mechanics of Materials
Total Direct Costs \$1,508,745

2010-2012 Department of Defense
Co-Principal Investigator
Engineering Replacement Tissues with Amniotic Stem Cells
Total Direct Costs \$230,530

2011-2012 National Institute of Health /Small Business Innovative Research Grant
Co-Principal Investigator
Cell-based Model for Electrical Stimulation Safety Studies
Total Direct Costs \$32,661

2011-2011 CR Bard Foundation, Inc.
Principal Investigator
CR Bard Scholars Program for Undergraduate Research
Total Direct Costs \$9,000

2010-2012 Airlift Foundation
Consortium PI
In Vitro Optimization and Large Animal Study of Anti-Infective, Bioactive
Intramedullary (IM) Nails
Total Direct Costs \$87,000

2012-2012 CR Bard Foundation, Inc.
Principal Investigator
CR Bard Scholars Program for Undergraduate Research
Total Direct Costs \$9,000

2013-2013 CR Bard Foundation, Inc.
Principal Investigator
CR Bard Scholars Program for Undergraduate Research
Total Direct Costs \$9,000

2012-2013 Johnson & Johnson Innovation Partnership Award
Principal Investigator
A Novel Method to Quantify Drug Transport in 3D and Identify New More
Effective Inhibitors of Efflux Pumps
Total Direct Costs \$50,000

2013-2014 Johns Hopkins University
Principal Investigator
A New 3D In Vitro Model of Chemical Transport Across the Human Placenta

Total Direct Costs \$15,000

2013-2014 Brown Institute for Brain Science
Investigator
A Bioengineered Model of Stem Cell Manipulation and Cell Transplantation for
Neurological Diseases
Total Direct Costs \$30,000

Proposals Submitted

2015-2020 National Institute of Health
Co-Principal Investigator
Bioengineering Research Partnership: A 3D Microtissue Platform for High-
Content Imaging and In Vitro Toxicity Testing
Total Direct Costs (JRM) \$748,151
Submitted

2013-2018 National Science Foundation
Co-Principal Investigator
EPSCoR RII Track 1 Program
The Ocean State Coastal Observatory (OSCO): Enhancing Rhode Island's Coastal
Environment
Total Direct Costs (Brown) \$2,041,296
Submitted

2013-2018 National Institute of Health
Principal Investigator
The Activated Heterotypic Cell Interface Enhances 3D Biomechanics
Total Direct Costs \$1,250,000
Submitted

9. Teaching: Chronologically

06-19-93 Instructor, "An Overview of Proto-Oncogenes." Massachusetts General Hospital,
Boston, MA, 20 surgical house officers, 5 hrs /year preparation time, 2 hr/year
contact time.

06-26-93 Instructor, "An Overview of Cell Signaling Processes." Massachusetts General
Hospital, Boston, MA, 20 surgical house officers, 5 hrs /year preparation time, 2
hr/year contact time.

05-18-95 Lecturer, "Genetic Engineering of Skin Grafts." Engineering in Medicine,
Seminar Series at the Massachusetts General Hospital, Boston, MA, faculty, 5-10
graduate students, 10-20 postdoctoral fellows, 3 hrs /year preparation time, 1
hr/year contact time.

10-02-95 Lecturer, "Materials Engineering and Molecular Biology in Artificial Skin
Development." HST 595, Tutorial in Medical Engineering and Medical

- Physics, Massachusetts Institute of Technology, Cambridge, MA, 30-40
graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 01-16-96 Lecturer, "Differential Connective Tissue Formation: Effects of Cell Associated versus Secreted Isoforms of PDGF-BB." Research Seminar, Gastrointestinal Unit, Massachusetts General Hospital, Boston MA, faculty, 5-10 graduate students, 10-20 postdoctoral fellows, 3 hrs /year preparation time, 1 hr/year contact time.
- 10-10-96 Lecturer, "Engineering Genetic Strategies For Tissue Repair." HST 590, Biomedical Engineering Seminars, Section on Molecular and Cellular Processes, Massachusetts Institute of Technology Cambridge, MA, 30-40 graduate students, 4hrs /year preparation time, 2 hr/year contact time.
- 01-17-97 Lecturer, "Genetic Control of Paracrine and Autocrine Controls of the Skin." Department of Pathology/Research North Seminar Series, Beth Israel Hospital, Boston, MA, faculty, 5-10 graduate students, 10-20 postdoctoral fellows, 3 hrs /year preparation time, 1 hr/year contact time.
- 03-04-97 Lecturer, "Industrial Round Table." HST 596, Tutorial in Medical Engineering and Medical Physics, Massachusetts Institute of Technology, Cambridge, MA, 30-40 graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 03-06-97 Lecturer, "Growth Factor Gene Therapy for Wound Healing of the Skin." Biomedical Colloquium Series, Graduate Programs In Biomedical Science, Bouve College of Pharmacy and Health Sciences, Northeastern University, Boston, MA, faculty, 30-40 graduate students, 2 hrs/year preparation time, 1 hr/year contact time.
- 04-17-97 Lecturer, "Gene Delivery to Keratinocytes." Genetics 208, Gene Therapy: Principles and Practice, Harvard Medical School, Boston, MA, 12 graduate students, 5 medical students, 4hrs/year preparation time, 2 hr contact time.
- 09-09-97 Lecturer, "Advances in Artificial Skin Development." HST 595, Tutorial in Medical Engineering and Medical Physics, Massachusetts Institute of Technology, Cambridge, MA, 30-40 graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 02-24-98 Lecturer, "Industrial Round Table." HST 596, Tutorial in Medical Engineering and Medical Physics, Massachusetts Institute of Technology, Cambridge, MA, 30-40 graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 02-26-98 Lecturer, "Surgical Grand Rounds." Massachusetts General Hospital, Boston, MA, faculty, 20-30 residents, 5-10 medical students, 2 hrs /year preparation time, 1hr/year contact time.
- 09-15-98 Lecturer, "Burn Surgery and Tissue Engineering." HST 595, Tutorial in Medical Engineering and Medical Physics, Massachusetts Institute of Technology,

- Cambridge, MA, 30-40 graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 03-16-99 Lecturer, "Industrial Round Table." HST 596, Tutorial in Medical Engineering and Medical Physics, Massachusetts Institute of Technology, Cambridge, MA, 30-40 graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 09-21-99 Lecturer, "Burn Surgery and Tissue Engineering." HST 595, Tutorial in Medical Engineering and Medical Physics, Massachusetts Institute of Technology, Cambridge, MA, 30-40 graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 11-03-99 Lecturer, "Skin Biology and Engineering." Seminar Series in Biomedical Science and Engineering, Center for Engineering in Medicine, Massachusetts General Hospital, Boston, MA, faculty, 5-10 graduate students, 10-20 postdoctoral fellows, 3 hrs /year preparation time, 1 hr/year contact time.
- 11-23-99 Lecturer, "Composite Skin Experience." Surgical Grand Rounds, Massachusetts General Hospital, Boston, MA, faculty, 20-30 residents, 5-10 medical students, 3 hrs/year preparation time, 1 hr/year contact time.
- 09-13-00 "Gene Therapy: Construction and Delivery of Viral Vectors." Bioprocess Engineering: Fundamental and Real World Perspectives, 16:155:532 (02) Rutgers University, New Brunswick, New Jersey.
- 09-19-00 Lecturer, "Burn Surgery and Tissue Engineering." HST 595, Tutorial in Medical Engineering and Medical Physics, Massachusetts Institute of Technology, Cambridge, MA, 30-40 graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 09-21-00 Lecturer, "Improving Cultured Skin Performance by Stimulating the Innate Immune Response." Surgical Grand Rounds, Massachusetts General Hospital, Boston, MA, faculty, 20-30 residents, 5-10 medical students, 3 hrs/year preparation time, 1 hr/year contact time.
- 10-19-00 Lecturer, "Industrial Round Table." HST 596 Tutorial in Medical Engineering and Medical Physics, Massachusetts Institute of Technology, Cambridge, MA, 30-40 graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 1995 – 2006 Course Director and Instructor, HST 505: Laboratory in Molecular and Cellular Sciences, Center for Engineering in Medicine, Massachusetts General Hospital, Harvard-MIT Division of Health Science & Technology, 5 Continuing Medical Education students and 10-12 postdoctoral fellows and graduate students, 60 hrs/year preparation time, 20 hrs/year contact time.
- 03-12-01 Workshop Leader, "Tissue Engineering and Microdevices." Experiencing the Frontiers of Biomedical Technology, The Harvard-MIT Division of Health Sciences and Technology, Boston, MA, faculty, 22 mixed professionals: venture

capitalists, personnel from various media, senior medical device experts, senior research personnel, 24 hrs/year preparation time, 6 hr/year contact time.

- 10-18-01 Lecturer, "Tissue Engineering of Skin." Donor Appreciation Program, Shriners Burns Hospital, 20 mixed professionals and laypersons, 2 hrs preparation time, 1 hr/year contact time.
- 10-18-01 Lecturer, "Burn Surgery and Tissue Engineering." HST 595, Tutorial in Medical Engineering and Medical Physics, Massachusetts Institute of Technology, Cambridge, MA, 30-40 graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 01-28-02 "Tissue Engineering of Skin." Tissue Engineering II: Biomedical and Biotechnological Application, 14:125:492, Rutgers University, New Brunswick, NJ.
- 04-16-02 Lecturer, "Living Skin Equivalents." BIO 108 Organ Replacement, Brown University, Providence, RI, 60 undergraduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 12-03-02 Lecturer, "Advances in Gene Therapy." BIO 217 Receptors, Channels and Signaling, Brown University, Providence, RI, 8 graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 12-04-02 Lecturer, "Introduction to Gene Therapy." BIO 17 Biotechnology in Medicine, Brown University, Providence, RI, 50 undergraduate students, 3 hrs /year preparation time, 1 hr/year contact time.
- 10-28-03 Lecturer, "Burn Surgery and Tissue Engineering." HST 595, Tutorial in Medical Engineering and Medical Physics, Massachusetts Institute of Technology, Cambridge, MA 12 graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 11-17-03 Lecturer, "Viral-Mediated Gene Delivery." BIO 211 Drug and Gene Delivery, Brown University, Providence, RI, 6 undergraduate and graduate students, 4 hrs /year preparation time, 1.5 hr/year contact time.
- 03-01-04 Lecturer, "Cells and Cell Culture." BIO 114 Tissue Engineering, Brown University, Providence, RI, 20 undergraduate students, 4 hrs /year preparation time, 1.5 hr/year contact time.
- 04-20-04 Lecturer, "Living Skin Equivalents." BIO 108 Organ Replacement, Brown University, Providence, RI, 60 undergraduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 05-06-04 Lecturer, "Drug Delivery in Dermatological Diseases." BIO 274 Organ System Pharmacology, Brown University Medical School, Providence, RI, 80, 2nd yr medical students, 6 hrs /year preparation time, 1.5 hr/year contact time

- 03-07-05 Lecturer, "Cell Adhesion." PH199/BI194 Biophysical Techniques, Brown University, Providence, RI, 24, grad and undergraduate students, 6 hrs /year preparation time, 1.5 hr/year contact time.
- 05-03-05 Lecturer, "Drug Delivery in Dermatological Diseases." BIO 274 Organ System Pharmacology, Brown University Medical School, Providence, RI, 80, 2nd yr medical students, 6 hrs /year preparation time, 1.5 hr/year contact time.
- 11-08-05 Lecturer, "Burn Surgery and Tissue Engineering." HST 595, Tutorial in Medical Engineering and Medical Physics, Massachusetts Institute of Technology, Cambridge, MA 12 graduate students, 4 hrs /year preparation time, 2 hr/year contact time.
- 04-18-06 Lecturer, "Potential Impact of Nanotechnology on Skin." EN 292 Small Wonders: The Science, Technology and Human Health Impacts of Nanotechnology",
Brown University, Providence, RI, 30, graduate and undergraduate students, 6 hrs /year preparation time, 1.5 hr/year contact time.
- 04-20-06 Lecturer, "Engineering the Materials/Biointerface Using Phage Display Technology." EN 292 Small Wonders: The Science, Technology and Human Health Impacts of Nanotechnology", Brown University, Providence, RI, 30, graduate and undergraduate students, 6 hrs /year preparation time, 1.5 hr/year contact time.
- 05-02-06 Lecturer, "Drug Delivery in Dermatological Diseases." BIO 351 Integrative Pathophysiology/Pharmacology, Brown University Medical School, Providence, RI, 80, 2nd yr medical students, 6 hrs /year preparation time, 1.5 hr/year contact time.
- 05-03-06 Lecturer, "Cell Adhesion." PH202/BI194.5 Biophysical Techniques, Brown University, Providence, RI, 24, grad and undergraduate students, 6 hrs /year preparation time, 1.5 hr/year contact time.
- 11-17-06 Lecturer, "Genetic Medicine I: Technologies for Gene Transfer." BIO 17 Biotechnology in Medicine, Brown University, Providence, RI, 100 undergraduate students, 3 hrs /year preparation time, 1 hr/year contact time.
- 11-20-06 Lecturer, "Genetic Medicine II: Human Gene Therapy." BIO 170 Biotechnology in Medicine, Brown University, Providence, RI, 100 undergraduate students, 3 hrs /year preparation time, 1 hr/year contact time.
- 09-24-07 Lecturer, "Techniques in Synthetic Biology." BIO 1940 Synthetic Biological Systems, Brown University, Providence, RI, 30 undergraduate students, 3 hrs /year preparation time, 1 hr/year contact time.

- 11-26-07 Lecturer, "Stem Cells." BIO 0170 Biotechnology in Medicine Brown University, Providence, RI, 100 undergraduate students, 4 hrs /year preparation time, 1 hr/year contact time.
- 02-14-08 Lecturer, "Scaffold-free self-assembled 3D Micro-tissues." Bio 1140 Tissue Engineering, Brown University, Providence, RI, 15 undergraduate students, 4 hrs /year preparation time, 1.5 hr/year contact time.
- 03-05-08 Lecturer, "Use of Micro-molding for the Self Assembly of Complex Shaped Living Micro-tissues." Freshman Seminar, Art/Physics, Brown University, Providence, RI, 10 undergraduate students, 3 hrs /year preparation time, 1.5 hr/year contact time.
- 02-09-09 Lecturer, "Scaffold-free self-assembled 3D Micro-tissues", BIO 1140 Tissue Engineering, Brown University, Providence, RI, 20 undergraduate students, 4 hrs /year preparation time, 1.5 hr/year contact time.
- 03-15-09 Lecturer, "Non-adhesive Micro-molded Agarose for the Self Assembly of 3D Microtissues.", BIO 1120 Biomaterials, Brown University, Providence, RI, 22 undergraduate students, 4 hrs /year preparation time, 1.5 hr/year contact time.
- 02-09-10 Lecturer, "Rods, Toroids and Honeycombs: The Directed Self Assembly of Microtissues with Complex Geometries.", BIO 1120 Biomaterials, Brown University, Providence, RI, 22 undergraduate students, 4 hrs /year preparation time, 1.5 hr/year contact time.
- 02-08-11 Lecturer, "Scaffold-free self-assembled 3D Micro-tissues", BIO 1140 Tissue Engineering, Brown University, Providence, RI, 20 undergraduate students, 4 hrs /year preparation time, 1.5 hr/year contact time.
- 02-12-12 Lecturer, "Scaffold-free self-assembled 3D Micro-tissues", BIO 1140 Tissue Engineering, Brown University, Providence, RI, 20 undergraduate students, 4 hrs /year preparation time, 1.5 hr/year contact time.
- 09-10-12 Lecturer, "Drug Transport in 3D Tumor Spheroids" BIO 2170 Molecular Pharmacology and Physiology, Brown University, Providence, RI, 2-5 graduate students, 4 hrs /year preparation time, 1.0 hr/year contact time.
- 09-27-12 Lecturer, "Scaffold-free self-assembled 3D Micro-tissues", BIO 1140 Tissue Engineering, Brown University, Providence, RI, 20 undergraduate students, 4 hrs /year preparation time, 1.5 hr/year contact time.
- 1/13-16/14 Workshop Leader, IMSD "Defending Your Research Proposal and Critiquing Those of Others". Brown University, Providence, RI, 15 graduate students, 8hr contact time.

- 4/16/14 Lecturer, “Microtissues, Inc: Technology and Business Model”, Program in Innovation Management and Entrepreneurship, PRIME, Brown University, Providence, RI, 20 graduate students, 3hr contact time.
- 1/12-15/15 Workshop Leader, IMSD “Defending Your Research Proposal and Critiquing Those of Others”. Brown University, Providence, RI, 12 graduate students, 8hr contact time.
- 3/16/15 Lecturer, “Importance of Transporters and Tissue Architecture in Drug Uptake”, ENGN 2910S Cancer Nanotechnology, Brown University, Providence, RI, 20 undergraduates/graduate students, 1hr contact time.
- 10/6/15 Lecturer, “Conflict of Interest” Responsible Conduct in Research Training, Brown University, Providence, RI, 50 graduate students, 1hr contact time.
- 3/9/16 Panelist, “Industry-Academia Partnerships: Perils vs Promise” Brown University Superfund Research/Program/NIEHS T32 Workshop, Brown University, Providence, RI, 50 graduate students, 4hr contact time.
- 4/3/17 Lecturer, “Conflict of Interest” Responsible Conduct in Research Training, Brown University, Providence, RI, 50 graduate students, 1hr contact time.
- 4/13/17 Lecturer, “Bringing the 3D PetriDish® to the Marketplace” ENGN 2910G Topics in Translational Research and Technologies, Brown University, Providence, RI, 20 undergraduates/graduate students, 1hr contact time.
- 10/2/17 Lecturer, “Can We Build Organs?” BIOL 0100 Living Biology at Brown and Beyond, Brown University, Providence, RI, 20 undergraduates, 30 minutes contact time.
- 11/1/17 Lecturer, “Can We Build Organs?” BIOL 0170 Biotechnology in Medicine, Brown University, Providence, RI, 100 undergraduates, 60 minutes contact time.
- 9/13/18 Lecturer, “Can We Build Organs?” BIOL 0100 Living Biology at Brown and Beyond, Brown University, Providence, RI, 20 undergraduates, 30 minutes contact time.
- 12/1/17 Lecturer, Designer 3D Spheroids for Testing Drugs and Toxicants”, BIOL 2170 Molecular Pharmacology and Physiology, Brown University, Providence, RI, 7 graduate students, 60 minutes contact time.
- 3/15/18 Lecturer, High Throughput Screening: Automated Biochemical and Biological Experiments”, BIOL 1820 Environmental Health and Disease, Brown University, Providence, RI, 40 undergraduates and graduate students, 60 minutes contact time.
- 10/2/18 Lecturer, “Conflict of Interest” Responsible Conduct in Research Training, Brown University, Providence, RI, 50 graduate students, 1hr contact time.

- 11/28/18 Lecturer, Designer 3D Spheroids for Testing Drugs and Toxicants”, BIOL 2170 Molecular Pharmacology and Physiology, Brown University, Providence, RI, 7 graduate students, 90 minutes contact time.
- 2003- 2014 Course Director, BIOL 2130 Techniques in Molecular and Cellular Sciences, Brown University, Providence, RI, 11 graduate, 1 undergraduate students, 24 hrs /week preparation time, 8 hr/week contact time.
- 2003- Co-Course Director, BIOL 2230/2240 Biotechnology and Biomedical Engineering Seminar, Brown University, Providence, RI, 40 graduate students, 3hr/week contact time.
- 2003 - Course Director, BIOL 1950/1960 Independent Research, Brown University, Providence, RI, 3-4 undergraduates/year, 6 hrs / week preparation time, 3 hr/week contact time.
- 2013-2016 Co-Course Director, BIOL 2167 In Vitro Models of Disease, Brown University, Providence, RI, 5 graduate students, 3hr/week contact time.
- 2016- Course Director, BIOL 2180 Importance of Intellectual Property in Biotechnology, Brown University, Providence, RI, 12 graduate students, 3hr/week contact time.
